Fender Amp Field GuideFor amps with  
Fender style "High and Low" input jacks  
the Low jack not only cuts the guitar  
signal in half (-6dB) but it also offers up  
a very different input impedance (136k  
Low vs 1M High) which can interact with  
the guitar pickup coils to color the tone.  
Humbucker and hot pickups often sound  
better in the Low jack.Amp Voicing - Rob
