A stunning new translation of the classic tale of the fall of Troy from one of the world's finest translators. If you enjoyed THE SONG OF ACHILLES, discover the original and the best... Man seduces another's wife then kidnaps her. The husband and his brother get a gang together to steal her back and take revenge. The woman regrets being seduced and wants to escape, whilst the man's entourage resent the position they have been placed in. Yet the battle lines have been drawn and there is no going back... Not the plot of the latest Hollywood thriller, but the basis of the ILIAD - the Greek classic that details the war between the Greeks and the Trojans after the kidnapping of Helen of Sparta. Based on the recent, superb, M.L. West edition of the Greek, this ILIAD is more readable and moving than any previous version. Thanks to the scholarship and poetic power of the highly acclaimed Stephen Mitchell, this new translation recreates the energy and simplicity, the speed, grace, and continual thrust and pull of the original, while the ILIAD's ancient story bursts vividly into life. This edition also includes book 10 as an appendix, making it indispensable for students and lay readers alike.

A defining moment in James Law's architectural career occurred in 2000 when he was invited to design of both architecture and technology of the Dickson Cyber Express Shopping Mall - the world's first "Bricks and Clicks" retail complex in Hong Kong. This led to James coining the term "Cybertecture," to symbolize a new kind of design which merges technology and architecture as a

future design that brings people "Live The Future." With growing reputation, James became an active advocate in the issues of future technology and design. As a dual design concept, Cybertecture is a broadspectrum design philosophy that can be applied to an infinite number of different types of projects and scenarios. The ultimate goal is to create a better world, where endeavours, processes and events take place in spaces that introduce people to a new level of comprehension and wisdom.

This reprinting of Korine's first novel presents fragments of a portrait in multimedia: print, photographs, drawings, news clippings, handwriting, a poem, attempted diagrams, clip art; but mostly text, including hard-luck stories, off-and-on-colour jokes, script-scrap, found letters, free rhymes, drug flashbacks and other scenes, exploring the world of show-biz with feet set lightly in the black humours of the real ol' world. This excretion of the danglers of public life would make William Burroughs sigh and turn the page, at least.
