 Moral  
 Psychology:

Historical and  
 Contemporary  
 Readings is  
 the first book  
 to bring  
 together the  
 most  
 significant  
 contemporary  
 and historical  
 works on the  
 topic from  
 both  
 philosophy  
 and  
 psychology.  
 Provides a  
 comprehensiv  
 e introduction  
 to moral  
 psychology,  
 which is the

<p>study of psychological mechanisms and processes underlying ethics and morality Unique in bringing together contemporary texts by philosophers, psychologists and other cognitive scientists with foundational works from both philosophy and psychology Approaches moral psychology from an empirically informed perspective Explores a wide range of</p>	<p>topics from passion and altruism to virtue and responsibility Editorial introductions to each section explain the background of and connections between the selections <u>Readings in Moral, Social, and Political Philosophy</u> W. Norton Contemporary Moral Arguments Readings in Ethical Issues Oxford University Press, USA <u>Nicomachean Ethics</u> Oxford University Press, USA</p>	<p>What does pleasure have to do with morality? What role, if any, should intuition have in the formation of moral theory? If something is 'simulated', can it be immoral? This accessible and wide-ranging textbook explores these questions and many more. Key ideas in the fields of normative ethics, metaethics and applied ethics are explained rigorously and systematically, with a vivid writing style</p>
--	--	---

that enlivens the topics with energy and wit. Individual theories are discussed in detail in the first part of the book, before these positions are applied to a wide range of contemporary situations including business ethics, sexual ethics, and the acceptability of eating animals. A wealth of real-life examples, set out with depth and care, illuminate the complexities of different ethical

approaches while conveying their modern-day relevance. This concise and highly engaging resource is tailored to the Ethics components of AQA Philosophy and OCR Religious Studies, with a clear and practical layout that includes end-of-chapter summaries, key terms, and common mistakes to avoid. It should also be of practical use for those teaching Philosophy as

part of the International Baccalaureate . Ethics for A-Level is of particular value to students and teachers, but Fisher and Dimmock's precise and scholarly approach will appeal to anyone seeking a rigorous and lively introduction to the challenging subject of ethics. Tailored to the Ethics components of AQA Philosophy and OCR Religious Studies.

<p><b>Second Edition</b> The Experiment For courses in Ethics, Applied Ethics, Social and Political Ethics, and Ethics and Moral Issues. This comprehensive anthology includes classic and contemporary readings in moral theory and the most current applied ethics debates emphasizing international concerns. Includes court cases in philosophical readings, an ethical theory overview; shows</p>	<p>relevance of traditional and contemporary writers. <u>Moral Soundings</u> Cengage Learning #1 NEW YORK TIMES BESTSELLER • “The story of modern medicine and bioethics—and , indeed, race relations—is refracted beautifully, and movingly.”—Entertainment Weekly NOW A MAJOR MOTION PICTURE FROM HBO® STARRING OPRAH WINFREY AND ROSE BYRNE • ONE OF THE</p>	<p>“MOST INFLUENTIAL” (CNN), “DEFINING” (LITHUB), AND “BEST” (THE PHILADELPHIA INQUIRER) BOOKS OF THE DECADE • ONE OF ESSENCE’S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS • WINNER OF THE CHICAGO TRIBUNE HEARTLAND PRIZE FOR NONFICTION NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Entertainment Weekly • O:</p>

<p>The Oprah Magazine • NPR • Financial Times • New York • Independent (U.K.) • Times (U.K.) • Publishers Weekly • Library Journal • Kirkus Reviews • Booklist • Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken</p>	<p>without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important</p>	<p>advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research</p>
--	--	--

without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of

bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so

important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

A  
Contemporary Introduction  
W. W. Norton & Company  
The purpose of this text is to introduce

students to great philosophy and great philosophers through an intense focus on argument. Like other topically organized introductory philosophy readers, this book is organized around the existence of God, knowledge and skepticism, mind and body, free will and determinism, ethics, and contemporary ethical debates, including abortion,

euthanasia, and global hunger and poverty. 78 selections are grouped into six topical chapters-and the selections within those chapters are organized by argument. Vaughn's approach focuses students' attention on argumentation , where much of the philosophical work gets done. *The Ethical Life* Fordham Univ Press Morality and Moral Controversies provides students with

the tools to understand the philosophical ideas that are shaping our world today. This comprehensive anthology includes classic and contemporary readings in moral theory and the most current applied ethics debates emphasizing international concerns. Through analyzing these readings such as Supreme Court decisions, students will grasp the scope of

various philosophical discussions Supreme Court justices must have. Morality and Moral Controversies challenges readers to critically assess leading controversies in moral, social, and political philosophy. Upon completing this book, readers will be able to: Understand philosophical ideas that are shaping our world today. Confront conflicts faced when given the choice of

morality. Apply various philosophical ideas to politics, religion, economics, relationships, and medicine. Discuss basic philosophical arguments. **History of Ethics** A&C Black The Ethics of War is an indispensable collection of essays addressing issues both timely and age-old about the nature and ethics of war. Features essays by great thinkers from ancient times through to the present

day, among them Plato, Augustine, Aquinas, Machiavelli, Grotius, Kant, Russell, and Walzer Examines timely questions such as: When is recourse to arms morally justifiable? What moral constraints should apply to military conduct? How can a lasting peace be achieved? Will appeal to a broad range of readers interested in morality and ethics in war time Includes informative introductions

and helpful marginal notes by editors

Being Ethical: Classic and New Voices on Contemporary Issues John Wiley & Sons

Collection of original essays by leading researchers on current approaches to moral philosophy.

**A Text and Reader on Ethics and Contemporary Moral Issues**

Wadsworth Publishing Company

This anthology takes a broad approach to ethics, incorporating

traditional topics and texts while bringing in voices and themes that are too often excluded. A substantial section on ethical theory is provided, as are readings on topics such as oppression, sex, identity, the environment, life and death, war and terror, and caring for others.

Accessible introductions and discussion questions are included throughout to contextualize material for the student

reader without playing favorites among the positions at issue.

*Living Ethics*

Prentice Hall

Appropriate for Introduction to Ethics or Contemporary Moral Issues courses, this comprehensive and challenging ethics text combines ethical theories with contemporary social issues. Conflicts and debates internal to each issue are distinctly presented

**Resolving the**

<p><b>Dilemmas of Ethical Living</b> Princeton University Press Ethics introduces the issues and controversies of contemporary moral philosophy to undergraduate students who have already done an introductory course in philosophy. It will help students to think more clearly about how to form their moral beliefs in the wisest and most rational way. The basic</p>	<p>approaches to metaethics and normative ethics are related to specific issues, particularly those of racism, education, and abortion. Written in a clear and concise way by an experienced textbook author, Ethics will also be of interest to the general reader. Unique features of the textbook: * boxed key ideas * Glossary of philosophical terms * Chapter</p>	<p>summaries and study questions * Annotated further reading and Internet Web resources There is an associated website for teachers and students at <a href="http://www.routledge.com/routledge/philosophy/cip/ethics.htm">www.routledge.com/routledge/philosophy/cip/ethics.htm</a> <i>Readings in Moral, Social and Political Philosophy</i> John Wiley &amp; Sons Taking a unique approach that emphasizes careful reasoning, this cutting-edge reader is structured</p>

around twenty-seven landmark arguments that have provoked heated debates on current ethical issues.

Modern Moral Philosophy

Rowman & Littlefield Contemporary Moral Issues is an anthology that provides a selection of readings on contemporary social issues revolving around three general themes:

Matters of Life and Death, Matters of Equality and Diversity, and Expanding the

Circle, which includes duties beyond borders, living together with animals, and environmental ethics. The text contains a number of distinctive, high-profile readings and powerful narratives, including Jonathan Foer's "Eating Animals," Eva Feder Kittay's "On the Ethics of Selective Abortion for Disability," and Susan M. Wolf's "Confronting Assisted Suicide and Euthanasia: My Father's Death." Each

set of readings is accompanied by an extensive introduction, a bibliographical essay, pre-reading questions, and discussion questions.

Theory and Contemporary Issues OUP

USA  
Is there an objective moral standard that applies to all our actions?  
To what extent should I sacrifice my own interests for the sake of others? How might philosophers of the past help us think

<p>about contemporary ethical problems? As the most recent addition to the Blackwell Readings in Philosophy series, History of Ethics: Essential Readings with Commentary brings together rich and varied excerpts of canonical work and contemporary scholarship to span the history of Western moral philosophy in one volume. Editors Star and Crisp, noted scholars in their fields,</p>	<p>expertly introduce the readings to illuminate the main philosophical ideas and arguments in each selection, and connect them to broader themes. These detailed and incisive editorial commentaries make the primary source texts accessible to students while guiding them chronologically through the history of Western ethics. Structured around a thematic table of contents</p>	<p>divided into three distinct sections, History of Ethics charts patterns in the development of ethical thought across time to highlight connections between intellectual movements. Selections range from the work of well-known figures such as Plato, Aristotle, Nietzsche, and Mill to the work of philosophers often overlooked by such anthologies, including Butler, Smith,</p>
--	---	---

Sidgwick, Anscombe, Foot, and Frankena. Star and Crisp skillfully arrange the collection to connect readings to contemporary issues and interests by featuring examples such as Aquinas on self-defense and the doctrine of double effect, Kant on virtue, and Mill's *The Subjection of Women*. Written for students and scholars of ethics, *History of Ethics* is a comprehensive collection of readings with expert editorial commentary that curates the most important and influential work in the history of ethics in the Western world. *Moral Psychology* Cambridge University Press Highly controversial when it was first published in 1981, Alasdair MacIntyre's *After Virtue* has since established itself as a landmark work in contemporary moral philosophy. In this book, MacIntyre sought to address a crisis in moral language that he traced back to a European Enlightenment that had made the formulation of moral principles increasingly difficult. In the search for a way out of this impasse, MacIntyre returns to an earlier strand of ethical thinking, that of Aristotle, who emphasised the importance of

<p>'virtue' to the ethical life. More than thirty years after its original publication, <i>After Virtue</i> remains a work that is impossible to ignore for anyone interested in our understanding of ethics and morality today.</p> <p><i>How a Handful of Scientists Obscured the Truth on Issues from Tobacco Smoke to Global Warming</i> Bloomsbury Publishing USA From</p>	<p>respected philosopher and writer Jonathan Wolff, this brief introduction to ethics stimulates independent thought, emphasizes real-world examples, and provides clear and engaging introductions to key moral theories and the thinkers behind them. The new Second Edition offers expanded coverage of moral reasoning, as well as two thoughtful and contemporary new chapters</p>	<p>on applying moral philosophy and the ethics of race. A companion primary source collection, <i>Readings in Moral Philosophy</i>, amplifies issues discussed in the text, connecting them to problems in applied ethics. <u><i>An Enquiry Concerning the Principles of Morals</i></u> John Wiley &amp; Sons Documents the troubling influence of a small group of scientists who the author contends</p>
---	---	--

misrepresent scientific facts to advance key political and economic agendas, revealing the interests behind their detractions on findings about acid rain, DDT, and other hazards. Nicomachean Ethics Courier Corporation Closely examine the major areas of ethical theory as well as a broad range of contemporary moral debates using MacKinnon's acclaimed ETHICS: THEORY AND CONTEMPORARY ISSUES, International Edition. Illuminating overviews and a selection of readings from both traditional and contemporary sources make even complex philosophical concepts reader friendly. Comprehensive, clear-sighted introductions to general and specific areas of ethical debate cover major ethical theories, including feminist ethics, contract theory, and ethical relativism, before delving into issues ranging from euthanasia and sexual morality to war and globalization. A broader range of voices and philosophical traditions in this edition includes continental and non-Western philosophers, with new readings from prominent ethicists. Increased coverage of contemporary dilemmas highlights issues of widespread interest, including

torture and terrorism, "partial birth" abortion, cloning, same-sex marriage, and global distributive justice. An innovative online resource center offers, among other things, animated simulations. These simulations allow you to personally engage with dilemmas and

thought experiments commonly presented in introduction to ethics classes and provide instructors with a way to seamlessly integrate online assignments into the class. **Readings in Ethical Issues** Routledge "Nicomachean Ethics" is considered as one of the greatest work

by Aristotle. In this book he argues that virtue is more significant for human beings than pride, pleasure and happiness. According to him virtue can be described in two ways, moral virtue and intellectual virtue. A balanced combination of both is the key to an ideal life. Thought-provoking!
