This Handbook contains a unique collection of chapters written by the world's leading researchers in the dynamic field of consumer psychology. Although these researchers are housed in different academic departments (ie. marketing, psychology, advertising, communications) all have the common goal of attaining a better scientific understanding of cognitive, affective, and behavioral responses to products and services, the marketing of these products and services, and societal and ethical concerns associated with marketing processes. Consumer psychology is a discipline at the interface of marketing, advertising and psychology. The research in this area focuses on fundamental psychological processes as well as on issues associated with the use of theoretical principles in applied contexts. The Handbook presents state-of-the-art research as well as providing a place for authors to put forward suggestions for future research and practice. The Handbook is most appropriate for graduate level courses in marketing, psychology, communications, consumer behavior and advertising.

Can you come sit at the table? Tammy Letherer's husband of twelve years spoke these words on a Tuesday night, just before Christmas, after he had put their three children in bed. He had a piece of paper and two fingers of scotch in front of him. As he read from the list in his hand, his next words would shatter her world and destroy every assumption she'd ever made about love, friendship, and faithfulness. In *The Buddha at My Table*, Letherer describes—in honest, sometimes painful detail—the dismantling of a marriage that encompasses the ordinary and the surreal, including the night she finds a silent, smiling Thai monk sitting at the same dining room table. It's this unexpected visitation, this personification of peace, that sticks with her as she listens to her husband reveal hurtful, shocking things—that he never loved her, he doesn't believe in monogamy, and he wants to "wrap things up" with her in four weeks—and allows her to find the blessing in her husband's betrayal. Ultimately, it's when she realizes that she is participating in her life, not at its mercy, that she discovers the path to freedom.
