Maybe you've noticed Kanye West's grill of gold and diamonds on his bottom teeth or admired Nicki Minaj's crazy wigs. But have you checked out Chris "The Duchess" Walton, a singer from Las Vegas, who has fingernails that are 20 feet (6 meters) long? Or Julia Gnuse, who is called the Illustrated Lady because her entire body is covered with tattoos? What about baseball player Covelli Loyce ?Coco? Crisp? Have you seen the stud implant on his neck? All of this body art is pretty wild, but in fact, people have been decorating and modifying their bodies in fantastic ways for thousands of years. Cleopatra of ancient Egypt wore hair styles to

rival those of Lady Gaga. The ancient Inca of South America decorated their nails with images of gods and eagles. Even English playwright William Shakespeare had a piercing! In *Expressing the Inner Wild*, you'll read about all the amazing ways people around the globe and across the centuries have been creatively transforming their hair, lips, fingers, toes, eyelashes, ears?just about any body part you can think of?with jewelry, makeup, inks, piercings, and other decorations. From African tribal body paint to ear plugs, tattoo pantyhose, and nail art for guys, you'll discover the sky's the limit!

I Have Tattoos In Places You Can't See

The seminal volume on body painting and adornment by the world's preeminent photographers of African culture. Following the international masterpiece *Africa Adorned*, Carol Beckwith and Angela Fisher have focused on the traditions of body painting spanning the vastly unique cultures of the African continent. In a contemporary world so fascinated with tattoos and piercings, Beckwith and Fisher document the origins of these fashionable adornments as passed down through African tribal culture. Featured are portraits of the richly colored, detailed, and exquisite body paintings of the Surma, Karo, Maasai, Himba, and Hamar peoples, among others. Drawing from expeditions in the field and firsthand experiences with African peoples and cultures over the past thirty years and with more than 250 spectacular photographs, this is the definitive work on the expressiveness and imagination of African cultural painting of the human body.

For many servicemen, the battle is over, but the ink lives on. Thousands of service men and women have chosen to commemorate their military service through tattoos, a custom as old as war paint itself. Yet military tattoos go far beyond the

usual anchor and eagle clichés, and are often as complex and varied as the military experience. For the first time, documentary photographer Kyle Cassidy has sought out veterans who marked their military service with a tattoo and they are shown here in all their glory: fresh, faded, sometimes intertwined with wounds, physical and otherwise. And the stories behind these tattoos, both conventional and surprising, are just as engaging. In a transient world, with shifting enemies, mores, leaders, and friends, this is a testament to the values of a permanent commemoration. The unique journey into each soldier's story will captivate you. Not only is this book a great resource for history and military buffs, but it is also a great reference for tattoo artists.
