 Kent's repertory is one of the most acceptable repertories amongst the homoeopathic fraternity . Kent's comparative repertory is a helping hand for the physicians and students alike to overcome the problem of understanding the exact meaning of each rubric and to differentiate amongst the closely related ones such as 'abandon and Forsaken' also the book is a guide for the selection of 'The correct remedy' as it details the differentiating features of each of the third grade remedy under the given rubric. This facilitates the physician at the clinical level. The book well elucidates the most important section of the Kent's repertory which is the Mind section.
