The history of B-Boying has its roots from the great tap dancers of the 1920s and 1930s to James Brown in the 1960s. When Spanish photographer Cristina Garcia Rodero went to study art in Italy, in 1973, she fully understood the importance of home. Yet her time abroad formented a deeper interest in was happening in her own country and, as a result, at the age of 23, Garcia Rodero returned to Spain and started a project that she hoped would capture the essence of the myriad Spanish traditions, religious practices and rites that were already fading away. What started as a five-year project

ended up lasting 15 years and came to be the book *España Oculta*(Hidden Spain) published in 1989. At 39 years old, Garcia Rodero had managed to compile a kind of anthropological encyclopedia of her country. The work also captured a key moment in Spain's history - with Spanish dictator Franco dying in 1975, and the country commencing a period of transition - something that would come to have a huge effect on the way the nation's cultural traditions and rites were experienced and performed from then on.

Miguel Delibes' inaugural address to the Royal Spanish Academy in 1975 portrayed "El camino" (1950) as a distant precursor of the emergent Green movement. This text comprises an introductory essay discussing Green issues, attitudes towards the Spanish peasantry under Franco, and the function of the novel's subtly orchestrated comedy.

Finlay (a little dinosaur) is counting out jelly beans to share with his friend. He is sitting on a grassy mound. A big dinosaur comes along and demands the jelly beans. He is rather rude, a bit of a show-off, and he thinks that Finlay's friend is a figment of his imagination. What follows isa lot of

posturing from the big dinosaur as he attempts to prove his worth with various antics on and around the grassy mound. As the book progresses it will gradually become clear to the reader that the "grassy mound" is in fact, Finlay's friend, the really, really, really big dinosaur! The bigdinosaur certainly doesn't realize until his bravado propels him into a dark cave that turns out to be the mouth of the really, really, really big dinosaur. It's only then that the big dinosaur learns that in order to make friends it's a good idea not to show off and it's a good idea to be prepared to share. Perfect for fans of Rachel Bright and Jim Field's *The Squirrels Who Squabbled*.

How to make your senior years healthy, safe, social, and stimulating. "Architect and author Chuck Durrett's recently released book *Senior Cohousing Handbook* comes at a time of high interest in greening, sustainable housing and affordable living concerns. Durrett's new book is a comprehensive guide for baby boomers wishing to continue vibrant, active lifestyles." - EPR Real Estate News "Make your senior years safe and socially fun with the idea of senior cohousing and a book on the topic that shows how seniors can custom-build their neighborhood to fit their needs. This is housing built by seniors, not for them, and emphasizes independence and social networking. Any library strong in gerontology or social science and many a general lending library needs this. - James A. Cox, *The Midwest Book Review* "As a Baby Boomer, I've joked for a few years that we'll all end up living communally again because Social Security will be broke... This is one of the better ways to envision it."-- *Sacramento Bee* No matter how rich life is in youth and middle age, the elder years can bring on increasing isolation and loneliness as social connections lessen, especially if friends and family members move away. Senior cohousing fills a niche for this demographic—the healthy, educated, and proactive adults who want to live in a social and environmentally vibrant community. These seniors are already wanting to ward off the aging process, so they are unlikely to want to live in assisted housing. Senior cohousing revolves around custom-built neighborhoods organized by the seniors themselves in order to fit in with their real needs, wants, and aspirations for health, longevity, and quality of life. *Senior Cohousing* is a comprehensive guide to joining or creating a cohousing project, written by the US leader in the field. The author deals with all the psychological and logistical aspects of senior cohousing and addresses common concerns, fears, and misunderstandings. He emphasizes the many positive benefits of cohousing, including: Better physical, mental, emotional, and spiritual health Friendships and accessible social contact Safety and security Affordability Shared resources Successful aging requires control of one's life, and today's generation of seniors—the baby boomers—will find that this book holds a compelling vision for their future. Charles Durrett is a principal at McCamant & Durrett in Nevada City, California, a firm that specializes in affordable cohousing. He co-authored the groundbreaking *Cohousing* with his wife and business partner, Kathryn McCamant.

MEDITATIONS Few ancient works have been as influential as the *Meditations* of Marcus Aurelius, philosopher and emperor of Rome (A.D. 161–180). A series of spiritual exercises filled with wisdom, practical guidance, and a profound understanding of human behavior, it remains one of the greatest works of spiritual and ethical reflection ever written. Marcus's insights and advice—on everything from living in the world to coping with adversity and interacting with others—have made the *Meditations* required reading for statesmen and philosophers alike, while generations of ordinary readers have responded to the straightforward intimacy of his style. For anyone who struggles to reconcile the demands of leadership with a concern for personal integrity and spiritual well-being, the *Meditations* remains as relevant now as it was two thousand years ago.

MEDITATIONS In Gregory Hays's new translation—the first in thirty-five years—Marcus's thoughts speak with a new immediacy. In fresh and unencumbered English, Hays vividly conveys the spareness and compression of the original Greek text. Never before have Marcus's insights been so directly and powerfully presented. **MEDITATIONS** With an Introduction that outlines Marcus's life and career, the essentials of Stoic doctrine, the style and construction of the *Meditations*, and the work's ongoing influence, this edition makes it possible to fully rediscover the thoughts of one of the most enlightened and intelligent leaders of any era. **MEDITATIONS** Written in Greek by the only Roman emperor who was also a philosopher, without any intention of publication, the *Meditations* of Marcus Aurelius offer a remarkable series of challenging spiritual reflections and exercises developed as the emperor struggled to understand himself and make sense of the universe. While the *Meditations* were composed to provide personal consolation and encouragement, Marcus Aurelius also created one of the greatest of all works of philosophy: a timeless collection that has

been consulted and admired by statesmen, thinkers, and readers throughout the centuries.

Theoretical Anthropology is a major contribution to the historical and critical study of the assumptions underlying the development of modern cultural anthropology. In the new introduction, Martin Bidney discusses the present state of anthropology and contrasts it with the scene surveyed in *Theoretical Anthropology*. He discusses the relevance of David Bidney's work to our present concerns. Also included in this work is the second edition's introductory essay by David Bidney, written fifteen years after the first edition of *Theoretical Anthropology*. Here the author examines his original aims in writing this book. *Theoretical Anthropology* has helped to create among anthropologists the present climate of theoretical self-awareness and broad humanistic concerns. It has become a standard reference work for anthropologists as well as sociologists.

This text brings together the work of 15 elementary education experts who support an integrative approach to educating second language children. The paperback edition is a collection of articles from fourteen elementary education experts who espouse an integrative approach to second language education - one that goes beyond language teaching methodology - to cover a wide range of issues affecting the academic and social success of language minority children. The volume deals not only with second language development, but with the development of the whole child. Rather than focusing on language instruction, it addresses the entire curriculum, and instead of restricting itself to classroom learning, it examines the role of the school, family, and community.
