In this compulsive whodunnit, Elaine Dewar reads the science, follows the money, and connects the geopolitical interests to the spin. When the first TV newscast described a SARS-like flu affecting a distant Chinese metropolis, investigative journalist Elaine Dewar started asking questions: Was SARS-CoV-2 something that came from nature, as leading scientists insisted, or did it come from a lab, and what role might controversial experiments have played in its development? Why was Wuhan the pandemic's ground zero—and why, on the other side of the Atlantic, had two researchers been marched out of a lab in Winnipeg by the RCMP? Why were governments so slow to respond to the emerging pandemic, and why, now, is the government of China refusing to cooperate with the World Health Organization? And who, or what, is DRASTIC? Locked down in Toronto with the world at a standstill, Dewar pored over newspapers and magazines, preprints and peer-reviewed journals, email chains and blacked-out responses to access to information requests; she conducted Zoom interviews and called telephone numbers until someone answered as she hunted down the truth of the virus's origin. In this compulsive whodunnit, she reads the science, follows the money, connects the geopolitical interests to the spin—and shows how leading science

journals got it wrong, leaving it to interested citizens and junior scientists to pull out the truth.

#1 New York Times bestselling author Frederick Forsyth delivers an international thriller that takes readers into the darkest hearts of men and nations... In a remote corner of the impoverished African republic of Zangaro lies Crystal Mountain. At certain times of the day, the mountain itself seems to glow with a strange light. Only the ruthless and untouchable tycoon Sir James Manson knows why: the mountain contains billions of dollars worth of the world's most valuable mineral—platinum. And he wants it all. To do so, he must first remove the unfriendly government currently in power and replace it with a puppet regime. Towards this end, Manson hires the deadly Cat Shannon and his team of mercenaries to do the dirty work. But he didn't realize how bloody things were going to get. And when he betrays the mercenaries to a brutal fate, he doesn't realize how far Shannon is willing to go for revenge...

Oxford Revision Guides are highly effective for both individual revision and classroom summary work. The diagrammatic approach makes the key concepts and processes, and the links between them, easier to memorize. Comprehensive coverage Key topics are graphically presented on page spreads, making the books extremely easy to use. Additionally, this book features specification matching grids so that you can feel confident that your specification is covered. Saves revision time Your students will save valuable revision time by using these notes instead of condensing their own. In fact many students are choosing to buy their own copies so that they can colour code or highlight them as they might do with their own revision notes.

"English as a Legal Language is a lawyer's plain language guide to English legal terminology.

Anyone who finds it difficult to express legal terms in English simply looks under the general heading to find the relevant terms and their usage. This book can also be used to find explanations of words from a translating dictionary. Further, it is structured as a thesaurus, organized according

to topic with an alphabetical index. More and more, lawyers need the English language. But attempts to convert the language to meet one's own purpose often result in misconceptions. English legal language has its roots in the Anglo-American legal tradition and the non-native speaking lawyer may have difficulty understanding a word choice in English without also seeing how it fits into legal thinking and relates to other words in the subject area as a whole. "English as a Legal Language offers a comparative lexicon of US and UK legal systems, with references to European legal systems. Special features of this work include: - The vocabulary of an entire area of law in each section; - A verb section which provides guidance on substantives, adjectives, adverbs, phrases, usage, as well as sample sentences and clues about typical mistakes; and - An index which gives an alphabetical rendition of the typically ordered definitions - essential for words that have multiple definitions. All lawyers working in English, and especially continental European lawyers, will find this book indispensable in their practices. The book is also of prime interest to business people, accountants, translators, legal secretaries and students. It will enable all practitioners and academics to express complex ideas in English, to understand the intricacies of English as a legal language, and to avoid the potential mishaps, when language barriers prevent a true meeting of minds.

This essential handbook gives concise explanations of the myriad activities which encompasses shipping. The book covers documentation, types of ships and cargoes, organisations, freight charges and surcharges, contract forms and clauses, with all the relevant terms contained in logical sections, making it possible to see the terms in context. The second edition seeks to explain the history and progress of the European Commission's approach to competition in the liner and tramp trades. It also looks at security measures introduced since September 2001. By incorporating the book "Freight Charges", the book looks in particular at liner freight charges and surcharges in more depth.

Letter writing was widespread in the Graeco-Roman world, as indicated by the large number of surviving letters and their extensive coverage of all social categories. Despite a large amount of work that has been done on the topic of ancient epistolography, material and formatting conventions have remained underexplored, mainly due to the difficulty of accessing images of letters in the past. Thanks to the increasing availability of digital images and the appearance of more detailed and sophisticated editions, we are now in a position to study such aspects. This book examines the development of letter writing conventions from the archaic to Roman times, and is based on a wide corpus of letters that survive on their original material substrates. The bulk of the material is from Egypt, but the study takes account of comparative evidence from other regions of the Graeco-Roman world. Through analysis of developments in the use of letters, variations in formatting conventions, layout and authentication patterns according to the sociocultural background and communicational needs of writers, this book sheds light on changing trends in epistolary practice in Graeco-Roman society over a period of roughly eight hundred years. This book will appeal to scholars of Epistolography, Papyrology, Palaeography, Classics, Cultural History of the Graeco-Roman World.

Die Vorbereitungen laufen bereits viele Jahre, nun liegt er endlich vor: der Entwurf der Europäischen Kommission für ein Gemeinsames Europäisches Kaufrecht als Optionales Instrument. Beteiligte an den Vorarbeiten und wichtige Kritiker derselben setzen sich in diesem höchst empfehlenswerten Buch mit dem Kommissionsentwurf auseinander. Wie wird die Harmonisierung

des europäischen Vertragsrechts durch den Entwurf vorangetrieben? Wie "schlägt" sich der Entwurf im Vergleich zum BGB, zum DCFR oder zu den Acquis-Principles? Beleuchtet werden insbesondere Irrtumsanfechtung, AGB-Kontrolle, allgemeines und besonderes Leistungsstörungenrecht beim Kauf und bei verbundenen Dienstleistungen sowie übergreifende Fragestellungen zum Verbraucherrecht. Der Band wird abgerundet durch eine Synopse des Kommissionsentwurfs und der vorangegangenen Machbarkeitsstudie, in der die Entwicklung des Textes deutlich wird.

This book is a comparative study of the exclusion of illegally gathered evidence in the criminal trial, which includes 15 country studies, a chapter on the European Court of Human Rights, and a comparative synthetic conclusion. No other book has undertaken such a broad comparative study of exclusionary rules, which have now become a world-wide phenomenon. The topic is one of the most controversial in criminal procedure law, because it reveals a constant tension between the criminal court's duty to ascertain the truth, on the one hand, and its duty to uphold important constitutional rights on the other, most importantly, the privilege against self-incrimination and the right to privacy in one's home and one's private communications. The chapters were contributed by noted world experts on the subject for the XVIII Congress of the International Academy of Comparative Law in Washington in July 2010.

The writing of letters often evokes associations of a single author and a single addressee, who share in the exchange of intimate thoughts across distances of space and time. This model underwrites such iconic notions as the letter representing an 'image of the soul of the author' or constituting 'one half of a dialogue'. However justified this conception of letter-writing may be in particular instances, it tends to marginalize a range of issues that were central to epistolary communication in the ancient world and have yet to receive sustained and systematic investigation. In particular, it overlooks the fact that letters frequently presuppose and were designed to reinforce communities-or, indeed, to constitute them in the first place. This volume explores the interrelation of letters and communities in the ancient world, examining how epistolary communication aided in the construction and cultivation of group-identities and communities, whether social, political, religious, ethnic, or philosophical. A theoretically informed Introduction establishes the interface of epistolary discourse and group formation as a vital but hitherto neglected area of research, and is followed by thirteen case studies offering multi-disciplinary perspectives from four key cultural configurations: Greece, Rome, Judaism, and Christianity. The first part opens the volume with two chapters on the theory and practice of epistolary communication that focus on ancient epistolary theory and the unavoidable presence of

a letter-carrier who introduces a communal aspect into any correspondence, while the second comprises five chapters that explore configurations of power and epistolary communication in the Greek and Roman worlds, from the archaic period to the end of the Hellenistic age. Five chapters

on letters and communities in Ancient Judaism and Early Christianity follow in the third, part before the volume concludes with an envoi examining the trans-historical, or indeed timeless,

philosophical community Seneca the Younger construes in his Letters to Lucilius. [Encyclopedia of Forensic and Legal Medicine](#) Penguin
