Introduction to Managerial Accounting, 4/e by

Brewer/Garrison/Noreen is based on the market-leading text, Managerial Accounting, by Garrison, Noreen and Brewer.

However, this is not simply a briefer book with chapters removed; B/G/N has been rethought and retooled to meet the needs of the market. B/G/N 4/e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

This well-established and widely adopted textbook, now in its 14th edition, continues to provide an in-depth and insightful analysis of the modern theories and practices of Cost Accounting. That the book has gone into its 14th edition and several reprints is a testimony of its wide acceptance by the students, academics and professionals. Primarily intended for postgraduate and undergraduate students of Commerce and Management, the book will be of immense benefit to the students pursuing professional courses offered by the Institute of Chartered Accountants of India (ICAI), Institute of Cost Accountants of India (ICAI), Institute of Company Secretaries of India (ICSI), and those pursuing the Chartered Financial Analyst (CFA) course. Now, in its 14th edition, the book has been suitably revised meeting the latest syllabi requirement of various courses. The chapter on "Strategic Cost Management" has been updated to make it indispensable to modern management to enhance the competitive advantage of the firm. Besides, many chapters have been overhauled and updated, especially the chapters covering basic concepts and terms, classification of costs and cost sheet, activity based costing, marginal costing, relevant cost analysis and management decisions, capital budgeting decisions, and cost audit. The book also includes some of the cost standards set by ICAI, a wide array

of illustrations, worked-out examples, and practice exercises.

Besides, a large number of MCQs are given online for the students to practice and self evaluation. MCQs are critical in proper understanding and practice of theories and concepts. Also, CIMA Official Terminology is provided online to keep students and professionals abreast of relevant terms used in today's business environment. For online material, visit

Introduction to Managerial Accounting John Wiley & Sons

This unique book analyses the bold attempts of the Thai Government to encourage State universities to move to autonomous governance and management. Systems used for universities that are similar to government departments are often inadequate for the increased responsibility of autonomy. In this book, Dr Wasan details the process of transition, including some pitfalls, over a five-year period as Thaksin University evolved to become 'autonomous'. Including history, accounting and foreign inputs, the book provides a narrative of the policy and procedural changes needed to make autonomy work. Complemented by surveys of two other universities and users of the new procedures, the book concludes that the continuous improvement resulting from proper budgeting offers a benchmark for government universities seeking to improve their efficiency and effectiveness. It is a wise book insofar as it does not claim that there is one path to follow. Those concerned with university management, particularly in Thailand and the region, will find this is a book they keep at hand for many years.
