Do you ever feel as though your life isn't what it was meant to be? Do you ever feel as though no matter what you've achieved it's never enough? As though there's something missing? A hole deep inside you can't fill no matter what you do, gently nagging away at you every day? Do you feel unfulfilled, alone or stuck? Do you feel as though no-one really understands you or knows who you really are? Do you ever worry about what other people think of you or spend your time thinking too much about what those other people are doing? Do you drink too much alcohol to get you through the week? Do you take drugs or watch too much porn? Do you find yourself compulsively picking up your phone to check for messages or to scroll mindlessly through social media accounts? Do you gamble or work too many hours? Do you struggle to sleep or have stomach problems? Do you ever explode with anger at what later feels like the smallest thing? Do you lie? Do you cheat? Do you manipulate? Do you need to be in control of everything around you? Do you bite your tongue and not say what you really want to say? Do you suffer from depression or any other mental-health issues, or do you have any physical health issues the doctors can't cure? If you could start your life all over again, would you make different decisions? Would you change the life you have if you could do it without anyone ever knowing how you really feel? If you answered yes to any one or more of the above questions, I know how you feel. I solved those problems in my life and now help people around the world solve their problems by addressing the root causes rather than treating the symptoms. Whether it's PTSD, anxiety, depression or something else entirely - I am here to help. Using tried and tested techniques from the worlds of psychology, emotions, human behaviour, and NLP - amongst others - I can help you overcome your phobias, your addictions, and whatever else is holding you back in life. This is not about becoming a billionaire or buying a private jet. It's not about increasing your financial wealth or boosting your productivity. There are no life hacks in the work I do. This is about transforming your life from the ground up. In this book, I share everything I've learned that has transformed my life and the lives of people all around the world. It's 650 pages packed with everything I've learnt, which is two or three books for the price of one.

The Court of Equity An Episode in the Life of a Landscape Painter

What if you could live again and again, until you got it right? On a cold and snowy night in 1910, Ursula Todd is born to an English banker and his wife. She dies before she can draw her first breath. On that same cold and snowy night, Ursula Todd is born, lets out a lusty wail, and embarks upon a life that will be, to say the least, unusual. For as she grows, she also dies, repeatedly, in a variety of ways, while the young century marches on towards its second cataclysmic world war. Does Ursula's apparently infinite number of lives give her the power to save the world from its inevitable destiny? And if she can -- will she? Darkly comic, startlingly poignant, and utterly original -- this is Kate Atkinson at her absolute best.

October the 10th at 85, Chancery Lane in the City of London. The Goodness and Charity of Mistress Saunderson are well known, and 'tis not as a Suppliant that I crave pardon for my presumption, but rather as one whose fidelity and loyalty have oft been tried and never been found wanting. Life After Life

A delirious collection of short stories from the Latin American master of micro-fiction. A delirious collection of short stories from the Latin American master of microfiction, César Aira—the author of at least eighty novels, most of them barely one hundred pages long—*The Musical Brain & Other Stories* comprises twenty tales about oddballs, freaks, and loonies. Aira, with his fuga hacia adelante or "flight forward" into the unknown, gives us imponderables to ponder and bizarre and seemingly out-of-context plot lines, as well as thoughtful and passionate takes on everyday reality. The title story, first published in the *New Yorker*, is the *creme de la creme* of this exhilarating collection.
