PRESS
The first plain-English introduction to foreign currency exchange trading--one of today's hottest profit opportunities
The foreign currency market is the largest financial market in the

world, and foreign exchange trading is quickly becoming one of today's most high-profile, potentially lucrative markets. One problem is that books on the topic are complex, technically dense, and difficult for Forex novices to grasp. **FOREX Made Easy** is the first book to approach the topic in a detailed yet accessible style, gradually and deliberately moving from

simple to complex in easy and natural language. Author James Dicks--founder of the popular trading software 4X Made Easy--draws upon his trading knowledge to give readers only the information they need, from setting up a workstation to trading electronically. This Forex guidebook provides traders with: An easy-to-follow, six-step process for FOREX trading

Methods for gaining an advantage using technical analysis
Dozens of examples to illustrate key points
Forex Essentials in 15 Trades
John Wiley & Sons
What is the Forex Trading? How it works?
Learning quickly the basis of the Forex trading has never been so easy. This complete and simple guide will provide you with the operation mechanism of

the Foreign Exchange Market. Here you will find all the information you need to start working in the Forex: from book operations to currency crosses, from the Technical Analysis to the Fundamental Analysis, from the preliminary study of charts to the Money Management. An Easy Approach to the Forex Trading is the first essay which will guide you step by step through the

most liquid market of the world. Just forget about the useless, theoretical long books sold at a crazy price on the internet and enjoy reading something different which can provide you with the knowhow you are looking for at an amazing price!
What is Forex Trading Step-by-Step John Wiley & Sons The Book "How to Trade the Forex Market" is an invaluable compendium of ideas, facts and figures on

the Forex Market. How to Trade the Forex Market is the combination of a valid and proven Trading System and Trading Strategy that work at all time whenever it is applied to trading the Forex Market. The Trading System and the Trading Strategy are very vital trading tools in the hands of every Forex Traders because these tools help to vividly project the pattern of

trade, psychology behind every trade as its revealed by the market trend and patterns, and it helps to identify the dominant market force as it concerns the bulls and the bears. How to Trade the Forex Market is mostly concern with the intraday trading strategy. The book help to reveal the Forex Market Activities that shape up the average daily forex transaction which a trader needs to

understand in order to make good trading decision and boost returns on investment in the currency trading business of Forex. The Book helps traders to come to terms with the intraday trading in the forex market and the to present the best trading strategy for the intraday trading activities. The Strategy is such that it shows the trader the step by step approach to entering and

exiting the forex market on a daily basis. This in turn determines traders profit. The book will show the trader how to analysis the daily forex market transactions, the daily market components, the importance of market timing, the most effective intraday timeframe strategy, the most consistent entry and exit approach into the forex market, and a very good

trade protective stop loss technique. How to Trade the Forex Market is no doubt a valuable asset to every forex trade due to the revelation that is being brought to light in the book which will help every Forex trader to trade the market in a more professional manner. It also helps to position the Forex Trader for maximum returns and maximum benefit of Forex trading activities

which includes the following. The benefits of intraday trading strategy are numerous and just to mention a few, we have:

- Intraday trading enables the trader to determine the trade and close trading position if it requires the trader to do so.
- The trader is not charged for swap because trade transactions are close within one day of trading activities.
- A trader is able

to account for his/her profit or loss because trading is done with a day.

- Intraday trading enables the trader to undo the fear of having an order position running for more than a day and such type of trades the trader may not be able to ascertain market direction due to the fact that anything can happen based on market fundamentals.
- It gives room for the trader to decide

which trade to take which trade to avoid or reject. • It the trader to know how the economic fundamentals affect the forex market. • It provides the trader ample opportunity to adjust or close trade in the course of major economic and natural events that can prove/move contrary to the trader's wish. • It helps the trader to control his/her drawdown. • Intraday trading method helps to reflect the actual impact of forex market fundamentals of the market trading activities. • Intraday trading strategy helps to keep abreast of the daily forex market realities, etc.

forex, was once dominated by global banks, hedge funds, and multinational corporations, but that has all changed with Internet technology and the advent of online forex brokers. Now, hundreds of thousands of traders and investors around the world can participate in this profitable field. Written by forex expert Kathy Lien, *The Little Book of Currency Trading* will show you how

to effectively invest and trade in today's biggest market. Page by page, she describes the multitude of opportunities possible in the forex market, from short-term price swings to long-term trends, and details practical products that can help you achieve success, such as currency-based ETFs. Explains the forces that drive currencies and provides strategies to profit from

them Reveals how you can use various currencies to reduce risk and take advantage of global trends Examines financial vehicles that can help you make money without having to monitor the market every day *The Little Book of Currency Trading* opens the world of currency trading and investing to anyone interested in entering this dynamic arena.

A Three Dimensional

Approach to Forex Trading

Harriman House Limited Scalping is Fun! 1-4 Book 1: Fast Trading with the Heikin Ashi chart Book 2: Practical Examples Book 3: How Do I Rate my Trading Results? Book 4: Trading Is Flow Business Scalping is the fastest way to make money in the forex market. There are no other methods that can increase the capital of a trader more effectively. To explain how

this is so, the Heikin Ashi Trader tells all in this four-part series on scalping. This highly effective scalping strategy is very easy to understand and can be applied immediately because it is universal and works in all forex markets. It can be applied in very short time frame, as in the 1-minute chart as well as on higher time frames. Book 1: Fast Trading with the Heikin Ashi chart 1. Welcome to

scalping. It's fun! 2. How do markets function? 3. What is trading? 4. What is scalping? 5. The Heikin Ashi chart 6. The scalping setup 7. Risk and Money Management 8. Make a decision! Book 2: Practical Examples 1. Scalping with Technical Analysis 2. How do I Interpret Heikin Ashi Charts? 3. When do I Get In? 4. When do I Get Out? 5. Working with Price Objectives 6. Heikin Ashi

<p>Scalping in Practice 7. Does Technical Analysis Help While Heikin Ashi Scalping? A. Support and Resistance B. Swing High and Swing Low of the Past Days C. --	---	--

analysis using EUR/USD pairs for May 2017. Calculations of the results are performed based on the actual results without rounding off. The strategy shows a good technical result for the EUR/USD pair in May--equal to about 300% of the initial deposit. The study of the GBP/USD pair will help readers understand the importance of determining periods of market uncertainty in a timely fashion. To

demonstrate the flexibility of the strategy settings and the formation of short-term uncertainty periods, the EUR/USD pair is shown on five-minute charts in one working day on May 31. For nine hours of work, the result was approximately + 82% of the initial deposit. The month following the first book's «Trading Code is Open: ST Patterns of the Forex and Futures Exchanges» publication perfectly

demonstrated the possibilities of using the trading system and showed how almost half of the ST Patterns published in this book operate in practice. The analysis, based on accurate calculations, will help traders consolidate the acquired knowledge, and to increase their own skills with Structural Target Patterns. Over the 18 years I have spent researching

dozens of well-known, as well as not so famous, trading systems, I have not found any that could demonstrate anything near the results obtained by the ST Patterns trading method during this arbitrarily chosen time interval. The trading of the EUR/USD currency pair is given as the main example in this book. But the algorithm for this trading, detailed in this book, is also applicable to

other currency pairs. The ST Trading Strategy is also profitable in the Futures, Indices, Commodities and other liquid markets. Millions of traders are trying to find an effective technical method for analyzing the movement of exchange charts. Now it has arrived! Note: This book (ISBN: 171986005X) is with black & white interior. You can also buy a book (ISBN: 1719837996) with a color

interior. Swing and Day Trading Forex Strategies John Wiley & Sons
If you've always wanted to learn how Forex Trading works and understand every part of it to achieve the desired profits, then keep reading. Would you like to learn how to make correct investments? Are you interested to explore this reality but you don't know where to start? Well, this could be

one of the right alternatives for you! Forex Trading Using Intermarket Analysis
Mwaka Moon Ltd
A streamlined and highly effective approach to trading without indicators
Most forex traders rely on technical analysis books written for stock, futures, and option traders.
However, long before computers and

calculators, traders were trading naked. Naked trading is the simplest (and oldest) trading method. It's simply trading without technical indicators, and that is exactly what this book is about. Traders who use standard technical indicators focus on the indicators. Traders using naked trading techniques focus on the price chart. Naked trading is a simple and superior way to trade and is suited to those

traders looking to quickly achieve expertise with a trading method. Offers a simpler way for traders to make effective decisions using the price chart. Based on coauthor Walter Peters method of trading and managing money almost exclusively without indicators. Coauthor Alexander Nekritin is the CEO and President of TradersChoice FX, one of the largest Forex

introducing brokers in the world Naked Forex teaches traders how to profit the simple naked way!
The Forex Trading Course John Wiley & Sons
 Crowds move markets and at major market turning points, the crowds are almost always wrong. When crowd sentiment is overwhelmingly positive or overwhelmingly negative ? it's a signal that the trend is exhausted and the market is ready to move

powerfully in the opposite direction. Sentiment has long been a tool used by equity, futures, and options traders. In Sentiment in the Forex Market, FXCM analyst Jaime Saettele applies sentiment analysis to the currency market, using both traditional and new sentiment indicators, including: Commitment of Traders reports; time cycles; pivot points; oscillators; and Fibonacci

time and price ratios. He also explains how to interpret news coverage of the markets to get a sense of when participants have become overly bullish or bearish. Saettele points out that several famous traders such as George Soros and Robert Prechter made huge profits by identifying shifts in crowd sentiment at major market turning points. Many individual traders lose money in the

currency market, Saettele asserts, because they are too short-term oriented and trade impulsively. He believes retail traders would be much more successful if they adopted a longer-term, contrarian approach, utilizing sentiment indicators to position themselves at the beginning points of major trends. **AN EASY APPROACH TO THE FOREX TRADING - An**

introductory guide on the Forex Trading and the most effective strategies to work in the currency market.

William J. Ehlers
This Forex Trading book includes 2 books Book 1: Practical examples Scalping is the fastest way to make money in the stock market. There is hardly another method that can be found that increases a trader's capital more effectively.
The Heikin

Ashi Trader explains why this is so in this four-part series on scalping. In this first book, he explains his setup with many practical examples. You will learn how to interpret Heikin-Ashi charts correctly, when to get into a market and when to get out. Also, you will learn how to combine the setup with important principles of technical analysis. This highly effective scalping

strategy can be applied in a short time frame; for instance, a 1-minute chart in addition to other higher time frames. You can trade using this universal method in equity indices and in the currency markets. Typical instruments, however, are futures and currencies.
Book 2: How do I rate my Trading Results? In this second book, the Heikin Ashi trader answers the question of

how the trading results of a scalper are analyzed and correctly evaluated. Based on the weekly results of a single trader, he examines what factors matter to having long-term success in the stock market. The analysis of the trading journal for 12 weeks allows an inside look at the learning curve of a budding professional. Table of Contents Book 1: Forex Trading, Practical Examples 1.

Scalping with Technical Analysis 2. How do I Interpret Heikin Ashi Charts? 3. When Do I Get In? 4. When Do I Get Out? 5. Working with Price Objectives 6. Heikin Ashi Scalping in Practice 7. with the help of the tools and techniques described in this book. The information presented here will provide you with the key strategies you need. This book will teach you how to understand the Forex market while knowing nothing about trading. When you are done, you will know exactly how to trade and be able to make your choices wisely. So what are you waiting for? Don't pass up this chance!

Buy it now and let your clients become addicted to this incredible book. Stefano Calicchio Have you an idea of how much a successful forex trader earns? Forex is the biggest financial market, where more than \$ 5 trillion is traded every day! It is one of the most significant money-making opportunities in the world. But, do you know how you can make money in

Forex Trading? Simple: there are some specific strategies, some "rules" and attitudes, which allow you to become a successful trader. Swing and Day Trading Forex Strategies explains all of them, so it has all you look for. Is forex trading like gambling? No, it is a real Business. It has its rules: learn the laws of the game and will become a successful trader. If you are a

beginner, you have to know how to move in the forex world. You could start to do day trading, which involves making multiple trades every day, or you could begin to do swing trading, which is based on positions holding on a longer time. Using swing and day trading strategies can make a big difference, but aspiring traders are quite confused between the two terms. Whatever

strategy you choose, you must know the basics and rules about its, and Swing Day Trading Forex Strategy is what you need! In this book, you will learn: - What is Forex? - What influences Forex? - Technical Analysis in Trading - Why Forex is Not a gambling - Entry and exit points - Differences between Swing and Day trading - Beginner's common mistakes - The psychology of trading and

Money Management Compared to other trading opportunities, Forex investing is on top of the list. As a 24-hour market, it ensures high liquidity, low transaction costs, and very potential profit: no wonder people love doing Forex trading! Have you been trying to earn your first \$1000 without a good result? Maybe you would have needed more specific strategies or someone who had explained to you the

Forex world rules. Don't worry: this comprehensive guide comes to your rescue. Success in trading cannot happen overnight. It is not instant. It requires a lot of effort, time, and patience as well. This book will be a helpful and great addition to your learning resources to know more about the day and swing trading! Divided into different chapters, Swing and Day Trading Forex

Strategies is comprehensive, holistic, and specific: it has been designed for both inexperienced and seasoned traders. The tips and information are presented according to the needs and expectations of less tech-savvy individuals. What are you waiting for? Click to "Buy Now" button, and let's learn trading strategies to increase your income! *Essentials of Foreign Exchange Trading* Access

Financial
Are you looking for a way to create a second passive income? Are you unsatisfied with your job, and are you looking for a business to earn money spending more time with your family?
