 manuals!  
 Bentley  
 manuals are  
 the only  
 comprehensiv  
 e, single  
 source of  
 service

information and specifications available for BMW cars. These manuals provide the highest level of clarity and completeness for all service and repair procedures. Enthusiasts, do-it-yourselfers, and professional technicians will appreciate the quality of photographs and illustrations, theory of operation, and accurate step-by-step instructions. If you are looking for

better understanding of your BMW, look no further than Bentley. Even if you do not repair your own vehicle, knowledge of its internal workings will help you when discussing repairs and maintenance with your professional automotive technician. This Bentley Manual is the only comprehensive, single source of service information and specifications available specifically for

BMW 5 Series from 1997 to 2002. The aim throughout this manual has been simplicity, clarity and completeness, with practical explanations, step-by-step procedures and accurate specifications. Whether you are a professional or a do-it-yourself BMW owner, this manual will help you understand, care for and repair your E39 5 Series. Though the do-it-yourself BMW owner will find this manual

indispensable as a source of detailed maintenance and repair information, the BMW owner who has no intention of working on his or her car will find that reading and owning this manual will make it possible to discuss repairs more intelligently with a professional technician.

The Lab Workbook for Motorcycles: Fundamentals, Service, Repair is designed to be used with the Motorcycles: Fundamentals, Service, Repair textbook. It combines review activities and practical applications that relate to the content of the textbook chapters. Questions designed to reinforce the textbook

content help students review their understanding of the terms, concepts, theories, and procedures presented in each chapter. Hands-on lab activities provide an opportunity to apply and extend knowledge gained from the textbook chapters. The lab activities are designed to be completed in the motorcycle shop. These activities give the students hands-on experience performing a

variety of service and repair tasks.
