In the vein of Year of the Dog and The Higher Power of Lucky, this Middle Eastern coming-of-age story is told with warmth, spirit, and a mischievous sense of humor Spunky eleven-year-old Wadjda lives in Riyadh, Saudi Arabia with her parents. She desperately wants a bicycle so that she can race her friend Abdullah, even though it is considered improper for girls to ride bikes. Wadjda earns money for her dream bike by selling homemade bracelets and mixtapes of banned music to her classmates. But after she's caught, she's forced to turn over a new leaf (sort of), or risk expulsion from school. Still, Wadjda keeps scheming, and with the bicycle so closely in her sights, she will stop at nothing to get what she wants. Set against the shifting social attitudes of the Middle East, The Green Bicycle explores gender roles, conformity, and the importance of family, all

with wit and irresistible heart.

Spectacular, mysterious, elegant, or grotesque, the vertebrate skeletons of Earth's fossil record carry within them the traces of several billion years of life. Evolution in Action, a resounding success on its initial publication in 2007, is a unique and beautiful attempt to provide a map of those billion years in time. Now updated and presented in a smaller format with seventeen new utterly distinctive photographs, this book steps beyond the debate and presents the undeniable truth of Darwin's theory, showing through 200 photographs of skeletons both obscure and commonplace, but always intriguing, the process by which life has transformed itself, again and again,

Erik e la sua squadra sono i primi esseri umani a valicare i confini del Sistema Solare. La loro meta è Sirio, la stella più luminosa della volta celeste, dove è stato scoperto il primo pianeta extrasolare che potrebbe supportare la vita così come la conosciamo. Eventi tragici e dure prove segneranno il viaggio di Erik, un tuffo nell'ignoto dove distinguere sogno e realtà sarà sempre più difficile, perché assieme ai pericoli dello spazio sono in agguato anche quelli della mente. La ricompensa, tuttavia, sarà una maggiore comprensione di sé e della sua vita, un barlume di luce sulle tenebre dell'esistenza e del suo cuore.

This middle grade mystery adventure, told in a unique format including diary entries, maps and photos, takes readers along on the harrowing journeys of two twelve-year-old siblings, separated

just before the Nazi siege of their city and each desperate to reunite with one another. Twins Viktor and Nadya are twelve years old when Hitler's Germany declares war on the Soviet Union. With little notice, the city's children are evacuated on trains that are meant to take them to safety. Shockingly, Viktor and Nadya are separated, and disaster befalls them both. As the terrible conflict rages, each embarks on a desperate race across snow and ice, struggling through the destruction in an effort to be reunited. Their chances are slim, but they never lose hope. In an original format-- using the kids' diary entries, with historical photos, maps, and drawings throughout, this fictionalized account of the Nazi siege of Leningrad during the Second World War, this heart-stopping story of danger, courage and bravery emphasizes the power of truth and what it means to be a hero.
