 Beyond The Usability Lab  
 Conducting "Beyond the Usability Lab is intended to help you move your usability testing out of the lab environment and into the online world as a cost-

effective way to reach more participants. Albert and colleagues write from their own experience conducting online studies and describe situations when online studies are most and least effective, employing real-world examples with abundant black-and-white screen shots and other graphics.

 Usability testing and user experience research typically take place in a controlled lab with small groups. While this type of testing is essential to user experience design, more companies are also looking to test large

sample sizes to be able compare data according to specific user populations and see how their experiences differ across user groups.
