Emotional Infidelity in the Church Cokesbury

Focusing on the reception of Palestrina, this bold interdisciplinary study explains how and why the works of a sixteenth-century composer came to be viewed as a paradigm for modern church music. It explores the diverse ways in which later composers responded to his works and style, and expounds a provocative model for interpreting compositional historicism. In addition to presenting insights into the works of Bruckner, Mendelssohn and Liszt, the book offers fresh perspectives on the institutional, aesthetic and ideological frameworks sustaining the cultivation of choral music in this period. This publication provides an overview and analysis of the relation between the Palestrina revival and nineteenth-century composition and it demonstrates that the Palestrina revival was just as significant for nineteenth-century culture as parallel movements in the other arts, such as the Gothic revival.

Singing the same song is a central part of the worship practice for members for the Cherubim and Seraphim Christian Church in Lagos, Nigeria. Vicki L. Brennan reveals that by singing together, church members create one spiritual mind and become unified around a shared set of values. She follows parishioners as they attend choir rehearsals, use musical media—hymn books and cassette tapes—and perform the music and rituals that connect them through religious experience. Brennan asserts that church members believe that singing together makes them part of a larger imagined social collective, one that allows them to achieve health, joy, happiness, wealth, and success in an ethical way. Brennan discovers how this particular Yoruba church articulates and embodies the moral attitudes necessary to be a good Christian in Nigeria today.

This unpretentious little book of meditations based on Scripture, ancient hymns, and writings from Church Fathers will nourish the souls of reflective seekers during the forty-day period of Great Lent. Authors of each meditation have delved deeply into the sins and shortcomings of their own hearts, enabling readers to share in a collective human experience—from darkness to light, from despair to hope, and from isolation to commonality in the body of Christ—as they move steadily toward our Lord's Resurrection. The first edition of this book (titled *A Journey through Great Lent*, edited and authored by Archpriest Steven John Belonick, with coauthors Michele Constable and

Michael Soroka), was published by Light & Life Publishing in 1998.

As well as keeping a succession of pompous vicars happy, calming tensions between the organist and the choir director, preventing all-out war between the traditionalists and the modernisers, there's a concert to prepare for. More whimsical tales to amuse and entertain. Reginald Frary has entertained tens of thousands of readers with his hilarious choir tales for more than forty years' and has experienced the real thing in his local choir in Richmond, Surrey for more than fifty years. His first story collection with the Canterbury Press was "We Sang It Our Way".

Robert Berglund says a worship service is not a concert time. It is not an hour of entertainment. It is a time to worship God in spirit and in truth. In the Christian realm, however, the worship service seems to be a musical battleground. On one hand, church music is seen as utilitarian. Its only purpose is to allow worship to begin or continue throughout a church service. On the other hand, music can exist purely for entertainment. But is a worship service the place for entertainment? Shouldn't a worship service be designed only to worship God? *A Philosophy of Church Music* presents an integrated look at church music. Theological, philosophical, and psychological responses to the question of appropriate and consistent church music are considered to assist you in developing your personal church music philosophy. - Jacket.

What are the signs that your relationship with a disciple or a counselee has crossed boundaries and you are now living in sin? What can be done to avoid or overcome a difficult relationship? How can you safeguard your marriage and home from the problems of emotional infidelity? This book, which is meant for ministers and leaders of the Church, attempts to address these questions. The primary aim of the book is to create awareness and address the problem of emotional infidelity in

the Church. It is a result of years of counselling and working with families in African and Western communities. While the book focusses on common practices within the African setting, the issues discussed cut across communities, for emotional infidelity is a common problem of communities in general. The principles and practices of the Church should guard against relationships outside the marriage. Unfortunately, emotional infidelity has found its way into the Church community. This form of sin is easy to hide. It may also appear 'safe' because it is not physical. But it is a sin that can destroy marriages and cause friction between couples. Therefore, there is a need to put in place safeguarding measures and policies that would protect Christian homes. This is what the book explores in a structured manner, using anecdotes, examples and data.

Lifeline for Children's Choir Directors Pendragon Press

In this book, author Elder William D. Holmes gives an account of life of the church, how strong Christians used to be, and how that people live for God with all their hearts, soul, and mind. They conducted themselves as people of God in the way they dressed and live holy free from sin among the sinners. They fasted, prayed, and testified and were saved, sanctified, baptized, and filled with the Holy Ghost and fire. The power of God was present in the church that it would knock and roll people on the floor! They may not have money in their pockets or any of these worldly goods, but they had Jesus in their souls on their way to heaven. They may not have nice pews or carpet on the floor, and some did not have much education, but they had the power of God in their lives. We are going to take a look at the church today, how that we have better churches with modern technology. We are more educated and have more money, but what happened to the power of God from the old church? Christians today cannot testify living free from sin. Some cannot shout and praise God until they get all sweaty! Pride has taken over the church today. Christians have become spiritually sick! There are so many teachings, doctrines, and cults to confuse people. Satan has taken a seat in the church. In the midst of all of these, a Christian today can be healthy. We are going to take a look at how a person can live a life to please God today in our generation, just like the saints of old. Most of all, well look at how to make heaven your home.

The Countess Choir Woman Prentice Hall

This is the touching story of a vivacious, talented girl growing up in splendid freedom in Transylvania, then Hungary but now part of Rumania, until a tragic event transplants her and three older siblings to eighteenth century Vienna and the house of a cardinal, whose wards they have become. The four youngsters know they have no choice but to adjust to their drastically changed life and a demanding curriculum of studies. In time, all four teenagers are placed with religious orders and eventually take their vows. The youngest, Tessa, enters the abbey of Goss in Styria, a contemplative order of choir women from noble families, and she eventually becomes Choir woman Maria Columba. Her great talent and love of singing, especially the Gregorian chant, as well as an understanding abbess, help her adjust to the strict rules and grueling daily schedule. Over time, however, circumstances change and her always strong temper revolts against what she perceives as unjust and abhorred decisions by her superiors, causing her to be confined to a cell under prisonlike conditions. She is freed years later when Joseph II of Austria decrees the dissolution of contemplative abbeys, monasteries, and convents. Realizing that having been confined for so long was an injustice, the state grants her as the only member of the congregation the means to live out her life as a private woman.

Christian Congregational Music explores the role of congregational music in Christian religious experience, examining how musicians and worshippers perform, identify with and experience belief through musical praxis. Contributors from a broad range of fields, including music studies, theology, literature, and cultural anthropology, present interdisciplinary perspectives on a variety of congregational musical styles - from African American gospel music, to evangelical praise and worship music, to Mennonite hymnody - within contemporary Europe and North America. In addressing the themes of performance, identity and experience, the volume explores several topics of interest to a broader humanities and social sciences readership, including the influence of globalization and mass mediation on congregational music style and performance; the use of congregational music to shape multifaceted identities; the role of mass mediated congregational music in shaping transnational communities; and the function of music in embodying and imparting religious belief and knowledge. In demonstrating the complex relationship between 'traditional' and 'contemporary' sounds and local and global identifications within the practice of congregational music, the plurality of approaches represented in this book, as well as the range of musical repertoires explored, aims to serve as a model for future congregational music scholarship.
