Robots in Space - Razor Robotics

Robots In Space Robot WorldWhen we think of robots we tend to personify these non-human aids and give them human-like features. But even though a lot of research has gone into developing these humanoid machines, we are still a long way from a world where they could take over, or even mimic the actions of a person.ESA - Robots in spaceThe most famous robots in space have to be the series of orbiters, rovers and landers that have been sent to Mars. The first orbiter was Mariner 4, which flew past Mars on July 14, 1965 and took...Robots in Space - Universe TodayThe Best Industrial Robots: 1.
