The growth in popularity and complexity of video games has spurred new interest in how games are developed and in the research and technology behind them. David Heineman brings together some of the most iconic, influential, and interesting voices from across the gaming industry and asks them to weigh in on the past, present, and future of video games. Among them are legendary game designers Nolan Bushnell (Pong) and Eugene Jarvis (Defender), who talk about their history of innovations from the earliest days of the video game industry through to the present; contemporary trailblazers Kellee Santiago (Journey) and Casey Hudson (Mass Effect), who discuss contemporary relationships between those who create games and those who

play them; and scholars Ian Bogost (How to Do Things With Videogames) and Edward Castronova (Exodus to the Virtual World), who discuss how to research and write about games in ways that engage a range of audiences. These experts and others offer fascinating perspectives on video games, game studies, gaming culture, and the game industry more broadly.

A collection of informative, diverse, evocative, and inspiring essays from over 50 vegan activists, educators, artists, and changemakers on the whys and wherefores of the vegan diet and lifestyle. Why should one go vegan? Is veganism the positive change the world needs? *Vegan Voices: Essays by Inspiring Changemakers* is a comprehensive collection of compelling testimonials about how our food choices are deeply connected to the pressing challenges and issues of our time. Areas covered include personal and global health; the devastation of animal agriculture to the environment; society's collective loss of compassion and connection to our kindred animals; and the desire for a world of greater peace, harmony, and inclusivity. The book points to the need for a cultural and spiritual transformation in which we embrace the commonalities between all living beings as a source of positive change and healing. Author and editor Joanne Kong has brought together the most inspiring and influential changemakers from around the world at the forefront of the vegan movement. They represent the great diversity of roles through which veganism has moved into the mainstream: activists, authors, speakers, athletes, entrepreneurs, community and event organizers, advocates for social and food justice, artists, filmmakers, medical and health professionals, environmental advocates, sanctuary owners, and more. The essays are organized into six sections: "Our Kindred Animals," "Around the Globe," "Activism," "Body and Spirit," "The Arts," and "A New Future." *Vegan Voices* fills the needs of a wide range of readers, from those new to exploring the plant-based lifestyle to

longtime vegans and advocates. Many essays are deeply personal reflections that attest to how veganism has the power to touch our lives on many levels. The book can be a source of continuing inspiration and motivation for those desiring to create a world of greater compassion and equality.
