Introduction to Environmental Impact Assessment: A ...development on the environment at the planning stage. Environmental impact assessment (EIA) assesses the impacts of planned activity on the environment in advance, thereby allowing avoidance measures to be taken: prevention is better than cure. Environmental impact assessment was first formally established in the USA in 1969. ItIntroduction to Environmental ImpactIntroduction Environmental Impact Assessment (EIA) is an important management

tool for ensuring optimal use of natural resources for sustainable development. A beginning in this direction was made in our country with the impact assessment of river valley projects in 1978-79 and the scope has subsequently been enhanced to cover other developmental sectors such as industries, thermal power projects, mining schemes etc. Environmental Impact Assessment (EIA) Environmental assessment is the process by which the consequences and effects of natural processes and human activities upon the environment are estimated, evaluated or predicted¹. Assessments can include within their scope ways to minimise, mitigate or eliminate those effects, and even to compensate for their impact^{1,2}.
