Coretta Scott King Award-winning author Angela Johnson writes a poignant young adult novel of deception, self-discovery, and knowing what to do when truth is at hand. You never know what's gonna come down—in Heaven. At fourteen, Marley knows she has Momma's hands and Pops's love for ice cream, that her brother doesn't get on her nerves too much, and that Uncle Jack is a big mystery. But Marley doesn't know all she thinks she does, because she doesn't know the truth. And when the truth comes down with the rain one stormy summer afternoon, it changes everything. It turns Momma and Pops into liars. It makes her brother a stranger and Uncle Jack an even bigger mystery. All of a sudden, Marley doesn't know who she is anymore and can only turn to the family she no longer trusts to find out. Truth often brings change. Sometimes that change is for the good. Sometimes it isn't.

The heartwarming and unforgettable story of a family and the wondrously neurotic dog who taught them what really matters in life. Now with photos and new material. Is it possible for humans to discover the key to happiness through a bigger-than-life, bad-boy dog? Just ask the Grogans. John and Jenny were just beginning their life together. They were young and in love, with not a care in the world. Then they brought home Marley, a wiggly yellow furball of a puppy. Life would never be the same. Marley grew into a barreling, ninety-seven-pound streamroller of a Labrador retriever. He crashed through screen doors, gouged through drywall, and stole women's undergarments. Obedience school did no good -- Marley was expelled. But just as Marley joyfully refused any limits on his behavior, his love and loyalty were boundless, too. Marley remained a model of devotion, even when his family was at its wit's end. Unconditional love, they would learn, comes in many forms. *Marley & Me* is John Grogan's funny, unforgettable tribute to this wonderful, wildly neurotic Lab and the meaning he brought to their lives.

This book describes the new generation of discrete choice methods, focusing on the many advances that are made possible by simulation. Researchers use these statistical methods to examine the choices that consumers, households, firms, and other agents make. Each of the major models is covered: logit, generalized extreme value, or GEV (including nested and cross-nested logits), probit, and mixed logit, plus a variety of specifications that build on these basics. Simulation-assisted estimation procedures are investigated and compared, including maximum simulated likelihood, method of simulated moments, and method of simulated scores. Procedures for drawing from densities are described, including variance reduction techniques such as antithetics and Halton draws. Recent advances in Bayesian procedures are explored, including the use of the Metropolis-Hastings algorithm and its variant Gibbs sampling. The second edition adds chapters on endogeneity and expectation-maximization (EM) algorithms. No other book incorporates all these fields, which have arisen in the past 25 years. The procedures are applicable in many fields, including energy, transportation, environmental studies, health, labor, and marketing.

Marley & Me John Wiley & Sons

Meet the Grogans Before there was Marley, there was a gleefully mischievous boy navigating his way through the seismic social upheaval of the 1960s. On the one side were his loving but comically traditional parents, whose expectations were clear. On the other were his neighborhood pals and all the misdeeds that followed. The more young John tried to straddle these two worlds, the more spectacularly, and hilariously, he failed. Told with Grogan's trademark humor and affection, The Longest Trip Home is the story of one son's journey into adulthood to claim his place in the world. It is a story of faith and reconciliation, breaking away and finding the way home again, and learning in the end that a family's love will triumph over its differences.
