TOWNSEND MCMAHON

A CEO's Journey from Founder to Leader

Hesperides Press

"Paints a telling portrait of this most restless generation raised in a system that has provided them with unprecedented personal opportunities while denying them political ones. . . . A gifted observer."—Washington Post

"Informative and often humorous . . .

Presents a refreshing range of perspectives about being twenty-

something in China."—Forbes

"Masterfully crafted."—Los Angeles

Review of Books "A perceptive and

quietly profound book."—Booklist,

starred review "Compelling and

beautifully written."—Prospect China's

new youth are the generation that will

change China. Offspring of the one-child

policy, with no memory of Tiananmen,

they are destined to transform both their

nation and the world. Understanding

their motivations, dreams, and attitudes

is possibly the most important gauge of

China's future direction as it plays an

increasingly important role in shaping

this century. China's New Youth follows

the lives of six young Chinese as they

navigate their aspirations, discontents,

politics, and love lives. Their stories

include a netizen nationalist, a country

migrant, the daughter of a Party

member, a rising pop star, and a

feminist entrepreneur. With intimate

access to this diverse generation, Alec

Ash—a young writer based in China

since 2012—gives a vivid, immersive,

fascinating account of young China as it

comes of age. China's New Youth was

originally published in hardcover until

the title *Wish Lanterns: Young Lives in*

New China. The new paperback edition

has been updated with a new preface and afterword by the author and a new foreword by Karoline Kan.

The Tragedy of Empire Oxford University Press

A book that stormed both the bestseller list and the public imagination, a book

that created a genre of its own, and a

book that gets at the heart of Wall Street

and the '80s culture it helped define,

Barbarians at the Gate has emerged

twenty years after the tumultuous deal it

so brilliantly recounts as a modern

classic—a masterpiece of investigatory

journalism and a rollicking book of

corporate derring-do and financial

swordsmanship. The fight to control RJR

Nabisco during October and November

of 1988 was more than just the largest

takeover in Wall Street history. Marked

by brazen displays of ego not seen in

American business for decades, it

became the high point of a new gilded

age and its repercussions are still being

felt. The tale remains the ultimate story

of greed and glory—a story and a cast of

characters that determined the course of

global business and redefined how deals

would be done and fortunes made in the

decades to come. *Barbarians at the Gate*

is the gripping account of these two

frenzied months, of deal makers and

publicity flaks, of an old-line industrial

powerhouse (home of such familiar

products as Oreos and Camels) that

became the victim of the ruthless and

rapacious style of finance in the 1980s.

As reporters for *The Wall Street Journal*,

Burrough and Helyar had extensive

access to all the characters in this

drama. They take the reader behind the

scenes at strategy meetings and society

dinner, into boardrooms and bedrooms,

providing an unprecedentedly detailed

look at how financial operations at the

highest levels are conducted but also a

richly textured social history of wealth at the twilight of the Reagan era. At the center of the huge power struggle is RJR Nabisco's president, the high-living Ross Johnson. It's his secret plan to buy out the company that sets the frenzy in motion, attracting the country's leading takeover players: Henry Kravis, the legendary leveraged-buyout king whose entry into the fray sets off an acquisitive commotion; Peter Cohen, CEO of Shearson Lehman Hutton and Johnson's partner, who needs a victory to propel his company to an unchallenged leadership in the lucrative mergers and acquisitions field; the fiercely independent Ted Forstmann, motivated as much by honor as by his rage at the corruption he sees taking over the business he cherishes; Jim Maher and his ragtag team, struggling to regain credibility for the decimated ranks at First Boston; and an army of desperate bankers, lawyers, and accountants, all drawn inexorably to the greatest prize of their careers—and one of the greatest prizes in the history of American business. Written with the bravado of a novel and researched with the diligence of a sweeping cultural history, *Barbarians at the Gate* is present at the front line of every battle of the campaign. Here is the unforgettable story of that takeover in all its brutality. In a new afterword specially commissioned for the story's 20th anniversary, Burrough and Helyar return to visit the heroes and villains of this epic story, tracing the fallout of the deal, charting the subsequent success and failure of those involved, and addressing the incredible impact this story—and the book itself—made on the world.

The Battle for Stalingrad W. W. Norton & Company

WALL STREET JOURNAL BESTSELLER

From Michael Dell, renowned founder and chief executive of one of America's largest technology companies, the inside story of the battles that defined him as a leader. In 1984, soon-to-be college dropout Michael Dell hid signs of his fledgling PC business in the bathroom of his University of Texas dorm room. Almost 30 years later, at the pinnacle of his success as founder and leader of Dell Technologies, he found himself embroiled in a battle for his company's survival. What he'd do next could ensure its legacy—or destroy it completely. *Play Nice But Win* is a riveting account of the three battles waged for Dell Technologies: one to launch it, one to keep it, and one to transform it. For the first time, Dell reveals the highs and lows of the company's evolution amidst a rapidly changing industry—and his own, as he matured into the CEO it needed. With humor and humility, he recalls the mentors who showed him how to turn his passion into a business; the competitors who became friends, foes, or both; and the sharks that circled, looking for weakness. What emerges is the long-term vision underpinning his success: that technology is ultimately about people and their potential. More than an honest portrait of a leader at a crossroads, *Play Nice But Win* is a survival story proving that while anyone with technological insight and entrepreneurial zeal might build something great—it takes a leader to build something that lasts.

Waiting for the Barbarians Cambridge University Press

A modern classic by Nobel Laureate J.M. Coetzee. His latest novel, *The Schooldays of Jesus*, is now available from Viking. *Late Essays: 2006-2016* will be available January 2018. For decades the Magistrate has been a loyal servant

of the Empire, running the affairs of a tiny frontier settlement and ignoring the impending war with the barbarians. When interrogation experts arrive, however, he witnesses the Empire's cruel and unjust treatment of prisoners of war. Jolted into sympathy for their victims, he commits a quixotic act of rebellion that brands him an enemy of the state. J. M. Coetzee's prize-winning novel is a startling allegory of the war between oppressor and oppressed. The Magistrate is not simply a man living through a crisis of conscience in an obscure place in remote times; his situation is that of all men living in unbearable complicity with regimes that ignore justice and decency. Mark Rylance (Wolf Hall, Bridge of Spies), Ciro Guerra and producer Michael Fitzgerald are teaming up to bring J.M. Coetzee's *Waiting for the Barbarians* to the big screen.

Barbarians at the Gate The Fall of RJR Nabisco Harper Collins
Fawcett

The study of language attitudes is the investigation of beliefs expressed about the nature of language and its diverse usages, how these attitudes came to exist and persist, and how these attitudes shape social action and policy. Language attitude studies have illuminated our understanding of racial issues, social and economic stratification, cultural stereotypes, educational issues, folk linguistics, and, more recently, popular culture. This volume is an examination of four intersections in language attitudes research: Authority, Affiliation, Authenticity, and Accommodation. In each section, the contributors introduce new dimensions to the study of language

attitudes while providing examples of the ways in which the study of language attitudes can continue to inform and shape our understanding of language diversity.

From Constantine to the Destruction of Roman Italy Cambridge Scholars Publishing

Barbarians serving in the Roman army, like all other Roman soldiers, faced difficult choices as political events buffeted their leaders and threatened their livelihoods. Honorius, Stilicho, Alaric, Galla Placidia, Constantius III and usurpers like Constantine III and Attalus left their imprints upon these years - coloring the fabric of political and spiritual life as much as they affected military affairs.

How the Young Generation Is Shaping China's Future Library Juice Press, LLC
"Barbarians at the Gate" is the classic account of the defining takeover in Wall Street merger history. The authors' gripping record of the frenzy that overtook Wall Street, in fall of 1988, gives a richly textured social history of wealth at the twilight of the Reagan era.

Play Nice But Win Vintage Canada
A New York Times bestseller! "Lively and absorbing. . ." — The New York Times Book Review "Engrossing." —Wall Street Journal "Entertaining and well-researched . . ." —Houston Chronicle
Three noted Texan writers combine forces to tell the real story of the Alamo, dispelling the myths, exploring why they had their day for so long, and explaining why the ugly fight about its meaning is now coming to a head. Every nation needs its creation myth, and since Texas was a nation before it was a state, it's no surprise that its myths bite deep. There's no piece of history more important to Texans than the Battle of the Alamo, when Davy Crockett and a band of

rebels went down in a blaze of glory fighting for independence from Mexico, losing the battle but setting Texas up to win the war. However, that version of events, as *Forget the Alamo* definitively shows, owes more to fantasy than reality. Just as the site of the Alamo was left in ruins for decades, its story was forgotten and twisted over time, with the contributions of Tejanos--Texans of Mexican origin, who fought alongside the Anglo rebels--scrubbed from the record, and the origin of the conflict over Mexico's push to abolish slavery papered over. *Forget the Alamo* provocatively explains the true story of the battle against the backdrop of Texas's struggle for independence, then shows how the sausage of myth got made in the Jim Crow South of the late nineteenth and early twentieth century. As uncomfortable as it may be to hear for some, celebrating the Alamo has long had an echo of celebrating whiteness. In the past forty-some years, waves of revisionists have come at this topic, and at times have made real progress toward a more nuanced and inclusive story that doesn't alienate anyone. But we are not living in one of those times; the fight over the Alamo's meaning has become more pitched than ever in the past few years, even violent, as Texas's future begins to look more and more different from its past. It's the perfect time for a wise and generous-spirited book that shines the bright light of the truth into a place that's gotten awfully dark.

[Ancient Roman History, Barbarians at the Gate: Ghost Warrior](#) Cambridge University Press

Military historian Caleb Carr's groundbreaking work anticipated America's current debates on preemptive military action against terrorist sponsor states, reorganization

of the American intelligence system, and the treatment of terrorists as soldiers in supranational armies rather than as criminals. Carr's authoritative exploration demonstrates that the practice of terrorism, employed by national armies as well as extremists since the days of ancient Rome, is ultimately self-defeating. Far from prompting submission, it stiffens enemy resolve and never leads to long-lasting success. Controversial on its initial publication in 2002, *The Lessons of Terror* has been repeatedly validated by subsequent events. Carr's analysis of individual terrorist acts, and particularly of the history of the Middle East conflict, is fundamental to a deep understanding of the roots of terrorism as well as the steps and reforms that must be taken if the continuing threat of terrorist behavior is to be met effectively today and, finally, eradicated tomorrow.

[The Fall of RJR Nabisco](#) Barbarians at the Gate The Fall of RJR Nabisco

A #1 bestseller from coast to coast, *Den of Thieves* tells the full story of the insider-trading scandal that nearly destroyed Wall Street, the men who pulled it off, and the chase that finally brought them to justice. Pulitzer Prize-winner James B. Stewart shows for the first time how four of the eighties' biggest names on Wall Street—Michael Milken, Ivan Boesky, Martin Siegel, and Dennis Levine—created the greatest insider-trading ring in financial history and almost walked away with billions, until a team of downtrodden detectives triumphed over some of America's most expensive lawyers to bring this powerful quartet to justice. Based on secret grand jury transcripts, interviews, and actual trading records, and containing explosive new revelations about Michael Milken and Ivan Boesky written

especially for this paperback edition, *Den of Thieves* weaves all the facts into an unforgettable narrative—a portrait of human nature, big business, and crime of unparalleled proportions.

Barbarians Within the Gates of Rome

Penguin

Barbarians at the Gates of the Public Library is a philosophical and historical analysis of how the rise of consumerism has led to the decline of the original mission of public libraries to sustain and promote democracy through civic education. Through a reading of historical figures such as Plato, Helvetius, Rousseau, and John Stuart Mill, the book shows how democracy and even capitalism were originally believed to depend upon the moral and political education that public libraries (and other institutions of rational public discourse) could provide. But as capitalism developed in the 20th century it evolved into a postmodern consumerism that replaced democracy with consumerism and education with entertainment. Public libraries have mistakenly tried to remain relevant by shadowing the rise of consumerism, but have instead contributed to the rise of a new barbarism and the decline of democracy.

King of Capital Harper Collins

Barbarian at the Gate: From the American Suburbs to the Taiwanese Army is the unique account of a white American doing military service in the ROC (Republic of China) army. Locke fell in love with Taiwan during a year of language study and decided to make the island his home. Acquiring Taiwanese citizenship as a way to make life easier proved anything but. The bureaucratic nightmare found him trapped and stateless in Hong Kong for six long months, and after settling into life in Taiwan he received a surprise call-up for

military service. It was a daunting challenge for the perennial outsider, the softly-spoken introvert needing to conform to military life in a setting - where as the only westerner - he was the ultimate odd-man-out. After basic training at the country's toughest boot camp he served the rest of his two years' at a mountain base in Miaoli County. *Barbarian at the Gate* is a detailed and brutally honest insider's look at Taiwan's military, and also the personal story of the search for identity and the struggle to assimilate. Locke describes the nerve-wracking lottery system, the rigors of training, his assignments ranging from running a karaoke bar for officers to slaughtering diseased pigs, the camaraderie of the barracks, and how - unexpectedly - he developed a deeper sense of belonging and acceptance than he ever had before. The book is an intimate portrait of an important part of Taiwanese life that has never been written about in English before. Military service is for many Taiwanese males the most memorable experience of their lives, a difficult rite of passage into manhood that is remembered with dread and nostalgia, and so it proved for Locke.

The Fall of RJR Nabisco Penguin

In 1951, Israel was a young nation surrounded by hostile neighbors. Its tenuous grip on nationhood was made slipperier still by internal tensions among the various communities that had immigrated to the new Jewish state, particularly those between the politically and socially dominant Jewish leadership hailing from Eastern Europe and the more numerous Oriental Jews from the Middle East and North Africa. Into this volatile mix came Nissim Rejwan, a young Iraqi Jewish intellectual who was to become one of the country's leading

public intellectuals and authors. Beginning with Rejwan's arrival in 1951 and climaxing with the tensions preceding Israel's victory in the Six-Day War of 1967, this book colorfully chronicles Israel's internal and external struggles to become a nation, as well as the author's integration into a complex culture. Rejwan documents how the powerful East European leadership, acting as advocates of Western norms and ideals, failed to integrate Israel into the region and let the country take its place as a part of the Middle East. Rejwan's essays and occasional articles are an illuminating example of how minority groups use journalism to gain influence in a society. Finally, the letters and diary entries reproduced in *Outsider in the Promised Land* are full of lively, witty meditations on history, literature, philosophy, education, and art, as well as one man's personal struggle to find his place in a new nation.

Barbarism Revisited Open Road Media Using actual examples from history, this is a brilliant and irreverent piece of business writing. The strategies offered in this indispensable guide will help managers avoid the pitfalls of their predecessors, and help employees cope with all kinds of bosses.

Dialect and Nationalism in China, 1860-1960 Farrar, Straus and Giroux Michael Kulikowski traces two hundred years of Roman history during which the Empire became ungovernable and succumbed to turbulence and change. A sweeping political narrative, *The Tragedy of Empire* tells the story of the Western Roman Empire's downfall, even as the Eastern Empire remained politically strong and culturally vibrant. *Controversial Essays* University of Texas Press Originally published: New York, NY:

BasicBooks, c1992.

Barbarians at the Gate Hoover Press Originally published in the 1930s. An examination of the political powers in Europe and beyond. "This book was written before the conclusion of the treaty between Soviet Russia and Nazi Germany and before the outbreak of the war. Its general argument and conclusions seem to me to be confirmed by these events and I have therefore left the text exactly as it was written, even though in some sentences present tenses have now become past, Presidents, ex-Presidents, and probabilities certainties." Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. Hesperides Press are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork. Contents Include: *The World We Live In - Anatomy of Civilization - The Choice Before Us*

Barbarians at the Gates of the Public Library Random House Trade Paperbacks

Journey into the realm of VHS tapes and midnight showings where brawny barbarians rescue nubile virgins from evil wizards, giant snakes, and armies of the undead! Although originating in the era of the pulp magazines, sword and sorcery fiction enjoyed a cinematic boom in the 1980s; a decade that gave us *Conan the Barbarian* and *The Beastmaster* as well as more low-budget offerings like the Roger Corman-produced *Deathstalker* series and the Italian entries like *Conquest* and the *Ator* saga. Some of these movies are fondly remembered as cult classics today but many were released directly to VHS and lurked on the shelves of video rental

stores before vanishing into obscurity. While some have long since lost their lustre, there are plenty of diamonds in the rough to be found. This book takes a comprehensive look at over 40 sword and sorcery movies from the 1980s, from the towering titans to the bargain basement sleaze-fests, unearthing them

from their tombs and dusting them off so that they may shine once more.

The Bonfire of the Vanities Beard Books
Analyzes how fangyan (local Chinese languages or dialects) were central to the creation of modern Chinese nationalism.
