A Process of Ongoing Improvement Jones & Bartlett Learning

A captivating memoir about tutoring for Manhattan's elite, revealing how a life of extreme wealth both helps and harms the children of the one percent. Ben orders daily room service while living in a five-star hotel. Olivia collects luxury brand sneakers worn by celebrities. Dakota jets off to Rome when she needs to avoid drama at school. Welcome to the inner circle of New York's richest families, where academia is an obsession, wealth does nothing to soothe status anxiety and parents will try just about anything to gain a competitive edge in the college admissions rat race. When Blythe Grossberg first started as a tutor and learning specialist, she had no idea what awaited her inside the high-end apartments of Fifth Avenue. Children are expected to be as efficient and driven as CEOs, starting their days with 5:00 a.m. squash practice and ending them with late-night tutoring sessions. Meanwhile, their powerful parents will do anything to secure one of the precious few spots at the Ivy Leagues, whatever the cost to them or their kids. Through stories of the children she tutors that are both funny and shocking, Grossberg shows us the privileged world of America's wealthiest families and the systems in place that help them stay on top.

Brands have never been more important than they are today. As Paul Temporal explains in this fully revised and updated third edition of his classic bestseller, the challenges of the business world are

greater now than ever before. Brand managers have to cope with a broader range of variables and pressures from the marketplace and consumers. The lifeline of a strong brand can mean the difference between success and failure, or survival and extinction, in this turbulent environment. But what constitutes a strong brand? How should it be developed and managed? How do you activate and manage a winning brand strategy? Advanced Brand Management is the indispensable guide that provides all the answers. Paul Temporal addresses every issue related to brand management in the 21st century, providing the background theory and illustrating this with thoughtful case studies from across the business world. In this third edition, all chapters have been updated, and a completely new chapter is included on the growth of the digital world and the use of the Internet. Throughout, there is an increased emphasis on brand strategy and updates to case studies, with entirely new cases being added. If you want to make your own branding a success, you can't afford to be without Advanced Brand Management.

Rethinking Homework Igloo Books

In this updated edition, Cathy Vatterott examines the role homework has played in the culture of schooling over the years; how such factors as family life, the media, and "homework gap" issues based on shifting demographics have affected the homework controversy; and what recent research as well as common sense tell us about the effects of homework on student learning. She also explores how the current homework debate has been reshaped by forces including the Common Core, a pervasive media and technology presence, the mass hysteria of "achievement culture," and the increasing shift to standards-based and formative assessment. The best way to address the homework controversy is not to eliminate homework. Instead, the author urges educators to replace the old paradigm (characterized by long-standing cultural beliefs, moralistic views, and behaviorist philosophy) with a new paradigm based on the following elements: Designing high-quality homework tasks; Differentiating homework tasks; Deemphasizing grading of homework; Improving homework completion; and Implementing homework support programs. Numerous examples from teachers and schools illustrate the new paradigm in action, and readers will find useful new tools to start them on their own journey. The end product is homework that works—for all students, at all levels.
