In Psalm 49 and the Path to Redemption, Janet Smith revisits her PhD dissertation, *Dust or Dew: Immortality in the Ancient Near East* and in Psalm 49, reconfiguring the book for a general audience and expanding it to focus on a theme of biblical redemption. The new work takes the reader through the development of Israel's belief in an afterlife, both the positive hope but also the negative fate of those who are spiritually impoverished. Beyond that, Psalm 49 takes the reader into the mind and heart of the sages and priests who wrote many of the psalms. There we find how much we share with them emotionally and spiritually. Since Christianity is a movement with roots in the Old Testament, the reader is introduced to some important redemption concepts as expressed by Jesus Christ. Finally, the book reviews a few modern near-death experiences to ask if the Scriptures regarding afterlife have relevance today. This book is thought provoking and should cause anyone reading it to think about their own personal path to redemption.

George Orwell's *Nineteen Eighty-Four* is unquestionably the most famous dystopian novel of all times. Written in the year of 1948, the author swapped the last two digits while describing a future totalitarian society where the minds, attitudes and actions of the subjects are thoroughly scrutinized by the "Thought Police", suspected dissidents tracked down and where the worship of the mythical party leader Big Brother is forced upon the masses. The low-ranking party member Winston Smith begins secretly to question the whole system and initiates a forbidden love affair with another party member.

This book on the first chapters of Genesis is not concerning the literal creation of the universe. There is more than an ample supply of commentaries on how God created the earth and the heavens. Genesis is the book of beginnings. The first chapter of Genesis is about the mystical creation of the Body of Christ. In what way was Jesus the Beginning of the creation of God? Enjoy the study.

Ancient cultures, such as that of the Hebrews, commonly associated wisdom with advanced years. In *A Biblical Theology of Gerassapience*, the author investigates the validity of this correlation through an eclectic approach---including linguistic semantic, tradition-historical, and socio-anthropological methods---to pertinent biblical and extra-biblical texts. There are significant variations in the estimation of gerassapience (or "old-age wisdom") in each period of ancient Israel's life---that is, in pre-monarchical, monarchical, and post-monarchical Israel. Throughout this study, appropriate cross-cultural parallels are drawn from the cultures of ancient Israel's neighbors and of modern societies, such as the West African Yoruba tribe The overall results are bi-dimensional. On the one hand, there are semantic elements of gerassapience, such as the elusiveness of "wisdom" and the mild fluidity of "old age." Both terms have strong contextual affinity with minimal exceptions. Thus, the attribution of wisdom to old age is evident but not absolute in the Hebrew Bible (Old Testament). On the other hand, gerassapience is depicted as primarily didactic, through direct and indirect instructions and counsels of the elderly, fostering the saging fear-of-Yahweh legacies. On the whole, socio-anthropocentric tendencies of gerassapience (that is, of making old age a repertoire of wisdom) are checked by theological warrants of theosapience (Yahwistic wisdom). Therefore, in the Hebrew Bible, the fear of Yahweh is also the beginning of growing old and wise. "Joel A. A. Ajayi has done us all a great service by bringing together the Old Testament understanding of wisdom and the Old Testament understanding of old age. He treats this Old Testament thematic pair with linguistic, tradition-historical and socio-anthropological approaches in three historical periods: pre-monarchy,

monarchy, and post-monarchy. With this approach, he is able to articulate the diversity of Old Testament views of the wisdom of old age. In a society already grappling with issues tied to aging, this probing biblical study will richly repay its readers." W. H. Bellinger Jr., Chair, Department of Religion, and W. Marshall and Lulie Craig Professor of Bible, Baylor University, Waco, Texas

The books of Obadiah and Jonah can be read in just ten minutes. Yet these two books, written nearly three thousand years ago by two very different Hebrew prophets, address attitudes and actions that we struggle with even today. The valuable lessons the ancient writers have for people of the twenty-first century truly make them prophets for our time. Prophets for Our Time strikes a balance between scholarly study and practical exposition to bring these two prophetic books alive for modern readers. The result is a practical, readable book that clearly explains the meaning of the biblical text. Maps, charts, and suggestions for personal application and further study enhance the value of the book, making it a very useful tool for personal and group study.

Introduction to the Prophets is a guide to reading the prophetic books of the Christian canon, discussing the Major and Minor Prophets in their canonical order. Paul Redditt assumes little or no prior knowledge of the prophets on the part of the reader. For example, when he introduces technical terms, he takes care to define them and includes a glossary for complete reference. Each chapter discusses: the place of each book in the canon; the literary setting of each book; their structure, integrity, and authorship; the main genre(s) in each; special features of each book; basic

emphasis of each book; and problems--theological, literary, or historical--raised. Redditt eschews review questions at the end of the chapters, instead offering questions for further reflection. Introduction to the Prophets also includes three chapters discussing the nature of prophecy, methods developed by scholars to use in studying the Bible, the rise of the "Book of Twelve," and the approach taken to them here. --From publisher's description.

The future is now. Just as global Christianity is shifting away from the West to the South and the East, so too is the North American church diversifying in terms of race, ethnicity and culture. While some parts of American Christianity are in decline, others are experiencing transformation and growth as a result of increasing globalization. Spiritual renewal is happening in corners and margins not always noticed by those in the center. Soong-Chan Rah calls the North American church to escape its captivity to Western cultural trappings and to embrace a new evangelicalism that is diverse and multiethnic. While many white churches find themselves ill-equipped to minister to today's cultural context, many immigrant and multiethnic churches are flourishing, offering much-needed alternatives for the church as a whole. The church is changing to embody the cultural realities of the twenty-first century. Come, discover the vitality of the next evangelicalism.

For the identification of a flowering plant the first step usually is to discover to which family it belongs. With some experience, the families commonly encountered in one's area of interest are soon known, but when dealing with specimens from other places, notably those from the vast and rich subtropics and tropics, there is much less certainty. The pertinent literature is often not readily available as it is often found only in expensive, rare or obscure books, or journals, present only in a few specialized institutes. Basically only a few keys to the families of flowering plants of the world have ever been produced, the best known of which at present is Hutchinson's Key to the families of flowering plants (1973); less well-known are Lemee's Tableau analytique des genres monocotyledones (1941) (incl. Gymnosperms) and his Tableau analytique des genres dicotyledones (1943), and Hansen and Rahn's Determination of Angiosperm families by means of a punched-card system (Dansk Bot. Ark. 26, 1969, with additions and corrections in Bot. Tidsskr. 67, 1972, 152-153, and Ibid. 74 1979, 177-178). Of note also are Davies and Cullen's The identification of flowering plant families, 2nd ed. (1979), which, however, deals only with the families native or cultivated in North Temperate regions, and Joly's Chaves de identifi~io das familias de plantas vasculares que ocorrem no Brasil, 3rd ed. (1977), which may be useful in other tropical areas too.

Days? or Ages? offers a fresh look at a centuries-old debate. Does the Bible say creation was accomplished within one week of time beginning a few thousand years ago, or over countless millennia beginning millions or even billions of years in the distant past? Opinions abound from biblical scholars, scientists and laypeople alike, and achieving a clear perspective can be difficult at best. This work summarizes a thorough examination of Genesis 1, including relevant passages from

other parts of the Bible, all in plain, straightforward language. Rather than begin with assumptions, as so many opinions do, and from there select and interpret scriptures in such a way as to support a given view; this work instead first provides a detailed examination of what Scripture itself appears to reveal all Scripture that bears on the issue and then examines what one might reasonably conclude. Although written by a layman, it draws from a wealth of scholarly works by some of the world's leading theologians and other learned professionals. Whatever one's opinion might be, this thesis will be informative reading and a significant resource to help clear away some of the clouds of mystery surrounding one of the Bible's most challenging subjects.
