A Brilliant, Buoyant Guide to Publishing Your Book
Hundreds of thousands of books come out every year

worldwide. So why not yours? In *The Book Bible*, New York Times bestseller and wildly popular Manhattan writing professor Susan Shapiro reveals the best and fastest ways to break into a mainstream publishing house. Unlike most writing manuals that stick to only one genre, Shapiro maps out the rules of all the sought-after, sellable categories: novels, memoirs, biography,

how-to, essay collections, anthologies, humor, mystery, crime, poetry, picture books, young adult and middle grade, fiction and nonfiction. Shapiro once worried that selling 16 books in varied sub-sections made her a literary dabbler. Yet after helping her students publish many award-winning bestsellers on all shelves of the bookstore, she realized that her versatility had a huge upside. She could

explain, from personal experience, the differences in making each kind of book, as well as ways to find the right genre for every project and how to craft a winning proposal or great cover letter to get a top agent and book editor to say yes. This valuable guide will teach both new and experienced scribes how to attain their dream of becoming a successful author.

A team of award-winning sports reporters takes down the Great Satan of college sports: the Bowl Championship Series. Every college sport picks its champion by a postseason tournament, except for one: Division I-A football. Instead of a tournament, fans are subjected to the Bowl Championship Series, an arcane mix of polling and

mathematical rankings that results in just two teams playing for the championship. It is, without a doubt, the most hated institution in all of sports. A recent Sports Illustrated poll found that more than 90 percent of sports fans oppose the BCS, yet this system has remained in place for more than a decade. Built upon top-notch investigative reporting, Death to the BCS at last reveals the truth about

this monstrous entity and offers a simple solution for fixing it. Death to the BCS includes findings from interviews with power players, as well as research into federal tax records, Congressional testimony, and private contracts, revealing: ?The truth behind the "Cartel"-the anonymous suits who run the BCS and who profit handsomely by protecting it ?The flawed math and

corruption that determine which teams participate in the national championship ?How the system hurts competition by perpetuating "cupcake" schedules ?How "mid-major" teams are systematically denied a chance to play for the championship ?How a comprehensive sixteen-team playoff plan can solve the problem while enhancing profitability The first book

to lay out the unseemly inner workings of the BCS in full detail, Death to the BCS is a rousing manifesto for bringing fairness back to one of our most beloved sports.

To answer this question -- which any historian must face -- renowned</p>	<p>New Testament scholar N. T. Wright focuses on the key points: what precisely happened at Easter? What did the early Christians mean when they said that Jesus of Nazareth had been raised from the dead? What can be said today about this belief? This book, third in Wright's series <i>Christian Origins and the Question of God</i>, sketches a map of ancient beliefs about life after</p>	<p>death, in both the Greco-Roman and Jewish worlds. It then highlights the fact that the early Christians' belief about the afterlife belonged firmly on the Jewish spectrum, while introducing several new mutations and sharper definitions. This, together with other features of early Christianity, forces the historian to read the Easter narratives in the gospels,</p>

 "How do we explain these

 No modern

historian has come up with a more convincing explanation. Facing this question, we are confronted to this day with the most central issues of the Christian worldview and theology.
