Dedicated to R. K. Narayan 15 Years After His Death A timeless search for personal identity where the various kinds of love penetrate one another in unexpected ways Following in the footsteps of his literary hero, India's R. K. Narayan, the protagonist and assistant professor, Thomas Sleiman, explores the relationship among the different kinds of loves in the heady context of a search for personal identity. Erotic, divine, and

familial loves all compete and complement one another in the life of Thomas, who is not the regular literary gangster, or the predictable member of a community of deviant dilettante. . .as the conclusion, with all of its mysticism, genuine affection, respect for the “dead” Narayan, and devotion to the beloved, clearly testifies. - Anthony Aookeregbe In An Assistant Professor Salam skillfully combines postmodern and traditional perspectives to create a profound, moving, and sometimes disturbing vision of a life and career spanning ethnic, geographical, moral, and ideological boundaries. . .As he surveys the wreckage of the postmodern world, Salam’s carefully situated narrative is enriched by reflections on the literary work of Narayan and Graham Greene as well as on a shelf-full of contemporary poets, philosophers, and theologians. . .One is left in the end puzzling over whose voice is heard when the main character protests that “I don't live to write nor do I write to live. I am just an Assistant Professor, professing mostly my ignorance of things that most everyone else thinks are obvious. For some mysterious reason, I have been compelled lately to write a book, which I want people to read." They will not be disappointed. - Meister Richard Woods, O.P.

THE CLASSIC GUIDE TO DRAWING FOR DESIGNERS, REVISED AND UPDATED TO INCLUDE CURRENT DIGITAL-DRAWING TECHNIQUES

Hand drawing is an integral part of the design process and central to the architecture profession. An architect's precise interpretation and freedom of expression are captured through hand drawing, and it is perhaps the most fundamental skill that the designer must develop in order to communicate thoughts and ideas effectively. In his distinctive style, world-renowned author Francis D. K. Ching presents *Design Drawing, Third Edition*, the classic guide to hand drawing that clearly demonstrates how to use drawing as a practical tool for formulating and working through design problems. While digital tools continue to evolve, this Third Edition includes new illustrations and information on the latest digital-drawing techniques. *Design Drawing, Third Edition* covers the basics of drawing, including line, shape, tone, and space. Guiding the reader step-by-step through the entire drawing process, this Third Edition also examines different types of drawing techniques such as multiview, paraline, and perspective drawings—and reveals how the application of these techniques creates remarkable results. In addition, *Design Drawing, Third Edition*:

- Features over 1,500 hand drawings—stunning illustrations in the author's signature style that reinforce the concepts and lessons of each chapter
- Offers new exercises and illustrative examples that range in complexity
- Presents all-new digital drawing topics, such as hybrid floor plans, digital models and fabrication, and hand-to-digital fluency

- Includes access to a new website featuring videos of the author demonstrating freehand techniques in a step-by-step manner in the studio and on location. Written and illustrated for professional architects, designers, fine artists, illustrators, instructors and students, Design Drawing, Third Edition is an all-in-one package and effective tool that clearly demonstrates drawing concepts and techniques in a visually stimulating format that outshines other works in the field.

This report presents the conceptual foundations of the OECD Programme for International Student Assessment (PISA), now in its seventh cycle of comprehensive and rigorous international surveys of student knowledge, skills and well-being. Like previous cycles, the 2018 assessment covered reading, mathematics and science, with the major focus this cycle on reading literacy, plus an evaluation of students' global competence - their ability to understand and appreciate the perspectives and world views of others. Financial literacy was also offered as an optional

assessment.
