Hailed by readers and critics alike, The Venging has been described as an "excellent collection" and its author praised as "one of the freshest writers to break into the science fiction field in many a year." This is the first published collection of short stories by one of the foremost voices in science fiction today. This significant volume contains many characters and situations that later evolved into their own novels. "Mandala" features technologically perfect cities that eject their sinful human occupants, a premise that can be found at the root of Bear's later novel, Strength of Stones. In "Hardfought," Bear brilliantly handles the classic science fiction dilemma of human

communication with aliens. Other stories include "The Wind From a Burning Woman" in which a woman holds the world hostage by controlling a giant asteroid; "Scattershot," in which the inhabitants of many universes meet in an undefined limbo space; and the Nebula Award finalist "Petra," a story of a world where chaos rules, stone moves, and the mind controls reality.

"In 1891, the public was horrified to learn that Sherlock Holmes had perished in a deadly struggle with the archcriminal Professor Moriarty at the Reichenbach Falls. Then, to their amazement, he reappeared two years later, informing the stunned Watson: 'I travelled for two years in Tibet, therefore, and amused myself by visiting Lhasa.'" "Nothing has been known of those two missing years until Jamyang Norbu's discovery, in a rusting tin dispatch box in Darjeeling, of a flat packet carefully wrapped in waxed paper and neatly tied with stout twine. When opened the packet revealed Hurree Chunder Mookerjee's own account of his travels with Sherlock Holmes." "Now, for the first time, we learn of Sherlock Holmes's brush with the Great Game, with Colonel Creighton,

Lurgan Sahib and the world of Kim. We follow him north across the hot and dusty plains of India to Simla, summer capital of the British Raj, and over the high passes to the vast emptiness of the Tibetan plateau. In the medieval splendour that is Lhasa, intrigue and black treachery stalk the shadows, and in the remote and icy fastnesses of the Trans-Himalayas good and evil battle for ascendancy. As Patrick French has written, 'Read this, and your view of the great detective will never be the same again.'--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. "Don't ignore intuitive tickles lest they reappear as sledgehammers."That's the first rule of Ten. Tenzing Norbu ("Ten" for short)—ex-monk and soon-to-be ex-cop—is a protagonist unique to our times. In *The First Rule of Ten*, the first installment in a three-book detective series, we meet this spiritual warrior who is singularly equipped, if not occasionally ill-equipped, as he takes on his first case as a private investigator in Los Angeles. Growing up in a Tibetan Monastery, Ten dreamed of becoming a modern-day Sherlock Holmes. So when he was sent to Los Angeles to teach meditation, he joined the LAPD instead. But as the Buddha says, change is inevitable; and ten years later, everything is about to change—big-time—for Ten. One resignation from the police force, two bullet-wounds, three suspicious deaths, and a beautiful woman later, he quickly learns that whenever he breaks his first rule, mayhem follows. Set in the modern-day streets and canyons of Los Angeles, *The First Rule of Ten* is at turns humorous, insightful, and riveting—a gripping mystery as well as a reflective, character-driven story with intriguing life-lessons for us all.

A valued icon of British manhood, Sir Arthur Conan Doyle has been the subject of numerous biographies since his death in 1930. All his biographers have drawn heavily on his own autobiography, *Memories & Adventures*, a collection of stories and anecdotes themed on the subject of masculinity and its representation. Diana Barsham discusses Doyle's career in the context of that nineteenth-century biographical tradition which Dr Watson so successfully appropriated. It explores Doyle's determination to become a great name in the culture of his day and the strains on his identity arising from this project. A Scotsman with an alcoholic, Irish, fairy-painting father, Doyle offered himself and his writings as a model of British manhood during the greatest crisis of British history. Doyle was committed to finding solutions to some of the most difficult cultural problematics of late Victorian masculinity. As novelist, war correspondent, historian, legal campaigner, propagandist and religious leader, he used his fame as the creator of Sherlock Holmes to refigure the spirit of British Imperialism. This original and thought-provoking study offers a revision of the Doyle myth. It presents his career as a series of dialogic contestations with writers like Thomas Hardy and Winston Churchill to define the masculine presence in British culture. In his spiritualist campaign, Doyle took on the figure of St Paul in an attempt to create a new religious culture for a Socialist age.

*Modern Tibetan Literature and Social Change* is the first systematic and detailed overview of modern Tibetan literature, which has burgeoned only in the last thirty years. This comprehensive collection brings together fourteen pioneering scholars in the nascent field of Tibetan literary studies, including authors who are active in the Tibetan literary world itself. These scholars examine the literary output of Tibetan authors writing in Tibetan, Chinese, and English, both in Tibet and in the Tibetan diaspora. The contributors explore the circumstances that led to the development of modern Tibetan literature, its continuities and breaks with classical Tibetan literary forms, and the ways that writers use forms such as magical realism, satire, and humor to negotiate literary freedom within the People's Republic of China. They provide crucial information about Tibetan writers' lives in China and abroad, the social and political contexts in which they write, and the literary merits of their oeuvre. Along with deep social, cultural, and political analysis, this wealth of information clarifies the complex circumstances that Tibetan writers face in the PRC and the diaspora. The contributors consider not only poetry, short stories, and novels but also other forms of cultural production—such as literary magazines, films, and Web sites—that provide a public forum in the Tibetan areas of the PRC, where censorship and restrictions on public gatherings remain the norm. *Modern Tibetan Literature and Social Change* includes a previously unavailable list of modern Tibetan works translated into Western languages and a comprehensive English-language index of names, subjects, and terms. Contributors: Pema Bhum, Howard Y. F. Choy, Yangdon Dhondup, Lauran R. Hartley, Hortsang Jigme, Matthew T. Kapstein, Nancy G. Lin, Lara Maconi, Françoise Robin, Patricia Schiaffini-Vedani, Ronald D. The World's Greatest Detective Meets Horror's Most Notorious Villains! Late 1895, and Sherlock Holmes and his faithful companion Dr John Watson are called upon to investigate a missing persons case. On the face of it, this seems like a mystery that Holmes might relish - as the person in question vanished from a locked room. But this is just the start of an investigation that will draw the pair into contact with a shadowy organisation talked about in whispers, known only as the 'Order of the Gash.' As more people go missing in a similar fashion, the clues point to a sinister asylum in France and to the underworld of London. However, it is an altogether different underworld that Holmes will soon discover - as he comes face to face not only with those followers who do the Order's bidding on Earth, but those who serve it in Hell: the Cenobites. Holmes' most outlandish adventure to date, one that has remained shrouded in secrecy until now, launches him headlong into Clive Barker's famous Hellraising universe... and things will never be the same again. With an introduction by Hellraiser II actress Barbie Wilde.

A new Sherlock Holmes mystery worthy of the master Sir Conan Doyle himself. In 1891, a horrified public learned that Sherlock Holmes—in a last deadly struggle with the archcriminal Professor Moriarty—had perished at the Reichenbach Falls in Switzerland. Two years later, popular demand made Sir Conan Doyle resurrect the great detective. Holmes informed a stunned Dr. Watson, "I traveled for two years in Tibet, therefore, and amused myself by visiting Lhasa." Nothing has been known of those missing years until Jamyang Norbu's discovery of the Mandala, a carefully wrapped package in a rusting tin box. When opened, the package reveals a Bengali scholar's own account of his travels with Holmes. The Mandala holds the key to a mystery and tells the story of Holmes in a landscape so fascinating, a game so intriguing, that it is impossible to resist. An exciting, often richly humorous detective story, *Sherlock Holmes: The Missing Years* also evokes the romance of Kipling's India. Jamyang Norbu has written a mystical, playful, and witty page-turner.

For the first time in its one-hundred-and-twenty-five-year history, the Arthur Conan Doyle Estate has authorized a new Sherlock Holmes novel. Once again, *The Game's Afoot*... London, 1890. 221B Baker St. A fine art dealer named Edmund Carstairs visits Sherlock Holmes and Dr John Watson to beg for their help. He is being menaced by a strange man in a flat cap - a wanted criminal who seems to have followed him all the way from America. In the days that follow, his home is robbed, his family is threatened. And then the first murder takes place. Almost unwillingly, Holmes and

Watson find themselves being drawn ever deeper into an international conspiracy connected to the teeming criminal underworld of Boston, the gaslit streets of London, opium dens and much, much more. And as they dig, they begin to hear the whispered phrase—the House of Silk—a mysterious entity that connects the highest levels of government to the deepest depths of criminality. Holmes begins to fear that he has uncovered a conspiracy that threatens to tear apart the very fabric of society. The Arthur Conan Doyle Estate chose the celebrated, #1 New York Times bestselling author Anthony Horowitz to write *The House of Silk* because of his proven ability to tell a transfixing story and for his passion for all things Holmes. Destined to become an instant classic, *The House of Silk* brings Sherlock Holmes back with all the nuance, pacing, and almost superhuman powers of analysis and deduction that made him the world's greatest detective, in a case depicting events too shocking, too monstrous to ever appear in print...until now.

For millions of people around the world, Tibet is a domain of undisturbed tradition, the Dalai Lama a spiritual guide. By contrast, the Tibet Museum opened in Lhasa by the Chinese in 1999 was designed to reclassify Tibetan objects as cultural relics and the Dalai Lama as obsolete. Suggesting that both these views are suspect, Clare E. Harris argues in *The Museum on the Roof of the World* that for the past one hundred and fifty years, British and Chinese collectors and curators have tried to convert Tibet itself into a museum, an image some Tibetans have begun to contest. This book is a powerful account of the museums created by, for, or on behalf of Tibetans and the nationalist agendas that have played out in them. Harris begins with the British public's first encounter with Tibetan culture in 1854. She then examines the role of imperial collectors and photographers in representations of the region and visits competing museums of Tibet in India and Lhasa. Drawing

on fieldwork in Tibetan communities, she also documents the activities of contemporary Tibetan artists as they try to displace the utopian visions of their country prevalent in the West, as well as the negative assessments of their heritage common in China. Illustrated with many previously unpublished images, this book addresses the pressing question of who has the right to represent Tibet in museums and beyond.
