Thunder of Time

Macmillan
For fans of Alice Munro, Anne Enright, and William Trevor comes a stunning debut collection from a deeply original writer and observer of love, betrayal, and turning points in ordinary peoples' lives. In a raw seacoast cabin, a young woman watches her boyfriend go out with his brother, late one night, on a mysterious job she realizes she isn't supposed to know about. A man gets a call at work from his sister-in-law, saying that his wife and his daughter never made it to nursery school that day. A mother learns that her teenage daughter has told a teacher about problems in her parents' marriage that were meant to be private—problems the mother herself tries to ignore. McLaughlin conveys these characters so vividly that readers will feel they are experiencing real life. Often the stories turn on a single, fantastic

moment of clarity—after which nothing can be the same. Danielle McLaughlin is a writer of unparalleled precision and uncommon imagination. In her deft hands, ordinary people are transformed and surprising truths are suddenly understood. Praise for *Dinosaurs on Other Planets* “*Dinosaurs [on Other Planets]* marks the stateside debut (in book form, at least—a number of these already have appeared in *The New Yorker*) of Danielle McLaughlin, a writer of exceptionally deep empathy in the naturalistic tradition of John McGahern and Claire Keegan but with a knack for keen, and often disturbing, observation all her own.”—LitHub “McLaughlin’s immersive first collection casts a stern eye on individuals, couples, and families caught in nets of their own making, where even the mildest passion can lead to death, and journeys home with new lovers can reveal grim secret lives. . . . The title story, which opens up into an ambiguous ending rather than tying its strands up neatly, show[s] the ample bag of tricks McLaughlin has at her disposal.”—Publishers

Weekly “Danielle McLaughlin’s short story collection *Dinosaurs on Other Planets* is a near perfect, enormously promising debut. . . . McLaughlin’s subject matter and themes are serious, undercut brilliantly by a sly strain of pitch-black humor. . . . A brilliant, quietly disturbing debut story collection [that] portrays Irish characters in the uncertain wake of the recent financial crisis.”—Shelf Awareness “In her collection, [McLaughlin] focuses on fraught relationships and those sudden, illuminating moments that can light up ordinary lives.”—Library Journal “This is not a debut in the usual sense, a promise of greater things to come. There is no need to ask what Danielle McLaughlin will do next—she has done it already. This book has arrived. I think it will stay with us for a long time.”—Anne Enright, Man Booker Prize-winning author of *The Green Road* “Danielle McLaughlin’s stories seethe, beneath elegant prose, with unfamiliar insights and entirely original observations. Only an author who loves what human beings are can so compassionately reveal

them in all their flawed, gorgeous contradictions and communicate unmistakable joy while doing so. How glad I am to read this impressive new writer! Her fiction is a gift we need.”—Robin Black, author of *Life Drawing*

The Fantastic Dinosaur Adventure Macmillan Will and Sylvia search for the mysterious Hand of Dinotopia, which will supposedly lead to a safe sea route to and from the hidden island where people and dinosaurs live together peacefully.

Z. Rex D A W Books, Incorporated This series introduces young children to a whole range of core subjects, from life in the natural world to the working of a truck. On each page a line for beginner readers is accompanied by a more complex one, which can be read aloud by an adult or by the child as s/he grows in confidence. Dinosaur Fantastic Dino Knights

The Lost World is a novel released in 1912 by Arthur Conan Doyle concerning an expedition to a plateau in South America where prehistoric animals (dinosaurs and other extinct creatures) still survive. The character of Professor Challenger

was introduced in this book. Interestingly, for a seminal work of dinosaur-related fiction, the

animals only occupy a small portion of the narrative. Much more

time is devoted to a war between early human hominids and a vicious tribe of ape-like creatures.
