Fashion Illustration Inspirations
CreateSpace

The essential book for any fashion student or designer who wants to create stunning fashion illustrations quickly but lacks either the time or the confidence to draw their own. This book provides the answer with over 200 figure templates: figures in movement, with attitude and in classic elegant poses - from a variety of angles, full-length poses, three-quarter length poses, back views and front-on poses. It covers templates for men, women, teens and children. The figures may be copied or photocopied and enlarged from the book or used as a guide to develop your own illustrations. This is a very useful tool for fashion students and designers, providing them with strong visuals for their work by making the most of templates created by one of the world's leading fashion illustrators, Patrick John Ireland. But they can overlay their own designs on to the templates to ensure the work bears their own creativity.

Pregnant Batsford

For Gertie's New Fashion Sketchbook, Gretchen Hirsch teamed up with illustrator Sun Young Park to reinvent traditional figure templates--known as croquis--for the 21st century. Instead of the unnaturally skinny, tall, and frequently off-

balance croquis the fashion industry has been sketching on for decades, this game-changing alternative presents hundreds of realistically sized and proportioned female forms in balanced, lifelike poses. In addition, Park has rendered the croquis with multiple tracing lines, allowing the sketcher to follow the lines that most accurately reflect the body shape desired. Also included are an overview of the design and sketching process and a visual history of garment component styles, all to make it easier to create fashion sketches for women of all shapes and sizes. A body-positive sketchpad to help you achieve your fashion design dreams. Loaded with more than 300 figure templates that are proportionally true to the female form and adaptable to different body types, plus helpful sketching tips and resources. A breakthrough for aspiring and experienced designers tired of the industry standard of sketching clothing on female figures that are unnaturally skinny and tall (and sometimes even off-balance). Printed in a special ink that fades away when you photocopy it.

Fashion Figure Templates

This Fashion Sketchbook lets you spend less time struggling to draw proportional figures and more time designing fabulous looks! Lightly drawn figure templates let you sketch your fashion designs easily and professionally Eight different female poses included (see back cover) Over 100+ figure templates in total (two per page)

Fashion Figure Poses Book includes 60 fashion templates, adapted from Complete Fashion Designers Guide Book, a book designed as a resource book for fashion designers, fashion illustrators and students of fashion. Poses from different angles like front view, back view, side view are included. While using this book you can trace or scan any pose, then draw your own fashion design on it.
