### The Fall of Rorke's Drift UPNE

'1879, the year in which I grew up faster than I could shout my name. That year was the one in which we experienced events and encounters that no one, particularly a child, should ever witness. It was also the year my people lost everything - their land and fields - and were reduced to being vagrants and beggars in the land of their birth. I am the daughter of Mqokotshwa Makhoba, one of King Cetshwayo's generals of the iNgobamakhosi regiment, he named me Nombhoshi, which means bullet. He said I would come out of any situation fast and unscathed, like a bullet...' Nomavenda Mathiane stumbled upon her grandmother's story well over a century after the gruelling events of the Battle of Isandlwana that formed her life. Astounded to hear how her grandmother had survived the 1879 Anglo-Zulu War between the British and Zulu nations as a young girl, Mathiane spent hours with her elder sisters reconstructing the extraordinary life of their grandmother. The result is a sweeping epic of both personal and political battles. *Eyes in the Night* is a young Zulu woman's story of drama, regret, guilt and, ultimately, triumph - set against the backdrop of a Zululand changed beyond recognition. A true story almost lost, but for a chance remark at a family gathering. *Reconstructive Debates in Southern African History* Jonathan Ball Publishers  
 The Kingdom forged by Shaka was once one of the most powerful and sophisticated black states in Africa. It took the British at the height of their imperial power six months and a full military campaign to bring the kingdom down. Thereafter, Zululand was broken up, consigned to bitter civil war, and eventually annexed piecemeal, its land given over to white farmers, in a saga of humiliation and loss. This book gives an account of the dramatic emergence and tragic decline of the Zulu kingdom in the 19th century, based on research fieldwork. It ranges from themes such as Zulu social and political organization, through analysis of the vivid personalities and complex political manoeuvrings of leading Zulu and their colonial opponents, to descriptions of military campaigns and battles.

A full biography of the founding president of the African National Council (ANC), this account uncovers the inspirations for John L. Dube's many public achievements. Tracing the history of his forerunners in the Zulu kingdom, this volume chronicles the politician's life from his birth in 1871, and highlights his many achievements, including the founding of the Ohlange School, the key role he played in the Bhambatha Rebellion, and the authorship of the first Zulu novel. As it evaluates Dube's five-year presidency of the ANC, this book shows that in spite of the many conflicts and ambiguities in his position, Dube's central political belief--that Africans should be directly represented in the parliament of the land--remained remarkably constant throughout his long career.

In 1914, Haggard, the author of colonialist novels *King Solomon's Mines* and *She* returned to a South Africa which had greatly changed since the first visits of his youth. This account of his journey as a member of the British Empire's Dominions Royal Commission offers observations on the changed nature of the country after the Anglo-Boer wars and details a number of aspects of the political landscape, including a description of his interview with the founder of the African National Congress, John Dube. c. This engrossing anthology gathers together a remarkable collection of writings on the use of strategy in war. Gérard Chaliand has ranged over the whole of human history in assembling this collection—the result is an integration of the annals of military thought that provides a learned framework for understanding global political history. Included are writings from ancient and modern Europe, China, Byzantium, the Arab world, Persia, and the Ottoman Empire. Alongside well-known

militarists such as Julius Caesar, Napoleon, Walter Raleigh, Rommel, and many others are "irregulars" such as Cortés, Lawrence of Arabia, and even Gandhi. Contrary to standard interpretations stressing competition between land and sea powers, or among rival Christian societies, Chaliand shows the great importance of the struggles between nomadic and sedentary peoples, and of the conflicts between Christianity and Islam. With the invention of firepower, a relatively recent occurrence in the history of warfare, modes of organization and strategic concepts—elements reflecting the nature of a society—have been key to how war is waged. Unparalleled in its breadth, this anthology will become the standard work for understanding a fundamental part of human history—the conduct of war. "This anthology is not only an unparalleled corpus of information and an aid to failing memory; it is also and above all a reliable and liberating guide for research. . . . Ranging "from the origins to the nuclear age," it compels us to widen our narrow perspectives on conflicts and strategic action and open ourselves up to the universal."—from the Foreword

More starkly than any other contemporary social conflict, the crisis in South Africa highlights the complexities and conflicts in race, gender, class, and nation. These original articles, most of which were written by South African authors, are from a special issue of the *Radical History Review*, published in Spring 1990, that mapped the development of interpretations of the South African past that depart radically from the official history. The articles range from the politics of black movements in the nineteenth and twentieth centuries to studies of film, television, and theater as reflections of modern social conflict. History from South Africa is presented in two main sections: discussions of the historiography of South Africa from the viewpoint of those rewriting it with a radical outlook; and investigations into popular history and popular culture—the production and reception of history in the public realm. In addition, two photo essays dramatize this history visually;

maps and a chronology complete the presentation. The book provides a fresh look at major issues in South African social and labor history and popular culture, and focuses on the role of historians in creating and interacting with a popular movement of resistance and social change.

The Love Diary of a Zulu Boy is by turns erotic, romantic, tragic and comic. Inspired by the real-life drama of a romance between a Zulu boy and an Englishwoman, the book consists of various interrelated short stories on interracial relationships in modern-day South Africa. As the author reflects on love across the colour line, it triggers memories of failed affairs and bizarre experiences: love spells, toxic masculinity, infidelity, sexually transmitted diseases, a phantom pregnancy, sexless relationships, threesomes and prostitution, to name but a few. A unique book for the South African market, The Love Diary of a Zulu Boy is written with an honesty rarely encountered in autobiographical writing.

Bestselling author Sherman Alexie tells the story of Junior, a budding cartoonist growing up on the Spokane Indian Reservation. Determined to take his future into his own hands, Junior leaves his troubled school on the rez to attend an all-white farm town high school where the only other Indian is the school mascot. Heartbreaking, funny, and beautifully written, The Absolutely True Diary of a Part-Time Indian, which is based on the author's own experiences, coupled with poignant drawings by Ellen Forney that reflect the character's art, chronicles the contemporary adolescence of one Native American boy as he attempts to break away from the life he was destined to live. With a forward by Markus Zusak, interviews with Sherman Alexie and Ellen Forney, and four-color interior art throughout, this edition is perfect for fans and collectors alike.

It's not that she stopped loving him, but he was just so stubborn about wasting his medical degree on treating the poor. In August 2004, South Africa officially sought to legally recognize the practice of traditional healers. Largely in response to the HIV/AIDS pandemic, and limited both by the number of practitioners and by patients' access to treatment, biomedical practitioners looked toward the country's traditional healers as important agents in the development of medical education and treatment. This collaboration has not been easy. The two medical cultures embrace different ideas about the body and the origin of illness, but they do share a history of commercial and ideological competition and different relations to state power. *Healing Traditions: African Medicine, Cultural Exchange, and Competition in South Africa, 1820-1948* provides a long-overdue historical perspective to these interactions and an understanding that is vital for the development of medical strategies to effectively deal with South Africa's healthcare challenges. Between 1820 and 1948 traditional healers in Natal, South Africa, transformed themselves from politically powerful men and women who challenged colonial rule and law into successful entrepreneurs who competed for turf and patients with white biomedical doctors and pharmacists. To understand what is "traditional" about traditional medicine, Flint argues that we must consider the cultural actors and processes not commonly associated with African therapeutics: white biomedical practitioners, Indian healers, and the implementing of white rule. Carefully crafted, well written, and powerfully argued, Flint's analysis of the ways that indigenous medical knowledge and therapeutic practices were forged, contested, and transformed over two centuries is highly illuminating, as is her demonstration that many "traditional" practices changed over time. Her discussion of African and Indian medical encounters opens up a whole new way of thinking about the social basis of health and healing in South Africa. This important book will be core reading for classes and future scholarship on health and healing in Africa.

In this exciting re-reading of the classic work of Haggard and Kipling, Gail Ching-Liang Low examines the representational dynamics of colonizer versus colonized. Exploring the interface between the native 'other' as a reflection and as a point of address, the author asserts that this 'other' is a mirror

reflecting the image of the colonizer - a 'cultural cross-dressing'. Employing psychoanalysis, anthropology and postcolonial theory, Low analyzes the way in which fantasy and fabulation are caught up in networks of desire and power. *White Skins/Black Masks* is a fascinating entry into the current debate of post-colonial theory.

The idea that the period of social turbulence in the nineteenth century was a consequence of the emergence of the powerful Zulu kingdom under Shaka has been written about extensively as a central episode of southern African history. Considerable dynamic debate has focused on the idea that this period - the 'mfecane' - left much of the interior depopulated, thereby justifying white occupation. One view is that 'the time of troubles' owed more to the Delagoa Bay Slave trade and the demands of the labour-hungry Cape colonists than to Shaka's empire building. But is there sufficient evidence to support the argument? The *Mfecane Aftermath* investigates the very nature of historical debate and examines the uncertain foundations of much of the previous historiography.

Everything Good Will Come introduces an important new voice in contemporary fiction. With insight and a lyrical wisdom, Nigerian-born Sefi Atta has written a powerful and eloquent story set in her African homeland. It is 1971, a year after the Biafran War, and Nigeria is under military rule—though the politics of the state matter less than those of her home to Enitan Taiwo, an eleven-year-old girl tired of waiting for school to start. Will her mother, who has become deeply religious since the death of Enitan's brother, allow her friendship with the new girl next door, the brash and beautiful Sheri Bakare? This novel charts the fate of these two African girls; one who is prepared to manipulate the traditional system and one who attempts to defy it. Written in the voice of Enitan, the novel traces this unusual friendship into their adult lives, against the backdrop of tragedy, family strife, and a war-torn Nigeria. In the end, Everything Good Will Come is Enitan's story; one of a fiercely intelligent, strong young woman coming of age in a culture that still insists on feminine submission. Enitan bucks the familial and political systems until she is confronted with the one desire too precious to forfeit in the name of personal freedom: her desire for a child. Everything Good Will Come evokes the sights and smells of Africa while imparting a wise and universal story of love, friendship, prejudice, survival, politics, and the cost of divided loyalties.

Small and isolated in the Colony of Natal, Fort Napier was long treated like a temporary outpost of the expanding British Empire. Yet British troops manned this South African garrison for over seventy years. Tasked with protecting colonists, the fort became even more significant as an influence on, and reference point for, settler society. Graham Dominy's *Last Outpost on the Zulu Frontier* reveals the unexamined but pivotal role of Fort Napier in the peacetime public dramas of the colony. Its triumphalist colonial-themed pageantry belied colonists's worries about their own vulnerability. As Dominy shows, the cultural, political, and economic methods used by the garrison compensated for this perceived weakness. Settler elites married their daughters to soldiers to create and preserve an English-speaking oligarchy. At the same time, garrison troops formed the backbone of a consumer market that allowed colonists to form banking and property interests that consolidated their control.

"A densely detailed account of the 1879 Zulu defeat of the British . . . portrays a complex and interesting segment of British/African history."—Library Journal The battle of Isandlwana—a great Zulu victory—was one of the worst defeats ever to befall a British Army. At noon on 22 January 1879, a British camp, garrisoned by over 1700 troops, was attacked and overwhelmed by 20,000 Zulu warriors. The defeat of the British, armed with the most modern weaponry of the day, caused disbelief and outrage throughout Queen Victoria's England. The obvious culprit for the blunder was Lieutenant General Lord Chelmsford, the defeated commander. Appearing to respond to the outcry, he ordered a court of inquiry. But there followed a carefully conducted cover-up in which Chelmsford found a scapegoat in the dead—most notably, in Colonel Anthony Durnford. Using source material ranging from the Royal Windsor Archives to the oral history passed down to the present Zulu inhabitants of Isandlwana, this gripping history exposes the full extent of the blunders of this famous battle and the scandal that followed. It also gives full credit to the masterful tactics of the 20,000 strong Zulu force and to Ntshingwayo kaMahole, for the way in which he comprehensively out-generalled Chelmsford. This is an illuminating account of one of the most embarrassing episodes in British military history and of a spectacular Zulu victory. The authors superbly weave the excitement of the battle, the British mistakes, the brilliant Zulu tactics and the shameful cover up into an exhilarating and tragic tale. "A must for anyone interested in the Zulu War. Highly recommended."—British Army Review
