Word lists lie at the heart of good vocabulary course design, the development of graded materials for extensive listening and extensive reading, research on vocabulary load, and vocabulary test development. This book has been written for vocabulary researchers and curriculum designers to describe the factors they need to consider when they create frequency-based word lists. These include the purpose for which the word list is to be used, the design of the corpus from which the list will be made, the unit of counting, and what should

and should not be counted as words. The book draws on research to show the current state of knowledge of these factors and provides very practical guidelines for making word lists for language teaching and testing. The writer is well known for his work in the teaching and learning of vocabulary and in the creation of word lists and vocabulary size tests based on word lists.

In derelict Dresden a cultivated, middle-class family does all it can to cope amid the Communist downfall. This striking tapestry of the East German experience is told through the tangled lives of a soldier, surgeon,

nurse and publisher. With evocative detail, Uwe Tellkamp masterfully reveals the myriad perspectives of the time as people battled for individuality, retreated to nostalgia, chose to conform, or toed the perilous line between East and West. Poetic, heartfelt and dramatic, *The Tower* vividly resurrects the sights, scents and sensations of life in the GDR as it hurtled towards 9 November 1989. Uwe Tellkamp was born in

1968 in Dresden. After completing his military service, he lost his place to study medicine on the grounds of 'political sabotage'. He was arrested in 1989, but went on to study medicine in Leipzig, Dresden and New York, later becoming a surgeon. He has won numerous regional prizes for poetry, as well as the Ingeborg Bachmann Prize for *The Sleep in the Clocks*. In 2008, he won the German Book Prize for *The Tower*.
