I'll Never Get Out of this World Alive A&C Black (Vocal). Corigliano's Mr. Tambourine Man: Seven Poems of Bob Dylan was a commission by The Carnegie Hall Corporation for Sylvia McNair and was premiered at her Carnegie Hall recital given March 15, 2002 with Martin Katz at the piano. Corigliano, who had never encountered Dylan's own musical settings of the chosen poems, has given us new musical settings of icons of American folk music from the 1960s.

Doc Ebersole lives with the ghost of Hank Williams. Literally. In 1963, ten years after giving Hank the overdose that killed him, Doc is wracked by addiction. Having lost his licence to practise medicine, he lives in a rented room in the red-light district on

the south side of San Antonio, performing abortions and patching up the odd knife or gunshot wound. But when Graciela, a young Mexican immigrant, appears in the neighbourhood in search of Doc's services, miraculous things begin to happen. Everyone she meets is transformed for the better, except, maybe, for Hank's angry ghost - who isn't at all pleased to see Doc doing well. *I'll Never Get Out of This World Alive* is a poetic ghost story, as well as a ballad of regret and redemption, and miracles.

*Run, Rose, Run* Hal Leonard Corporation  
From America's most beloved superstar and #1 New York Times bestselling author James Patterson comes a thriller about a young singer-songwriter on the rise--and on the run--and determined to do whatever it takes to survive. A new singer arrives in Nashville. She calls herself AnnieLee Keyes, and she has more beauty, talent, and ambition than most -- and a dangerous past that she's running from. Her performance of original songs at open-mic night at the Cat's Paw Saloon downtown transfixes Ethan Blake, back-up

musician for country star Ruthanna Ryder. Ruthanna may have retired--for deeply personal reasons--but that doesn't mean she's stopped writing music. Every day, she records songs she'll never release. When Ruthanna hears AnnieLee sing, the legend decides to help the ingenue. But a boost from a mega-star like Ruthanna may spotlight the talented newcomer's secret. Now AnnieLee may not live long enough to realize her dreams of stardom--or for the world to learn her true identity.

*Trouble Boys* is the first definitive, no-holds-barred biography of one of the last great bands of the twentieth century: The Replacements. With full participation from reclusive singer and chief songwriter Paul Westerberg, bassist Tommy Stinson, guitarist Slim Dunlap, and the family of late band co-founder Bob Stinson, author Bob Mehr is able to tell the real story of this highly influential group, capturing their chaotic, tragic journey from the basements of Minneapolis to rock legend. Drawing on years of research and access to the band's

archives at Twin/Tone Records and Warner Bros. Mehr also discovers previously unrevealed details from those in the group's inner circle, including family, managers, musical friends and collaborators.

### **An Outlaw and a Lady**

Virgin Publishing (Vocal). With music by William Bolcom and libretto by Arnold Weinstein and Arthur Miller, this opera in two acts was given its World Premiere at the Lyric Opera of Chicago in October of 1999. The gripping story of love and betrayal is set in the rich background of the 1950s Italian immigrant life in Brooklyn. In addition to the libretto, the single sheet music is available for Rodolpho's aria, "The New York Lights." (00352362, \$3.95)

• The perfect time for a reissue: In October 2009, PBS will air a ninety-minute primetime special on Joan Baez as part of the Emmy Award-winning American Masters series. Told often from Baez's perspective, but supported by a rich performance and historical archive, the documentary centers on her career as a musician, power as an artist, those who influenced her, and those she championed. She will also be on a 27-city U.S. tour starting July

2009.. • A musical force and a catalyst for social change: At the age of eighteen Baez was an international star with a Time magazine cover story; fifty years later she has thirty-three albums to her credit. She also marched alongside Martin Luther King, Jr., was jailed for supporting the draft resistance, and sang in the first Amnesty International tour. An extraordinary woman who has led an eventful life, Baez's memoir is as honest, unpretentious, and courageous as she is.

 "Rucker's four Ware novels—Software, Wetware, Freeware, and Realware—form an extraordinary cyberweird future history with the heft of an epic fantasy novel and the speed of a quantum processor. Still exuberantly fresh despite their age, they primarily follow two characters (and their descendants): Cobb Anderson, who instigated the first robot revolution and is offered immortality by his grateful "children," and stoner Sta-Hi Mooney, who (against his impaired better judgment) becomes an important figure in robot-human relations. Over several generations, humans, robots, drugs, and society evolve, but even weird drugs and the wisdom gathered from interstellar signals won't stop them from making the same old mistakes in new ways. Rucker is both witty and serious as he combines hard science and

sociology with unrelentingly sharp observations of all self-replicating beings. This classic series well deserves its omnibus repackaging, particularly suitable for libraries." — Publisher's Weekly. "Rudy Rucker is one of the modern heroes of science fiction, one of the original cyberpunks. The early cyberpunks only had a few writers who could be meaningfully called punks — writers like John Shirley and Richard Kadrey — but there was only one who could truly be called cyber: Rudy Rucker. Rucker is a mad professor, a mathematician and computer scientist with a serious, scholarly interest in the limits of computation and the physics and mathematics of higher-dimension geometry. But that's just about the only thing you can describe as 'serious' when it comes to Rucker. He's a gonzo wildman, someone for whom

'trippy' barely scratches the surface. His work is shot through with weird sex, weird drugs, weird brain chemistry, and above all, weird science."
