The U.S.

Environmental
Protection
Agency (EPA)
and U.S.

Department of
Energy (DOE)
produce the
Fuel Economy
Guide to help
buyers choose
the most fuel-
efficient
vehicle that

meets their
needs. Most
vehicles in
this guide
have three
fuel economy
estimates: a
"city"
estimate ... a
"highway"
estimate ... a
"combined"
estimate.

Estimates for all vehicles are based on laboratory testing under standardized conditions to allow for fair comparisons.

Fuel Economy Guide 2016
GovAmerica.org

The Fuel Economy Guide is published by the U.S. Department of Energy as an aid to consumers considering the purchase of a new vehicle. The Guide lists estimates of miles per gallon (mpg) for each

vehicle available for the new model year. These estimates are provided by the U.S. Environmental Protection Agency in compliance with Federal Law. By using this Guide, consumers can estimate the average yearly fuel cost for any vehicle. The Guide is intended to help consumers compare the fuel economy of similarly sized cars, light duty trucks and special

purpose vehicles. The vehicles listed have been divided into three classes of cars, three classes of light duty trucks, and three classes of special purpose vehicles.

Fuel Economy Guide

Every new automobile sold in the United States has a label showing its tested fuel economy. In addition, all fuel economy test results are published annually to encourage the production and purchase

of more fuel-efficient automobiles. Consumers are skeptical, however, because their on-road experience often falls far short of the tested mileage figures. *Fuel Economy Guide* We hope you'll find the Fuel Economy Guide easy to use! Fuel economy and annual fuel cost data are organized by vehicle class (see page 2 for a list of classes). Within each class, vehicles are listed

alphabetically by manufacturer and model. Vehicle models with different features, such as engine size or transmission type, are listed as different vehicles. Engine and transmission attributes are shown in the first column under the model name. *Fuel Economy Guide. 1993 - 3 Number* The Fuel Economy Guide is published by the U.S. Department of Energy as an

aid to consumers considering the purchase of a new vehicle. The Guide lists estimates of miles per gallon (mpg) for each vehicle available for the new model year.
