 In the United States, the nomenclature of adult education includes adult literacy, adult secondary education, and English for speakers of other languages (ESOL) services provided to undereducated and limited English proficient adults. Those receiving adult education services have diverse reasons for seeking additional education. With the passage of the WIA, the assessment of adult education

students became mandatory-regardless of their reasons for seeking services. The law does allow the states and local programs flexibility in selecting the most appropriate assessment for the student. The purpose of the NRC's workshop was to explore issues related to efforts to measure learning gains in adult basic education programs, with a focus on performance-based assessments.

they read. Reading is an active and thinking process. Therefore, this book encourages learners to actively engage with texts (technical, scientific, social studies, and literary) by predicting, making connections and inferences, asking and answering questions, and completing the comprehension activities, and from Comprehending to Critiquing. Reading Strategies There are a variety of research-based strategies presented in this manual: Identifying Primary and Secondary Sources, Message and Theme, How to Evaluate an Argument, Vocabulary Acquisition and Reading Comprehension, Activating background or prior knowledge, Making inferences and prediction, Using visual imagery, Using context clues to build vocabulary, Reading for main ideas, Patterns for Organizing Text, Understanding Figurative Language, Denotation and Connotation of Words, and Summarizing. These examples will help you to understand the strategy, show you how it works, and give you concrete experience and practice. As you read, study, and work through these examples, you will build the confidence to succeed. You will become a purposeful, strategic, critical reader.
