How a Private School Can Help Your Child

John Catt Educational Ltd
Frequent moves are a
feature of Service life, and
mobility can have a
detrimental impact on
children's emotional well-

being and their
educational attainment.
The Committee's report
examines issues relating
to the education of the
children of armed forces
service personnel,
including Service schools
overseas and the
performance of the
Ministry of Defence's
agency, Service Children's
Education (SCE), which is
responsible for providing

these schools, as well as
issues affecting Service
children in UK state-
maintained and
independent sector day
and boarding schools. The
Committee concludes that
Service personnel deserve
assurance that their
children's education will
not suffer because of their
parent's employment, and
expresses its doubts that
the DfES and the MoD

currently take the interests of Service children sufficiently into account. Findings include: the need for better co-ordination between the MoD, the DfES and the devolved administrations to ensure continuity of education for children moving between different parts of the UK; the DfES needs to undertake work to determine how many Service children are in UK schools and the system for transferring student records between schools needs to be improved, particularly for Service

children with special needs; and the MoD should increase the provision of telephones and internet access for Service personnel on operations so that they can communicate with their children.

This edition of over 60

000 entries, including significantly more than 20% new or revised material, not only updates its predecessor but also continues the policy of extending coverage to areas dealt with only sparsely in previous editions. Special attention has been paid to the Far East, Australasia and Latin America in general, and to the People's Republic of China in particular. The cross-referencing between a defunct organization and its successor (indicated by ex and now) introduced into

the last edition, has been extended. Otherwise the policies adopted in previous editions have been retained. All kinds of organizations are included - international, national, governmental, individual, large or small - but strictly local organizations have been omitted. The subject scope includes activities of all kinds, in the fields of commerce and industry, education, law, politics, public administration, religion, recreation, medicine, science and technology. The country of origin of a national

organization is given in brackets, unless it is the home country of the title language or can be deduced readily from the title itself. Acronyms of parent bodies of subsidiary organizations are also added in brackets. Equivalences are used to link acronyms in different languages for the same organization. A select bibliography guides the reader to specialist works providing more detailed information. Preparatory Schools 2011 Partridge Publishing

Published in 2001:

Abbreviations, nicknames, jargon, and other short

forms save time, space, and effort - provided they are understood.

Thousands of new and potentially confusing terms become part of the international vocabulary each year, while our communications are relayed to one another with increasing speed.

PDA's link to PCs. The Net has grown into data central, shopping mall, and grocery store all rolled into one. E-mail is faster than snail mail, cell phones are faster yet - and it is all done 24/7.

Longtime and widespread

use of certain abbreviations, such as R.S.V.P., has made them better understood standing alone than spelled out. Certainly we are more comfortable saying DNA than deoxyribonucleic acid - but how many people today really remember what the initials stand for?

Rowman & Littlefield
 They Must Be Stopped is
 New York Times
 bestselling author Brigitte
 Gabriel's warning to the
 world: We can no longer
 ignore the growth of
 radical Islam--we must act
 soon, and powerfully.
 Gabriel challenges our
 western and politically-
 correct notions about
 Islam, demonstrating why
 radical Islam is so deadly
 and how we can halt its
 progress. Brigitte Gabriel
 speaks her mind:
 *Fundamentalist Islam is a
 religion rooted in 7th
 century teachings that are

fundamentally opposed to
 democracy and equality.
 *Radical Islamists are
 utterly contemptuous of
 all "infidels" (non-
 Muslims) and regard them
 as enemies worthy of
 death. *Madrassas in
 America are increasing in
 number, and they are just
 one part of a growing
 radical Islamic army on US
 soil. *Radical Islam
 exploits the US legal
 system and America's
 protection of religion to
 spread its hatred for
 western values. *America
 must organize a unified
 voice that says "enough"

to political correctness,
 and demands that
 government officials and
 elected representatives
 do whatever is necessary
 to protect us. Brigitte
 Gabriel has fearlessly
 faced down critics, death
 threats, and political
 correctness, and is one of
 the most sought after
 terrorism experts in the
 world. They Must Be
 Stopped is her clarion call
 to action. Gabriel
 thoroughly addresses the
 historical and religious
 basis of radical Islam, its
 frightening encroachment
 into societies around the

world, and its abuses of democracy in the name of religion.
