Hachette Books
New York Times bestselling author Laura
Thompson returns with Heiresses, a

fascinating look at the lives of heiresses throughout history and the often tragic truth beneath the gilded surface. Heiresses: surely they are among the luckiest women on earth. Are they not to be envied, with their private jets and Chanel wardrobes and endless funds? Yet all too often those gilded lives have been beset with trauma and despair. Before the 20th century a wife's

inheritance was the property of her husband, making her vulnerable to kidnap, forced marriages, even confinement in an asylum. And in modern times, heiresses fell victim to fortune-hunters who squandered their millions. *Heiresses* tells the stories of these million dollar babies: Mary Davies, who inherited London's most valuable real estate, and was bartered from the age of twelve; Consuelo Vanderbilt, the original American "Dollar Heiress", forced into a loveless marriage; Barbara Hutton, the Woolworth heiress who married seven times and died almost penniless; and Patty Hearst, heiress to a newspaper fortune who was arrested for terrorism. However, there are also stories of independence and achievement: Angela Burdett-Coutts,

who became one of the greatest philanthropists of Victorian England; Nancy Cunard, who lived off her mother's fortune and became a pioneer of the civil rights movement; and Daisy Fellowes, elegant linchpin of interwar high society and noted fashion editor. *Heiresses* is about the lives of the rich, who—as F. Scott Fitzgerald said—are 'different'. But it is also a bigger story about how all women fought their way to equality, and sometimes even found autonomy and fulfillment.

The Gospel According to Mark Penguin

The transition from President Donald J. Trump to President Joseph R. Biden Jr. stands as one of the most dangerous periods in American history. But as # 1 internationally bestselling author Bob

Woodward and acclaimed reporter Robert Costa reveal for the first time, it was far more than just a domestic political crisis. Woodward and Costa interviewed more than 200 people at the center of the turmoil, resulting in more than 6,000 pages of transcripts—and a spellbinding and definitive portrait of a nation on the brink. This classic study of Washington takes readers deep inside the Trump White House, the Biden White House, the 2020 campaign, and the Pentagon and Congress, with vivid, eyewitness accounts of what really happened. Peril is supplemented throughout with never-before-seen material from secret orders, transcripts of confidential calls, diaries, emails, meeting notes and other personal and government records, making for an

unparalleled history. It is also the first inside look at Biden's presidency as he faces the challenges of a lifetime: the continuing deadly pandemic and millions of Americans facing soul-crushing economic pain, all the while navigating a bitter and disabling partisan divide, a world rife with threats, and the hovering, dark shadow of the former president. "We have much to do in this winter of peril," Biden declared at his inauguration, an event marked by a nerve-wracking security alert and the threat of domestic terrorism. Peril is the extraordinary story of the end of one presidency and the beginning of another, and represents the culmination of Bob Woodward's news-making trilogy on the Trump presidency, along with *Fear and Rage*. And it is the beginning of a

collaboration with fellow Washington Post reporter Robert Costa that will remind readers of Woodward's coverage, with Carl Bernstein, of President Richard M. Nixon's final days.

 "If you're only going to read one Everest book this decade, make it *The Third Pole*. . . . A riveting adventure."—Outside

Shivering, exhausted, gasping for oxygen, beyond doubt . . . A hundred-year mystery lured veteran climber Mark Synnott into an unlikely expedition up Mount Everest during the spring 2019 season that came to be known as "the Year Everest Broke." What he found was a gripping human story of impassioned characters from around the globe and a mountain that will consume your soul—and your life—if you let it. The mystery? On June 8, 1924, George Mallory and Sandy Irvine set out to stand on the roof of the world, where no one had stood before. They were last seen eight hundred feet shy of Everest's summit still "going strong" for the top. Could they have succeeded decades before Sir Edmund Hillary and Tenzing Norgay? Irvine is believed to have

carried a Kodak camera with him to record their attempt, but it, along with his body, had never been found. Did the frozen film in that camera have a photograph of Mallory and Irvine on the summit before they disappeared into the clouds, never to be seen again? Kodak says the film might still be viable. . . . Mark Synnott made his own ascent up the infamous North Face along with his friend Renan Ozturk, a filmmaker using drones higher than any had previously flown. Readers witness first-hand how Synnott's quest led him from oxygen-deprivation training to archives and museums in England, to Kathmandu, the Tibetan high plateau, and up the North Face into a massive storm. The infamous traffic jams of climbers at the very summit immediately resulted in tragic

deaths. Sherpas revolted. Chinese officials turned on Synnott's team. An Indian woman miraculously crawled her way to frostbitten survival. Synnott himself went off the safety rope—one slip and no one would have been able to save him—committed to solving the mystery. Eleven climbers died on Everest that season, all of them mesmerized by an irresistible magic. The Third Pole is a rapidly accelerating ride to the limitless joy and horror of human obsession.

BOOK REVIEW (Editors' Choice) "A searing portrait of the complicated women caught in the orbit of a serial killer. . . . Compassionate and thought-provoking." –BRIT BENNETT, #1 New York Times bestselling author of *The Vanishing Half* Recommended by New York Times Book Review • Los Angeles Times • Washington Post • Entertainment Weekly • Esquire • Good Housekeeping • USA Today • BuzzFeed • Goodreads • Real Simple • Marie Claire • Rolling Stone • Business Insider • Bustle • PopSugar • The Millions • The Guardian • and many more! In the tradition of *Long Bright River* and *The Mars Room*, a gripping and atmospheric work of literary suspense that deconstructs the story of a serial killer on death row, told primarily through the

eyes of the women in his life—from the bestselling author of *Girl in Snow*. Ansel Packer is scheduled to die in twelve hours. He knows what he's done, and now awaits execution, the same chilling fate he forced on those girls, years ago. But Ansel doesn't want to die; he wants to be celebrated, understood. Through a kaleidoscope of women—a mother, a sister, a homicide detective—we learn the story of Ansel's life. We meet his mother, Lavender, a seventeen-year-old girl pushed to desperation; Hazel, twin sister to Ansel's wife, inseparable since birth, forced to watch helplessly as her sister's relationship threatens to devour them all; and finally, Saffy, the detective hot on his trail, who has devoted herself to bringing bad men to justice but struggles to see her own life clearly. As

the clock ticks down, these three women sift through the choices that culminate in tragedy, exploring the rippling fissures that such destruction inevitably leaves in its wake. Blending breathtaking suspense with astonishing empathy, *Notes on an Execution* presents a chilling portrait of womanhood as it simultaneously unravels the familiar narrative of the American serial killer, interrogating our system of justice and our cultural obsession with crime stories, asking readers to consider the false promise of looking for meaning in the psyches of violent men. "Poetic and mesmerizing . . . Powerful, important, intensely human, and filled with a unique examination of tragedy, one where the reader is left with a curious emotion: hope." —USA TODAY "A profound and

staggering experience of empathy that challenges us to confront what it means to be human in our darkest moments. . . . I relished every page of this brilliant and gripping masterpiece."—ASHLEY AUDRAIN, New York Times bestselling author of *The Push*

On June 17, 2015, a white supremacist entered Emanuel AME Church in Charleston, South Carolina, and sat with some of its parishioners during a Wednesday night Bible study session. An

hour later, he began expressing his hatred for African Americans, and soon after, he shot nine church members dead, the church's pastor and South Carolina state senator, Rev. Clementa C. Pinckney, among them. The ensuing manhunt for the shooter and investigation of his motives revealed his beliefs in white supremacy and reopened debates about racial conflict, southern identity, systemic racism, civil rights, and the African American church as an institution. In the aftermath of the massacre, Professors Chad Williams, Kidada Williams, and Keisha N. Blain sought a way to put the murder—and the subsequent debates about it in the media—in the context of America's tumultuous history of race relations and racial violence on a global scale. They

created the Charleston Syllabus on June 19, starting it as a hashtag on Twitter linking to scholarly works on the myriad of issues related to the murder. The syllabus's popularity exploded and is already being used as a key resource in discussions of the event. Charleston Syllabus is a reader—a collection of new essays and columns published in the wake of the massacre, along with selected excerpts from key existing scholarly books and general-interest articles. The collection draws from a variety of disciplines—history, sociology, urban studies, law, critical race theory—and includes a selected and annotated bibliography for further reading, drawing from such texts as the Confederate constitution, South Carolina's secession declaration, songs,

poetry, slave narratives, and literacy texts. As timely as it is necessary, the book will be a valuable resource for understanding the roots of American systemic racism, white privilege, the uses and abuses of the Confederate flag and its ideals, the black church as a foundation for civil rights activity and state violence against such activity, and critical whiteness studies.

From the award-winning and bestselling author of *Cod* comes the dramatic, human story of a simple substance, an element almost as vital as water, that has created fortunes, provoked revolutions, directed economies and enlivened our recipes. Salt is common, easy to obtain and inexpensive. It is the

stuff of kitchens and cooking. Yet trade routes were established, alliances built and empires secured – all for something that filled the oceans, bubbled up from springs, formed crusts in lake beds, and thickly veined a large part of the Earth’s rock fairly close to the surface. From pre-history until just a century ago – when the mysteries of salt were revealed by modern chemistry and geology – no one knew that salt was virtually everywhere. Accordingly, it was one of the most sought-after commodities in human history. Even today, salt is a major industry. Canada, Kurlansky tells us, is the world’s sixth largest salt producer, with salt works in Ontario playing a major role in satisfying the Americans’ insatiable demand. As he did in his highly acclaimed *Cod*, Mark Kurlansky

once again illuminates the big picture by focusing on one seemingly modest detail. In the process, the world is revealed as never before.

Selected by the Modern Library as one of

the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American

literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-spoken. I thought so right up to the moment I cut his throat." Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers' flight, Capote's account is so detailed that the reader comes to feel almost like a participant in the events.

"We cannot change the cards we are dealt, just how we play the hand."---

Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences

can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have...and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In

this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

A Social Study University of Pennsylvania Press

The transatlantic slave trade brought individuals from diverse African regions and cultures to a common destiny in the American South. In this comprehensive

study, Michael Gomez establishes tangible links between the African American community and its African origins and traces the process by which African populations exchanged their distinct ethnic identities for one defined primarily by the conception of race. He examines transformations in the politics, social structures, and religions of slave populations through 1830, by which time the contours of a new African American identity had begun to emerge. After discussing specific ethnic groups in Africa, Gomez follows their movement to North America, where they tended to be

amassed in recognizable concentrations within individual colonies (and, later, states). For this reason, he argues, it is possible to identify particular ethnic cultural influences and ensuing social formations that heretofore have been considered unrecoverable. Using sources pertaining to the African continent as well as runaway slave advertisements, ex-slave narratives, and folklore, Gomez reveals concrete and specific links between particular African populations and their North American progeny, thereby shedding new light on subsequent African American social formation.
