COLLINS ROMAN

National Identity and Social Order in Chile Random House
 This book analyzes the work of iconic Chilean author Alberto Blest Gana (1830–1920) through the lens of Machiavelli and Cervantes. Transatlantic in scope, it uses literary studies and cultural history to delve into Chile’s emergence as a nation and to illustrate a set of conflicts among the political parties and social classes in the early days of independence, the 1830s and 1850s. With a focus on Martín Rivas: Novela de costumbres politico-sociales [Martin Rivas: A Novel of Socio-Political Manners] (1862), El ideal de un calavera [The Ideal of a Rogue/Libertine] (1863), and Durante la Reconquista [During the Re-Conquest] (1897), this study examines the political and social exchanges and the place of social order in a critical period in Chile’s national development. Blest Gana’s three novels vividly depict the whys and hows of Chile’s early political struggles, dramatically underscoring the painfully real and very deep disagreements about the nation’s early direction and sense of identity, and showing how political and cultural antagonisms resulted from social hierarchies. For some, patria was synonymous with order itself; order needed to be established and maintained no matter how severe the measures. The book is informed by a desire to use early narrative expressions of Chile’s national identity to illuminate the political and cultural heritage of the twentieth century, especially the disruptions that occurred during the government and ultimate ousting of Salvador Allende Gossens (1908–1973), president of Chile from 1970 to 1973. In Blest Gana’s three texts, the enmities among Chileans reveal a fundamental and ongoing social, political and cultural disunity. This crack in the national foundation accounts in part for what erupted during the government of Allende, an idealist and a quixotic individual who believed in socialism via democracy and fought for equality in society. Betrayed from all sides, Allende was violently removed from power by a military junta led by Augusto Pinochet Ugarte (1915–2006), who ruled from 1973 to 1990. Under Pinochet’s dictatorship, books and print materials were scrutinized and censored in a way that was not unlike the period when Cervantes published the first and second parts of Don Quijote. Martín Rivas, however, continued to be read in schools, but mostly as a love story, with its political commentary effectively concealed.

 PAUL DANIELS 1938 - 2016 In his day, Paul Daniels was the most famous magician in the world. His feats of illusion earned him the highest honours the magic world could award, and his astonishing talent earned him a worldwide recognition and admiration that

will long outlive him. Behind the guise of the master magician, the consummate showman, lay a man of great intellect, wit and humour. But his dazzling career sometimes belied a private life that had more than its share of ups and downs “from his grim experiences in the army through to the pain and heartbreak of a broken marriage. In this, his only autobiography, he spoke for the first time about his incredible life and career. Although he was a master illusionist, there are no illusions here among the revelations of the happiness and sadness that filled his life. Among much else, the book speaks honestly about his relationship with his oldest son, and of the new life Paul made with Debbie McGee, his glamorous on-stage assistant. And then, of course, there was the magic. Whether he was making elephants disappear or performing card tricks with timeless professionalism, his repertoire was extraordinary. Perhaps surprisingly, his book reveals the secrets behind some of his most famous and entertaining performances “although he kept plenty up his sleeve, secrets that we shall now perhaps never know. Paul Daniels: My Magic Life, is a book to entertain readers, certainly. More than that, however, it will both move and intrigue them as it reveals the secret life of a much loved entertainer who was, in every sense, a magician to the end.

Seve is the most extrovert player Europe has ever produced. Playboy good looks along with a magnetism that attracted non-golfers to the game made him the biggest drawing card Europe has ever had. He emerged on the world scene with typical élan, hitting one of the most outrageous shots ever seen at the 1976 Open Championship. Three years later he became the youngest Open Champion of the modern era when he won the first of his five major championships. Ballesteros started Europe’s domination of the Majors throughout the 80s and 90s, paving the way for Nick Faldo, Bernhard Langer, Ian Woosnam, Sandy Lyle and Jose Maria Olazabal. His play in the Ryder Cup, fuelled by an intense dislike for Americans, helped restore Europe’s pride in the event. Driven by Basque pride and with a fiery Latin temperament, Seve has often let his heart rule his head. Seve is the remarkable story of one of the game’s most fascinating characters.

Super-wealthy Adam Wan had a plan. Armed with an almost undetectable microbial cocktail, he set about killing people to make the world a better place. The strategically chosen victims died from what appeared to be natural causes. It was all going well until a Canadian investigative journalist got wind of it. Barry Mackay was raised in Helensburgh, Scotland, studied microbiology then took to journalism back in Canada. Trained in

armed combat and under contract with the CIA, MI5 and the Canadian secret service, he earned a reputation for doggedly uncovering and righting injustice. Calling up his many resources, Mackay travels the globe homing in on Wan and his accomplices, determined to find the reasons for the targeted killings. In doing so, he comes face to face with the killers and his own morality.

 Winner of the New York Drama Critics Award for Best Musical, 1966 "To me the most interesting aspect of the success of Man of La Mancha is the fact that it plows squarely upstream against the prevailing current of philosophy in the theater. That current is best identified by its catch-labels--Theater of the Absurd, Black Comedy, the Theater of Cruelty--which is to say the theater of alienation, of moral anarchy and despair. To the practitioners of those philosophies Man of La Mancha must seem hopelessly naive in its espousal of illusion as man's strongest spiritual need, the most meaningful function of his imagination. But I've no unhappiness about that. "Facts are the enemy of truth," says Cervantes-Don Quixote. And that is precisely what I felt and meant."--Dale Wasserman, from the Preface.

 This Dictionary assembles 2,201 English proverbs and their Spanish equivalents. Equivalent proverbs are those which express the same concept literally, such as "Love is blind" = "El amor es ciego" or with completely different words, such as "Every cloud has a silver lining" = "No hay mal que por bien no venga." The Dictionary is a very useful reference tool for scholars of the two languages, for researchers working in various associated fields such as linguistics, literature, folklore, anthropology, psychology, sociology, history, and for workers in newer areas such as advertising and contemporary media. The Dictionary is also of interest to diplomats and politicians who try to improve their

communication by sharing ideas formulated in some common meaningful expressions; it will assist interpreters and translators, and teachers and students for whom it is important to understand not only what the target culture expresses in the same way as their own, but also what is formulated in a different way. The Dictionary is also of benefit to non-professionals who, for the sheer enjoyment of it, wish to savour the wisdom, wit, poetry and the colourful language of proverbs.

Archaeologists are increasingly recognizing the early Pueblo period as a major social and demographic transition in Southwest history. In *Crucible of Pueblos: The Early Pueblo Period in the Northern Southwest*, Richard Wilshusen, Gregson Schachner and James Allison present the first comprehensive summary of population growth and migration, the materialization of early villages, cultural diversity, relations of social power, and the emergence of early great houses during the early Pueblo period. Six chapters address these developments in the major regions of the northern Southwest and four synthetic chapters then examine early Pueblo material culture to explore social identity, power, and gender from a variety of perspectives. Taken as a whole, this thoughtfully edited volume compares the rise of villages during the early Pueblo period to similar processes in other parts of the Southwest and examines how the study of the early Pueblo period contributes to an anthropological understanding of Southwest history and early farming societies throughout the world.

Against the Elements is an enthralling account of football's most captivating underdog story. With a population of just 350,000, Iceland stunned the sporting world when it went toe-to-toe with the elite at Euro 2016 and the 2018 World Cup. So how was such a tiny nation, sited on the edge of the Arctic circle, able to take on the giants of world football? Matt McGinn draws on 50 exclusive interviews with the key protagonists to unpick how it happened. Does an Icelandic "e;Viking"e; mentality exist? Can smallness be an advantage? Is there a template for other countries to follow? McGinn experienced Iceland's World Cup campaign in different parts of the country—from five days spent on a fishing trawler, to Iceland's bustling capital of Reykjavík, to the jagged volcanic island of Heimaey. Part travelogue, part thematic investigation, *Against the Elements* searches for the truth behind the Iceland football team's remarkable, unprecedented rise, bringing to life the people, places and values of the nation that produced this astonishing team.

Celebrated as a visionary chronicler of spirituality, Teresa of Avila (1515-1582) suffered persecution by the Counter-Reformation clergy in Spain, who denounced her for her "diabolical illusions" and "dangerous propaganda." Confronting the historical irony of Teresa's transformation from a figure of questionable orthodoxy to a national saint, Alison Weber shows how this teacher and reformer used exceptional rhetorical skills to defend her ideas at a time when women were denied participation in theological discourse. In a close examination of Teresa's major writings, Weber correlates the stylistic techniques of humility, irony, obfuscation, and humor with social variables such as the marginalized status of pietistic groups and demonstrates how Teresa strategically adopted linguistic features associated with women—affectivity, spontaneity, colloquialism—in order to gain access to the realm of power associated with men.

Those Forest Men is a different kind of football book. It is a personal account of someone growing up in a house populated by football players, a sport which the author never really enjoyed. It is the story of a man who ignored his local team's rise from Division 2 obscurity to twice champions of Europe. It uses a variety of texts, authors and genres to produce some of the stories of the outstanding contributions that *Those Forest Men* have made to the history of Nottingham Forest Football Club. It is a book with Forest fans at its heart and a heart for Forest fans. They are the only fans in the world who once had every dream come true and then went back to living one long slow nightmare. Some of the Forest men written about here once became the greatest team in the world.

Seattle Sports: Play, Identity, and Pursuit in the Emerald City, edited by Terry Anne Scott, explores the vast and varied history of sports in this city where diversity and social progress are reflected in and reinforced by play. The work gathered here covers Seattle's professional sports culture as well as many of the city's lesser-known figures and sports milestones. Fresh, nuanced takes on the Seattle Mariners, Supersonics, and Seahawks are joined by essays on gay softball leagues, city court basketball, athletics in local Japanese American communities during the interwar years, ultimate, the fierce women of roller derby, and much more. Together, these essays create a vivid portrait of Seattle fans, who, in supporting their teams—often in rain, sometimes in the midst of seismic activity—check the country's implicit racial bias by rallying behind outspoken local sporting heroes.

The impetus for writing this book started with the death of my mother and the need to retain all the stories she had told me over the years. It follows the branches of two families, including a sausage manufacturer in the industrial north of England and a haberdasher in the heart of London in the south. It also contains

personal experiences of post-war Britain and beyond, and the eventual union of the families in mid-20th century Canada.

The definitive story of the rise of Borussia Dortmund Towards the beginning of the twenty-first century, Borussia Dortmund were on the verge of going out of business. Now they are an international phenomenon - one of the most popular clubs and fastest-growing football brands in the world. Every fortnight, an incredible number of foreigners eschew their own clubs and domestic leagues and travel to Dortmund to watch football, while people from all corners of the world dream of doing the same - of standing on the largest terrace in the world, the Yellow Wall. How did this happen? How could a club that hasn't won a European trophy in twenty years so thoroughly capture people's imaginations? Building the Yellow Wall tells the story of Dortmund's roller-coaster ride from humble beginnings and lean decades to the revolution under Jürgen Klopp and subsequent amazing success and popularity. But it also tells the story of those people who have done as much for the club's profile as any player, coach or chairman - Dortmund's unique supporters.

At the start of the twenty-first century, John Arne Riise was regarded as one of the most buccaneering left-sided players in European football. During an illustrious career in which he won a Champions League title with Liverpool, he became the finest player Norway has produced in a generation. Yet beneath the veneer of the famous and successful footballer, his ascent masked the huge challenges he had had to overcome on the way to the top: bullying, a broken home, uncertainty, loneliness. The result is an intriguing portrait of a complex man and a candid insight into the life of a modern footballer.

At the foot of the Argentine Andes, bulldozers are destroying forests and homes to create soy fields in an area already strewn with rubble from previous waves of destruction and violence. Based on ethnographic research in this region where the mountains give way to the Gran Chaco lowlands, Gastón R. Gordillo shows how geographic space is inseparable from the material, historical, and affective ruptures embodied in debris. His exploration of the significance of rubble encompasses lost cities, derelict train stations, overgrown Jesuit missions and Spanish forts, stranded steamships, mass graves, and razed forests. Examining the effects of these and other forms of debris on the people living on nearby ranches and farms, and in towns, Gordillo emphasizes that for the rural poor, the rubble left in the wake of capitalist and imperialist endeavors is not romanticized ruin but the material manifestation of the violence and dislocation that created it.
