Corrosion handbook page 9
1.2.3. Crevice corrosion
Crevice corrosion refers to corrosion occurring in cracks or crevices formed between two surfaces (made from the same metal, different metals or even a metal and a non-metal). This type of corrosion is initiated by the restricted entrance of oxygen.

Corrosion handbook - Hilti
The corrosion data in this section is mainly based on the results of general corrosion laboratory tests, which are not strictly comparable with actual service conditions. The corrosion tables provide an initial guide to the selection of materials and are intended to facilitate understanding of the different types of corrosion damage that can arise due to poor material selection.

Corrosion tables — Sandvik Materials Technology
The first part contains summaries on the general corrosion characteristics of major metals and alloys in various corrosion environments. Information in the second part is organized alphabetically by chemical compound and the data for each corrosive agent/compound are

presented in tabular form, which has been standardized throughout the book. 9780871705181: Handbook of Corrosion Data (Materials Data Series) ...corrosion data materials data series materials data series handbook of corrosion data materials established in 1978 oreilly media is a world renowned platform to download books magazines and tutorials for free even though they started with print publications they are now famous for digital books the website features a massive collection of ebooks in categories like it industry computers technology etc you can handbook of corrosion data materials data series 06407g 1 3 downloaded from ...Handbook Of Corrosion Data Materials Data Series [PDF]Springer Handbook of Materials Data-Hans Warlimont 2018-07-27 The second edition of this well-received handbook is the most concise yet comprehensive compilation of materials data.
