This books provides content that arms clinicians with the core knowledge and competencies necessary to be effective informatics leaders in health care organizations. The content is drawn from the areas recognized by the American Council on Graduate Medical Education (ACGME) as necessary to prepare physicians to become Board Certified in Clinical Informatics. Clinical informaticians transform health care by analyzing, designing, selecting, implementing, managing, and evaluating

information and communication technologies (ICT) that enhance individual and population health outcomes, improve patient care processes, and strengthen the clinician-patient relationship. As the specialty grows, the content in this book covers areas useful to nurses, pharmacists, and information science graduate students in clinical/health informatics programs. These core competencies for clinical informatics are needed by all those who lead and manage ICT in health organizations, and there are likely to be future professional certifications that require the content in this text.

Essential resources for training and HR professionals Kenneth H. Silber and Lynn Kearny *Organizational Intelligence A Guide to Understanding the business of your organization for HR, Training, and Performance Consulting* *Organizational Intelligence To succeed, those who practice as training, HPT, ID, OD, HR, or IT professionals must understand the "language of business," and the key business issues and measures of the organizations we work for. Organizational Intelligence shows how to use the proven Business Logics Model to gather and synthesize the information needed to understand organizations, and how to align our work to key business issues, explain it in appropriate language, and measure it in a meaningful way. "Kearny and Silber have taken the complex interrelated aspects of a business and broken them into components and key questions that can help anyone understand the essence of that business."* —Julie O'Mara, past president, American Society for Training and Development "This book should be in your professional library. It provides models to understand how organizations work, and gives you tools to

increase your business acumen and think like the CEO. It's your doorway to a seat at the table." —Dr. Roger M. Addison, CPT; past director, International Society for Performance Improvement, and past president, International Federation of Training and Development Organisations Ltd. "Nobody can touch Ken Silber and Lynn Kearny for their clarity of thought and their ability to communicate. Organizational Intelligence provides the most useful, simple, and comprehensive approach to understanding your clients. Whether you are a newcomer or an old-timer, buy, borrow, or steal a copy. The job aids alone are worth the price." —Thiagi (Dr. Sivasailam Thiagarajan), two-time ISPI president, Gilbert Award-winning performance improvement guru "Organizational Intelligence is the cornerstone text for the HPT field we've been wanting for so long. It provides the organizational context for the work we do in a way that is understandable and useful. Both our new students and expert professors love it." —Jamie D. Aktivitas kehumasan adalah aktivitas yang sudah muncul sejak diciptakannya manusia dan tidak bisa dilepaskan selama manusia itu berupaya memenuhi kebutuhannya. Aktivitas kehumasan ini pun makin berkembang seiring dan sama tuanya dengan perkembangan peradaban manusia. "public relations is as old as a civilization" (Newsom, Scott, & Turk, 2007). Mengapa disebut demikian? Karena prinsip-prinsip dasar humas otomatis dilakukan dan sangat diperlukan oleh manusia dalam memenuhi

kebutuhan hidup. Pemenuhan kebutuhan hidup pasti membutuhkan orang lain, dan karenanya terkait dengan prinsip-prinsip aktivitas membangun relasi. Prinsip-prinsip dasar humas adalah tiga prinsip membangun relasi, yakni telling the truth (tidak berbohong), building trust (membangun kepercayaan), dan pada akhirnya bisa persuasi, yakni memengaruhi orang lain. Contoh: manusia butuh makan, butuh mencari pendamping hidup, butuh pakaian, dan kebutuhan hidup lain. Semuanya itu membutuhkan tiga prinsip membangun relasi/upaya kehumasan. This book revisits the early systemic formation of meditation practices called 'yoga' in South Asia by employing metaphor theory. Karen O'Brien-Kop also develops an alternative way of analysing the reception history of yoga that aims to decentre the Eurocentric and imperialist enterprises of the nineteenth-century to reframe the cultural period of the 1st - 5th centuries CE using categorical markers from South Asian intellectual history.

Buddhist traditions were just as concerned as Hindu traditions with meditative disciplines of yoga. By exploring the intertextuality of the Patanjalyogasastra with texts such as Vasubandhu's Abhidharmakosabhasya and Asanga's Yogacarabhumisastra, this book highlights and clarifies many ideologically Buddhist concepts and practices in Patanjala yoga. Karen O'Brien-Kop demonstrates that 'classical yoga' was co-constructed systemically by both Hindu and Buddhist thinkers who were drawing on the same conceptual metaphors of the period. This analysis demystifies early yoga-meditation as a timeless 'classical' practice and locates it in a specific material context of agrarian and urban economies.

How many IT books have you read that are long on theory and short on practical application? They are interesting, but not very impactful. They provide a framework from which to think and

understand, but lack a process from which to act. Addressing this urgent need for the IT community, The Lean IT Field Guide explains how to initiate, execute, and sustain a lean IT transformation. Illuminating a clear path to lean IT, the authors integrate more than two decades of combined experience to provide you with a proven method for creating and sustaining a true lean IT workplace. This field guide not only highlights the organizational techniques of more agile and lean processes, but also the leadership work required to help management adopt these new approaches. Based on proven methods from different industries, including banking, manufacturing, insurance, food and beverage, and logistics, the book details a clear model that covers all the components you need to achieve and sustain a favorable work environment and culture in support of lean IT. Filled with anecdotes and case studies from actual businesses, the book includes pictures, templates, and examples that illustrate the application of the lean methods discussed.

After arrival at New Delhi airport, our local tour guide from Palace on Wheels (POW), Tariq welcomed us with Marigold garlands (Indian way of greeting & welcoming special guests). He took care of all our bags & we started to our hotel, Radisson Blue in a Toyota Innova car. Even the car covered with nice red carpets. We were very impressed with the hotel, very new, nicely decorated, rooms & amenities are as good as any 5 Star hotels here. The inside courtyard with nice water featured, capsule lifts going up & down, beautiful. We were attended by concierge with nice cool drinks, wine etc. When we entered our room, our reaction was "WOW", then we were bit confused about the transparent glass wall between the bedroom & bathroom. After flicking away few switches, we discovered blinds, whhheeeew!!!!
