Issue 19573 September 25, 2014 World Health Organization
 The veteran journalist and author of In the Hot Zone and The Things They Cannot Say explores the impact of more than a decade of war on Afghanistan, from the American invasion after 9/11 to today, and offers insights into its future and the possible consequences for the U.S. Kevin Sites made his first trip to Afghanistan in October 2001, staying 100 days to cover the U.S. invasion for NBC News. On his fifth trip to the country in June 2013, Sites retraced that first odyssey, contemplating the significant events of his original trip to explore what, if anything, has changed. He interviewed warlords, ex-Taliban fighters, politicians, women cops and dentists, farmers, drug addicts, international aid workers, diplomats, and military personnel. In *Swimming with Warlords*, Sites examines Afghanistan today through the prism of those two parallel journeys, exploring that nation's past and considering its future in light of the drawdown of U.S. troops. As he tells the stories of the people he met—how they have been affected by this conflict that has cost billions of dollars and thousands of lives—Sites provides a fresh perspective on Afghanistan and America's role there. *Swimming with Warlords* contains 30 black-and-white photos throughout.

 Analysing developments in digital technologies and institutional changes, this book provides an overview of the current frenetic state of transformation within the global automobile industry. An ongoing transition brought about by the relocation of marketing, design and production centres to emerging economies, and experimentation with new mobility systems such as electrical, autonomous vehicles, this process poses the question as to how original equipment manufacturers (OEMs) and newcomers can remain competitive and ensure sustainability. With contributions from specialists in the automobile sector, this collection examines the shifts in power and geographical location occurring in the industry, and outlines the key role that public policy has in generating innovation in entrepreneurial states. Offering useful insights into the challenges facing emerging economies in their attempts to grow within the automobile industry, this book will provide valuable reading for those researching internationalization and emerging markets, business strategy and more specifically, the automotive industry.

 The Global Status Report on Road Safety 2018, launched by WHO in December 2018, highlights that the number of annual road traffic deaths has reached 1.35 million. Road traffic injuries are now the leading killer of people aged 5-29 years. The burden is disproportionately borne by pedestrians, cyclists and motorcyclists, in particular those living in developing countries. The report suggests that the price paid for mobility is too high, especially because proven measures exist. Drastic action is needed to put these measures in place to meet any future global target that might be set and save lives.

 »Frieden schaffen« ist das gemeinsame große Ziel vieler internationaler Akteure in Kriegs- und Krisengebieten. In der Praxis sind sie jedoch mit unterschiedlichsten Aufgaben betraut. Basierend auf qualitativen Interviews mit zurückgekehrten Praktiker_innen entwickelt Julika Bake ein vielschichtiges, dichtes Bild des Interventionsalltags. Sie zeigt auf, wie sich Angehörige verschiedener Berufsfelder in ihren Erzählungen über die Arbeit vor Ort positionieren, und geht der Frage nach, inwieweit die Unterscheidung von Intervenierenden in die Kategorien »zivil« und »militärisch« zu einem besseren Verständnis von internationalen Interventionen beiträgt.

 60 off-road tras pro terénní automobily a enduro motorky, některé pro pohodlné cestování, jiné na navíják! Víte jak se albánsky řekne „lopata“? No přeče „lopata“! Tak si jí nezapomeňte přibalit s sebou. Budete jí potřebovat! Nedejte na ošklivé historky, kterými se lidé ve střední Evropě straší. Zapomeňte na zkazky o krevní mstě a o přepadání. Albánci jsou normální lidé, toužící po práci a rodině. Albánie se mění před očima, řada krásných off-road tras je vyasfaltovaných, staví se nové dálnice a tunely. Zato hory mi přijdou čím dál opuštěnější. Lidé se stěhují do měst a v horských vesnicích jsou jen přes léto. Cesty v horách jsou pořád v horším a horším stavu, řada z nich je po zimě pro závaly neprůjezdných. A to je ten pravý off-roadový ráj. Do auta lopatu, na motorku přibalit kurty na vytažování z bahna, lehký stan a spacák a hurá do hor. Ke krásným jezerům, na opuštěné planiny, na dech beroucí vyhlídky. Škoda, že většina návštěvníků treffi pouze do Tethu a Valbone. Tato dvě údolí jsou sice překrásná, ale plná turistů a připomínají lunapark. Zamiřte do centrální nebo

nejlépe do jižní Albánie. Tam zatím není žádná turistická infrastruktura, hory jsou překrásné a můžete se tam dny a dny toulat po horských cestách. V horách jsou ukryta překrásná jezera, skalní monumenty, daleké vyhlídky. Cesty k nim jsou těžko průjezdné, zničené od nákladáček IFA ilegálních těžařů dřeva. Průjezdné jen na nazvedaném off-roadu s navijákem nebo lehké enduro motorce. A to jsou ty správné cíle pro dobrodruhy! Ale i běžný cestovatel na naloženém cestovním enduru nebo SUV si zde přijde na své. Vybral jsem doporučené trasy, kde nečítá žádná past a snadno je projedete. Rád bych, aby vás tento průvodce provedl těmi nejkrásnějšími místy v Albánii. Místy, která jsem si zamiloval a na která se rád vracím. Toto třetí vydání je zřejmě posledním. V Albánii se mi už podařilo projet všechny myslitelné off-road trasy. V dalších letech si už jen vezmu tužku a budu v průvodci škrtat, co je vyasfaltováno. Tak nesedte doma, zvedněte se a vyrazte za dobrodružstvím! Děkuji všem Čechům a Albáncům, kteří mi pomáhali a podpořili mě!

Tous les vendredis, la mort frappe. Jamais au hasard. Seulement les riches... Un terroriste sans visage s'attaque aux nantis là où ça leur fait le plus mal. Au portefeuille. S'ils ne veulent pas mourir, une seule alternative leur est offerte : donner une partie de leur fortune aux plus nécessiteux. La menace est réelle. Pour les douze millions de riches de la planète, le compte à rebours a commencé... Un thriller féroce, ambitieux, parfaitement maîtrisé, qui impose d'emblée l'univers romanesque original et déjanté de Frédéric Andréi.

One of the most remarkable mechanized campaigns of recent years pitted the brutal and heavily armed jihadis of Islamic State against an improvised force belonging to the Kurdish YPG (later the SDF). While some Kurdish vehicles were originally from Syrian Army stocks or captured from ISIS, many others were extraordinary homemade AFVs based on truck or digger mechanicals, or duskas, the Kurds' version of the technical. Before US air power was sent to Syria, these were the Kurds' most powerful and mobile weapons. Co-written by a British volunteer who fought with the Kurds and an academic expert on armoured warfare, this study explains how the Kurds built and used their AFVs in the war against 'Daesh', and identifies as far as possible

which vehicles took part in major battles, such as Kobane, Manbij and Raqqa. With detailed new artwork depicting the Kurds' range of armour and many previously unpublished photos, this is an original and fascinating look at modern improvised mechanized warfare.

Une enquête captivante au coeur des services secrets de Daech Des tortionnaires encagoulés de noir pour effrayer les foules en Syrie ; les mêmes habillés en civil, barbe rasée, postiche sur la tête et cigarette aux lèvres pour ne pas attirer l'attention en Europe : l'État islamique s'est doté d'un « bureau des légendes » djihadiste. Faux attentats pour masquer les vrais, tentatives d'infiltration de la fonction publique : pour la première fois, une enquête révèle le fonctionnement de ces services spéciaux qui depuis Raqqa pilotaient les attentats du 13-Novembre, leurs techniques, leurs ressources, ainsi que le parcours du Français qui en fut la tête pensante. Un travail d'investigation colossal, qui s'appuie sur plus de 77 000 procès-verbaux de police et de justice, des centaines de notes des services secrets et sur une quarantaine d'entretiens conduits auprès de magistrats, d'officiers de renseignement, de victimes du terrorisme, de djihadistes et de leurs familles. A propos de l'auteur : Matthieu Suc est journaliste pour Mediapart et l'auteur de quatre livres, dont Femmes de djihadistes (Fayard, 2016). Autrefois spécialisé dans le grand banditisme, il consacre aujourd'hui l'essentiel de son travail aux affaires liées au terrorisme.

Life can be tough, but it's even tougher for a guy who's only two feet tall -- and utterly uncivilized. When the little primitive tumbles into the world of a reclusive young woman, he changes her life forever. It's not enough that she must protect herself from an insanely jealous ex-husband, she now has to nurse her tiny, unwanted guest back to health *and* maintain the secret of his existence! This contemporary thriller goes beyond the usual genre boundaries and delivers a story of intrigue, humor, history and suspense. Mato, the little primitive, has many talents. Not only is he a fearless warrior and intrepid hunter, but he's a gifted artist and seer. On a life-or-death mission for his clan, the two-foot tall hero faces a world dominated by giants whose magic has no limits. Fortunately, Mato runs into Tori Lanier, a young woman facing demons of her own. Together, they struggle to make sense of a world that grows more confusing every day. Once again, Josh Langston has produced a story filled with eccentric characters, clever dialog, cliff-hanging suspense, and surprising plot twists. If you're looking for a page-turner from a proven storyteller, this is it!

How does the use of military drones affect the legal, political, and moral responsibility of different actors involved in their deployment and design? This volume offers a fresh contribution to the ethics of drone warfare by providing, for the first time, a systematic interdisciplinary discussion of different responsibility issues raised by military drones. The book discusses four main sets of questions: First, from a legal point of view, we analyse the ways in which the use of drones makes the attribution of criminal responsibility to individuals for war crimes more complicated and what adjustments may be required in international criminal law and in military practices to avoid 'responsibility gaps' in warfare. From a moral and political perspective, the volume looks at the conditions under which the use of military drones by states is impermissible, permissible, or even obligatory and what the responsibilities of a state in the use of drones towards both its citizens and potential targets are. From a socio-technical perspective, what kind of new human machine interaction might (and should) drones bring and which new kinds of shared agency and responsibility? Finally, we ask how the use of drones changes our conception of agency and responsibility. The book will be of interest to scholars and students in (military) ethics and to those in law, politics and the military involved in the design, deployment and evaluation of military drones.
