Presenting a thorough, comprehensive theory of spiritual capital based on solid academic research, 'Spiritual Capital' serves to reinforce and amplify the notion of a moral economic core that is beginning to feature in contemporary economic arguments. In this rare major work wholly dedicated to the subject of spiritual capital, Sam Rima explains the desperate need for revolutionary and transformational thinking in the area of economic policy and practice and makes the case for a new moral foundation to business and economics that directly addresses today's financial and business crisis. Writing in an accessible style, and drawing on

examples from several continents, Rima explains spiritual capital theory in terms of the resources needed for its creation, how it is formed, how it can be invested and what the return on investment can be. The book provides practical tools for measuring a personal or organizational store of spiritual capital, along with clear guidelines on how to engage in spiritual capital formation. These will benefit business leaders interested in developing viable and sustainable enterprises capable of avoiding the disconnection between economic policy and social reality. There are also recommendations here for policy makers regarding the macro application of spiritual capital theory. This important contribution to Gower's Transformation and Innovation Series will appeal to business leaders and policy makers, academicians and students in the fields of sociology, theology, and economics, and anyone interested in social and economic justice issues, social innovation, and corporate social responsibility.

There is no single Protestant spirituality but rather Protestant spiritual traditions usually embedded in denominational families that share some basic Protestant principles. These two volumes of Protestant Spiritual Traditions offer essays on twelve traditions written by scholars within those traditions plus a concluding essay that gathers a number of Protestant contributions to Christian spirituality and Western culture under the category of "the body." These thirteen essays discuss the contributions of significant spiritual figures from Martin Luther to Martin Luther King Jr. and offer insights on a range of topics from the theology of the cross to physical fitness.

Today, Christianity has become the most popular and fast-growing religion in Ghana. Paradoxically, the Christian Church, in whatever form it has taken, has, for a complexity of reasons, basically remained a weak church with a weak foundation. This book discusses, from a theologico-cultural anthropological perspective, some of the ecclesial and social processes and factors that, the author believes, are responsible for the creation

of this paradox in the case of the Ghanaian Catholic Church and demonstrates how they influence the search for a Catholic spiritual tradition in it.

Because "spirituality" is such a ubiquitous term today, any attempt to elucidate it more fully is only to be welcomed. Volume 23 in the LTPM series represents a significant contribution in this regard. Beginning with the apostle Paul, Declan Marmion shows how the meaning of the term "spirituality" changed over the centuries. He then offers a useful working definition of spirituality and explores the complicated relationship between spirituality, academic theology, and religious experience. In the main body of the book, Marmion focuses on the spiritual basis of Karl Rahner's theology. Exhibiting a comprehensive knowledge of the primary and secondary literature in this area, Marmion uses Rahner's notion of spirituality to treat such important themes as the nature of God, mystical experience, prayer, love of neighbor, and more. Every age needs figures of spiritual inspiration, but in times of recession and uncertainty they are essential in helping us to rise above despair and to search for God deep within ourselves. In this new book, Michael Ford invites four spiritual masters onto the same stage for the first time and shows how they speak, not only to our own times, but for all seasons. Thomas Merton, Henri Nouwen, Anthony de Mello and John O'Donohue all died suddenly at the height of their fame as spiritual masters, but they continue to have immense followings. What was their secret and why do their legacies endure? Through unpublished interviews with some of the authors themselves, encounters with their friends, and reflections from readers who have been inspired by their writings, Michael Ford journeys across the United States and Europe to assess their place in the world of contemporary spirituality. He goes behind the scenes of the Abbey of Gethsemani in Kentucky to hear first hand from monks who were novices under Merton; visits Lambeth Palace in London to discover Merton's influence on the Archbishop of Canterbury; talks to people about how Nouwen,

the proverbial wounded healer, helped them through depression because he had suffered himself; speaks to Jesuits who worked with de Mello in India and tries to find out how close the international storyteller came to Buddhism; and takes a walk with O'Donohue through landscapes in rural Ireland that feature in such books as *Anam Cara* and discusses the appeal of Celtic spirituality. Blending the spiritual with the journalistic, Michael Ford presents four unique writers as Spiritual Masters for All Seasons. +

How should we see the Spirit at work in spiritual leaders today?

How did the Spirit work through spiritual leaders in the Bible?

While many books on spiritual leadership look at the culture around us and offer sound advice from biblical principles, this study asks Scripture first what the Spirit did through spiritual leaders in the Bible in order to figure out what the Spirit should be doing through spiritual leaders today.

In recent years our knowledge of the individual parts of the Bible has increased greatly, but our understanding of how they fit together has not kept pace. In particular, the relationship between the Old and New Testaments has been a neglected field of study. The latest in IVP's developing family of New Dictionaries, the 'New Dictionary of Biblical Theology' is an essential tool for students, preachers and ministers, as well as for scholars and others seeking a better grasp of the Bible's teaching. The aim of this prestigious dictionary is to integrate the various biblical books

In *Freedom, Glorious Freedom*, acclaimed author John J. McNeill shows how lesbian and gay Christians can achieve full spiritual maturity and self-acceptance. McNeill discusses freedom of conscience and discernment of spirits, ancient teachings of the Christian church that have a special urgency for lesbian and gay people who need to free themselves from all the homophobic authorities and deal with God on a direct and personal basis. The liberating process of coming out of the closet is seen as a spirit-

filled effort to achieve the glory of God by becoming fully alive. McNeill offers a twelve-step spirituality as a spiritual process of liberation from all addictions in order to experience the love of God in its fullness. The epilogue expresses in detail a philosophical vision, looking both to the past and to the future, of how gay liberation fits into the Spirit-directed evolution of human history and its role in the ongoing struggle for human liberation. For more than thirty-five years, John J. McNeill, an ordained priest and psychotherapist, has been devoting his life to spreading the good news of God's love for lesbian and gay Christians.
