Kidnapped from her home in Cairo, Egypt, Laila is placed on an auction block in Constantinople and sold to work as a handmaid to a wealthy man and his daughter. Unhappy as a maid and leery of the lustful advances of her owner, Laila dreams of returning to her home. Laila is sold to a Turkish harem where she catches the eye of the handsome yet arrogant palace heir, Kudar al Numan. As Laila fights to deny her feelings for Kudar, their relationship is threatened by the jealous rage of another woman. To keep the couple apart, Laila's nemesis hatches a plan to force her to make a choice...return to the family she loves or remain in her new life with her new love. Either choice may be seen as an act of betrayal. Which will she

choose? And does going back to relive the past mean there is no hope for the future?

Estimating Market Value and Establishing Market Rent at Small Airports Wentworth Press

The story of the company that was founded by the inventor of the snowmobile In 1942, Joseph-Armand Bombardier invented the snowmobile and founded his company to manufacture them. From its humble beginnings as an entrepreneurial company in rural Quebec, led by an enterprising inventor, Bombardier Inc. has emerged as a global leader in the transportation industry. This book tells the fascinating tale of this remarkably well managed company that has enjoyed spectacular growth in its chosen markets through strong leadership and management strategy, succession planning, strategic diversification, and turnaround and acquisition artistry. The fascinating story of the world's largest rail manufacturer for both railway and subway Reveals why Bombardier Inc. is a multi-faceted global company yet nobody knows their name Written by Larry MacDonald the author of Nortel Network The Bombardier Story shows how invention and entrepreneurship, management and leadership, smooth succession planning, and turnaround and acquisition built this global powerhouse.

I have physical scars from past surgeries, however, I have emotional scars as well. They were buried deep inside (hidden). It wasn't until my mother died was I able to "catch my breath" and to make sense of or process the emotional pain I had endured due to her prescription drug addiction, resulting in my own addictions.

TO SAVE THE HUMAN RACE FROM VIRAL GENOCIDE, THE LEADERS OF THE VAMPYRE CIVILIZATION COMMIT TO DRASTIC STEPS As the rival factions of Vampyres continue their long-standing war, an abrupt escalation in hostilities creates a paradigm shift in the war's dynamic, forcing its leadership to reconsider the focus of their battle. Kara, leader and most powerful among them, struggles with her own inner turmoil as she tries to deal with the latest casualties of her war. New threats begin to emerge in the form of an evolved and more active enemy, and the race is on to shut down the clock of the apocalypse before humankind is wiped from the face of the earth. Kara's council and the city's most powerful warriors scatter across the country with the hope of a final strike. After leaving his own brand of combat, one human is unknowingly brought into the unseen war by way of a budding and tumultuous relationship? unknowingly with one of the most powerful beings in existence. "Staff from smaller airports typically lack specialized expertise in the negotiation and development of airport property or the resources to hire consultants. ACRP Research Report 213 provides airport management, policymakers, and staff a resource for developing and leasing airport land and improvements, methodologies for determining market value and appropriate rents, and best practices for negotiating and re-evaluating current lease agreements. There are many factors that can go into the analysis, and this report reviews best practices in property development."--Foreword.

Several years ago when I began consulting full time, I quickly discovered that despite three advanced academic degrees my practical industrial experience had some significant gaps. It thus was necessary initially to spend considerable (nonbillable) time collecting and organizing a great deal of essential information on the various aspects of modern data communications. The task was made more difficult by the highly interdisciplinary nature of the field, with the required information scattered throughout the vast international literature of telecommunications, computers, electrical engineering, military systems, mathematics, operations research, optimization, speech processing, and the murky world of legal and regulatory policy. Although there were a number of fine books and periodicals in each of these specialized disciplines, I was unable to find a single comprehensive text that covered the entire field at even a modestly attractive technical and mathematical level. After going to the trouble of organizing all this diverse material for my clients and students, it seemed rather natural to put it into book form and thus share it with those professionals working with computer data communications who need a comprehensive coverage of the subject at a level immediately applicable to their work and yet easily accessible for self-study. The project was facilitated by an agreeable publisher and an incredibly understanding and cooperative family, and Practical Computer Data Communications is the result.
