JOHNS FRANCIS

Historical Theology Ignatius Press
Examining a wide array of ancient writings, Brent Nongbri dispels the commonly held idea that there is such a thing as ancient religion. Nongbri shows how misleading it is to speak as though religion was a concept native to pre-modern cultures.

Christian Theology Crossway
In this balanced volume, Gregg Allison—an evangelical theologian and church historian—helps readers

understand the nuances of Roman Catholic teaching. Walking through the official Catechism of the Catholic Church, Allison summarizes and assesses Catholic doctrine from the perspective of both Scripture and evangelical theology. Noting prominent similarities without glossing over key differences, this book will equip Christians on both sides of the ecclesiastical divide to fruitfully engage in honest dialogue with one another.

[The Nature of the Atonement and Its Relation to Remission of Sins and Eternal Life](#)
Ravenio Books

First published in 1910.

The Historical Jesus BRILL

William Cunningham (1805-1861) was an Scottish theologian. He was, in 1843, one of the founders of the Free Church of Scotland, and succeeded the doughty Thomas Chalmers as principal of the New College, Edinburgh, in 1847. His lectures surveying the history of theology, delivered between 1847 and 1861, became the basis for his Historical Theology. It remains a classic in the Reformed and Presbyterian tradition. In his magnum opus Cunningham surveys the following topics: I. The Church II. The Council of Jerusalem III. The Apostles' Creed IV. The Apostolical Fathers V. The Heresies of the Apostolic Age VI. The Fathers of the Second and Third Centuries VII. The Church of the First Two Centuries VIII. The Constitution of the Church IX. The Doctrine of the Trinity

X. The Person Of Christ XI. The Pelagian Controversy XII. The Worship of Saints and Images XIII. Civil and Ecclesiastical Authorities XIV. Scholastic Theology XV. Canon Law XVI. Witnesses for the Truth During The Middle Ages XVII. The Church at the Era of the Reformation XVIII. Council of Trent XIX. The Doctrine of the Fall XX. The Doctrine of the Will XXI. Justification XXII. The Sacramental Principle XXIII. The Socinian Controversy XXIV. Doctrine of the Atonement XXV. The Arminian Controversy XXVI. Church Government XXVII. The Erastian Controversy

Justification by Faith Cambridge University Press

In this fully revised and updated second edition of his accessible account of systematic Christology, Gerald O'Collins

continues to challenge the contemporary publishing trend for sensationalist books on Jesus that are supported neither by the New Testament witness nor by mainline Christian beliefs. This book critically examines the best biblical and historical scholarship before tackling head-on some of the key questions of systematic Christology: does orthodox faith present Jesus the man as deficient and depersonalized? Is his sinlessness compatible with the exercise of a free human will? Does up-to-date exegesis challenge his virginal conception and personal resurrection? Can one reconcile Jesus' role as universal Saviour with the truth and values to be found in other religions? What should the feminist movement highlight in presenting Jesus? This integral Christology is built around

the resurrection of the crucified Jesus, highlights love as the key to redemption, and proposes a synthesis of the divine presence through Jesus. Clear, balanced, and accessible, this book should be valued by any student reading systematic theology, anyone training for the ministry in all denominations, as well as interested general readers.

The Whole Mystery of Christ

University of Notre Dame Press

This first book-length study of physico-theology questions the widespread notion of a steadily advancing early modern separation of religion and science. Beginning around 1650, the emergence of a number of new scientific concepts, methods, and instruments challenged existing syntheses of science and religion. Physico-theology, which

embraced the values of personal, empirical observation, was an international movement of the early Enlightenment that focused on the new science to make arguments about divine creation and providence. By reconciling the new science with Christianity across many denominations, physico-theology played a crucial role in diffusing new scientific ideas, assumptions, and interest in the study of nature to a broad public. In this book, sixteen leading scholars contribute a rich array of essays on the terms and scope of the movement, its scientific and religious arguments, and its aesthetic sensibilities. Contributors: Ann Blair, Simona Boscani Leoni, John Hedley Brooke, Nicolas Brucker, Katherine Calloway, Kathleen Crowther, Brendan

Dooley, Peter Harrison, Barbara Hunfeld, Eric Jorink, Scott Mandelbrote, Brian W. Ogilvie, Martine Pécharman, Jonathan Sheehan, Anne-Charlott Trepp, Rienk Vermij, Kaspar von Greyerz
Before Religion Overtures to Biblical Theology

New Testament scholarship since the Enlightenment is not quite like the histories tend to present it. It has not been the unfolding triumph of objective "critical" or "historical" thinkers over less progressive and dogmatically biased "theological" interests. Rather, in the same respective eras that "critical" thinkers like F.C. Bauer and R. Bultmann mapped out approaches to NT theology, responsible scholars from J.C.K. Hofmann to O. Cullmann have responded with viable programs of their own. This

volume brings the ascendant Baur-Wrede-Bultmann line of analysis into dialogue with what may be called the salvation historical perspective, thus uncovering a line of inquiry that was significant in the past and may prove promising in the future.

The Dictionary of Historical Theology JHU Press

The author of this book challenges the contemporary view of God and suffering. Calling upon scripture, and the philosophical and theological tradition of the Fathers and Aquinas, he advocates the incarnational truth that the Son of God actually does experience human living, including suffering.

Physico-theology Augsburg Fortress Publishing

Questions surrounding the genesis,

development, and viability of modern academic theology have drawn renewed and heightened interest in recent years. Over the past decade, an increasing number of detailed studies have inquired into the emergence of scientific theology (wissenschaftliche Theologie) in the nineteenth century and its uneasy relationship with the shifting intellectual culture of the modern research university. This volume presents a unique contribution to this developing conversation, offering a focused treatment of the many-sided debate surrounding the tasks and limitations of historical and critical theology as it develops in the modern German university during the nineteenth and early twentieth centuries. The fifteen chapters of the volume examine the

challenges of the historical study of theology and the contested concept of scientific theology in the writings of foundational figures such as Kant, Schleiermacher, Baur, Ritschl, Harnack, Troeltsch, Barth, and Bonhoeffer. Yet it also attends to ongoing debates concerning the relationship between supernatural revelation and empirical-historical research, the rise and fall of historicism in theology, the competing locales of church and university, the appropriation of historical methods within Protestant and Catholic theological faculties, and the place and function of theology in the increasingly specialized modern research university. As the essays demonstrate, the implications of this conversation continue to resound in contemporary

discussions of the place of the study of theology and religion in the modern university.

Fundamental Theology A&C Black
No previous knowledge of theology demanded, this volume is written in an essentially readable way and is the perfect core to the library of anyone who loves to learn."This wide-ranging, well-directed, sharp-sighted textbook is his magnum opus. This one stands high as a demonstration of the biblical rationality of the Reformed faith." J. I.

Historical Theology Crossway
Freshly updated for this second edition with considerable new material, this authoritative introduction to the history of Christian theology covers its development from the beginnings of the Patristic period just decades after Jesus's

ministry, through to contemporary theological trends. A substantially updated new edition of this popular textbook exploring the entire history of Christian thought, written by the bestselling author and internationally-renowned theologian Features additional coverage of orthodox theology, the Holy Spirit, and medieval mysticism, alongside new sections on liberation, feminist, and Latino theologies, and on the global spread of Christianity Accessibly structured into four sections covering the Patristic period, the Middle Ages and Renaissance, the reformation and post-reformation eras, and the modern period spanning 1750 to the present day, addressing the key issues and people in each Includes case studies and primary readings at the end of each

section, alongside comprehensive glossaries of key theologians, developments, and terminology Supported by additional resources available on publication at www.wiley.com/go/mcgrath

God Has Spoken Crossway
Comprehensively detailing the sources for our knowledge of Jesus, Theissen and Merz fully explore the historical and social context of Jesus and his activity. They then unfold what we can know about Jesus' characteristics as a charismatic teacher, a Jewish prophet, a healer, a teller of parables and an ethical teacher. Finally, they examine closely the historical question surrounding Jesus' last supper, his violent death, the accounts of Easter, and the beginnings of Christology.

The Theology of History in St. Bonaventure Mentor

In this meticulously researched study, Konrad Schmid offers a historical clarification of the concept of “theology.” He then examines the theologies of the three constituent parts of the Hebrew Bible—the Torah, the Prophets, and the Writings— before tracing how these theological concepts developed throughout the history of ancient Israel and early Judaism. Schmid not only explores the theology of the biblical books in isolation, but he also offers unifying principles and links between the distinct units that make up the Hebrew Bible. By focusing on both the theology of the whole Hebrew Bible as well as its individual pieces, *A Historical Theology of the Hebrew Bible* provides a

comprehensive discussion of theological work within the Hebrew Bible.

The Quest of the Historical Jesus CUA Press

This book identifies the distinguishing features of fundamental theology, as distinct from philosophical theology, natural theology, apologetics, and other similar disciplines. Addressing the potential for confusion about basic Christian claims and beliefs, Gerald O’Collins sets out to relaunch fundamental theology as a discipline by presenting a coherent vision of basic theological questions and positions that lay the ground for work in specific areas of systematic theology. *Rethinking Fundamental Theology* examines central theological questions: about God, human experience and, specifically, religious

experience; the divine revelation coming through the history of Israel and through the life, death and resurrection of Jesus; human faith that responds to revelation; the nature of tradition that transmits the record and reality of revelation; the structure of biblical inspiration and truth, as well as basic issues concerned with the formation of the canon; the founding of the Church with some leadership structures; the relationship between Christ's revelation and the faith of those who follow other religions. O'Collins concludes with some reflections on theological method. Written with the scholarship and accessibility for which O'Collins is known and valued, this book will relaunch fundamental theology as a distinct and necessary discipline in faculties and departments of theology

and religious studies around the world.

Historical Theology Zondervan Academic

Fundamental Theology is fundamental because it is about how we see the mysteries of God, his Christ, the Church, and the sacraments of the Church. It is about how these things show themselves-how God shows them-to the eyes of faith. If Christ and the Church are things shown, fundamental theology is about the very showing itself. Talking about the showing poses the risk, however, of losing sight of the things shown and drifting off into abstractions. By continually referring back to the things shown, this book will answer many of the questions that arise when we ask about the nature and necessity of Scripture and Tradition, Magisterium and

Dogma, Faith and its praeambula. In this second volume of the Sacra Doctrina series, Fr. Guy Mansini takes the reader on a tour through the essence and meaning of Catholic fundamental theology. This title will serve as an excellent textbook for upper level undergraduate, graduate, and seminary students. Book jacket.

Readings in Historical Theology Fortress Press

What Does the Bible Teach about How to Live in Today's World? How should Christians live when the surrounding culture is increasingly hostile to Christian moral values? Granted, the Bible is our guide—but how can we know if we are interpreting it rightly with regard to ethical questions about wealth and poverty, marriage and divorce, birth

control, abortion, euthanasia, homosexuality, ethical business practices, environmental stewardship, and dozens of other issues? And on a very practical level, how can we know God's will in the ordinary decisions of life? To address questions like these, Wayne Grudem, author of the bestselling book *Systematic Theology*, draws on 40 years of teaching classes in ethics to write this wide-ranging introduction to biblical moral reasoning, organized according to the structure of the Ten Commandments. He issues a challenging call for Christians to live lives of personal holiness and offers a vision of the Christian life that is full of joy and blessing through living each day in a way that is pleasing to God. Written by Wayne Grudem: Bestselling author of

Systematic Theology and the What the Bible Says About series Biblical and Applicable: Teaches readers how to protect 7 central tenets of God's law: God's honor, human authority, life, marriage, property, truth, and purity of heart Accessible: An ideal textbook for Christian college and seminary ethics classes, with straightforward language and a bibliography for the topic at the end of each chapter Replaces ISBN 978-1-4335-4965-6

The Cambridge Companion to Christian Doctrine OUP Oxford

Serious theology is systematic theology. Or so the story goes. Practical theology--with its focus on the church, its life and its practices--has sometimes been understood as the second order application of the real work of academic

theology. However, in this abridged translation of his magisterial *Praktische Theologie*, Christian Grethlein realizes the rigorous methodology, critical commitments, and expansive sweep of practical theology as both an academic and an ecclesial discipline. Grethlein roots his practical theology in communication theory, but does so in a way ordered to a specific end: the communication of the Christian gospel in the present day. He distinguishes practical theology from simply a guide to specific ecclesial praxis, on the one hand, and some general theory of religion, on the other. Grethlein then blends empirical observation with biblical texts to reveal practical theology's unique nature as a discipline oriented toward rigorous examination of

both the gospel and the intentional ways in which it is shared. In so doing, Grethlein opens the possibility of a truly encyclopedic and embedded practical theology. Part 1 provides a historical introduction to practical theology, positioning it on a global stage, and in relation to other academic disciplines--particularly the modern sciences--as well as within ecclesial and theological traditions. In part 2 Grethlein develops practical theology as communication of the gospel by examining the hermeneutical, empirical, and theological foundations necessary for a systematic practical theology. In part 3 Grethlein turns his attention to ways the gospel is communicated both in time and place, as well as the forms of that communicating (telling, talking,

preaching, praying, and singing). In *An Introduction to Practical Theology*, Christian Grethlein offers students the foundations and frameworks for practical theology while guiding its scholars in the crafting of their academic discipline.

Christology Createspace Independent Pub

Introduces the reader to the views of the most outstanding theologians in the history of Christianity. The book's three sections deal with Patristic Theology, Medieval and Reformation Theology, and Modern Theology.

New Dictionary of Theology John Wiley & Sons

The Historical Volume of what was originally called Reformed Dogmatics now appears with a new title, namely, *History of Christian Doctrines*. Works on

the gradual development of theological truth in the Church of Jesus Christ usually appear alongside of those which deal with the systematic reproduction of it, and thus stand out as separate works. It was thought best to follow this practice, since this will stress the fact that, after all, the history of the development of Christian thought in the Church is a separate study.

An Introduction to Practical Theology InterVarsity Press

What is Christian doctrine? The fourteen specially commissioned essays in this book serve to give an answer to many aspects of that question. Written by leading theologians from America and Britain, the essays place doctrine in its

setting - what it has been historically, and how it relates to other forms of culture - and outline central features of its content. They attempt to answer questions such as 'what has, and does, Christian doctrine teach about God, the creation, the human condition and human behaviour?' and 'what is the part played in Christian doctrine by the Trinity, Jesus Christ and the Holy Spirit?' New readers will find this an accessible and stimulating introduction to the main themes of Christian doctrine, while advanced students will find a useful summary of recent developments which demonstrates the variety, coherence and intellectual vitality of contemporary Christian thought.
