This work, by the greatest living authority on medieval palaeography, offers the most comprehensive and up-to-date account in any language of the history of Latin script. It also contains a detailed account of the role of the book in cultural history from antiquity to the Renaissance, which outlines the history of book illumination. Designed as a textbook, it contains a full and updated bibliography. Because the volume sets the development of Latin script in its cultural context, it also provides an unrivalled introduction to the nature of medieval Latin culture. It will be used extensively in the teaching of latin palaeography, and is unlikely to be superseded.

The Magic of Wisdom Walter de Gruyter

Dr. Brown is a practicing ophthalmologist, a revert to Islam and the author of several ground-breaking books of Islamic Dawa (i.e. invitation). his first book, "The First and Final Commandment" is a comprehensive argument in support of the Islamic claim of continuity of revelation. This present book, "Bearing True Witness" is designed to assist the new converts in navigating the more controversial issues of their new chosen religion of Islam. Inspired, assisted and approved by Shaykh Abu Ammaar Yasir Qadhi.

The Truth of the Cross John Wiley & Sons

This title was first published in 2000: The focus of this analysis is that of moral standards in public service, with special attention to the role(s) of officials. It presents discussion of some of the issues that seem to the contributors to be of pressing importance and that seem to have relevance for public service in the new millennium. It concentrates in particular on public officials, and the constraints imposed on them by the political environment in liberal democracies.

"We live in an era where the university system is undergoing great changes owing to developments in financing policies and research priorities, as well as changes in the society in which this system is embedded. This change toward a more market-oriented university, which also has immediate effects in academic peripheries such as the Balkans, the Middle East, or South-East Asia, is of great influence for the pedagogical practice of "less profitable" academic areas such as the Humanities: philosophy, languages, sociology, anthropology, history. Because of the absence of a historically grounded establishment of the Humanities, academic peripheries, usually accompanied by a weak civil society infrastructure, seem to offer the most fertile ground for rethinking the Humanities, their pedagogical practice, and their politics, as well as the greatest threats, such as the ongoing capitalization of research, and profitability as the norm of educational achievement. The sprawling presence of for-profit universities and in academic peripheries such as Albania and Kosovo is indicative of this problematic, as are consistent underfunding of universities and the relentless budget cuts in American and English, and to a lesser extent European, universities. Motivations for this ongoing attack on the university are often driven by a political system or a politics with an aggressive stance to critical thought."

Any healthcare professional with, or developing an interest in, clinical nutrition will be able to use this textbook, first published in 2001, as a source of information for the formation of a clinical nutrition support service of excellence. The first three parts of the book will enable a clear perspective of the metabolism and physiology of clinical nutrition to be related to the practical application of support techniques. The fourth part of the book highlights the role of nutrition support in specific disease groups. A number of additional chapters have been added for this second edition, and modifications made to the content of chapters from the first edition to cover newer areas or areas of omission.

This book considers local autonomy, measured as a multidimensional concept, from a cross-country comparative perspective, and examines how variations can be explained and what their consequences are. It fills a gap in the literature by providing a comprehensive study of the different components of

local autonomy across a large number of countries, over time. It offers a theoretically saturated concept to measure local autonomy and applies it to 39 countries, including all 28 EU member states together with Albania, Georgia, Iceland, Liechtenstein, Macedonia, Moldova, Norway, Serbia, Switzerland Turkey and Ukraine, over a period of 25 years (1990-2014).

Alternative Educational Materials Cambridge, Mass. : Ballinger Publishing Company

A powerful and humane exploration of the history of the "insanity defense," through the story of one poignant case. When a three-year-old child was found with a head wound and other injuries, it looked like an open-and-shut case of second-degree murder.

Psychologist and attorney Susan Vinocour agreed to evaluate the defendant, the child's mentally ill and impoverished grandmother, to determine whether she was competent to stand trial. Even if she had caused the child's death, had she realized at the time that her actions were wrong or was she legally "insane"? What followed was anything but an open-and-shut case. Nobody's Child traces the legal definition of "insanity" back to its inception in Victorian Britain nearly two hundred years ago, from when our understanding of the human mind was in its infancy, to today, when questions of race, class, and ability so often determine who is legally "insane" and who is criminally guilty. Vinocour explains how "competency" and "insanity" are creatures of a legal system, not of psychiatric reality, and how, in criminal law, the insanity defense has to often been a luxury of the rich and white.

Nobody's Child is a profoundly dignified portrait of injustice in America and a complex examination of the troubling intersection of mental health and the law. When prisons are now the largest institutions for the mentally ill, Vinocour demands that we reckon with our conceptions of "insanity" with clarity, empathy, and responsibility.

Bearing True Witness Cambridge University Press

In this path breaking study, Jasser Auda presents a systems approach to the philosophy and juridical theory of Islamic law based on its purposes, intents, and higher objectives (maqasid). For Islamic rulings to fulfill their original purposes of justice, freedom, rights, common good, and tolerance in today's context, Auda presents maqasid as the heart and the very philosophy of Islamic law. He also introduces a novel method for analysis and critique, one that utilizes relevant features from systems theory, such as, wholeness, multidimensionality, openness, and especially, purposefulness of systems. This book will benefit all those interested in the relationship between Islam and a wide variety of subjects, such as philosophy of law, morality, human rights, interfaith commonality, civil society, integration, development, feminism, modernism, postmodernism, systems theory, and culture.

Treatise on Maqasid Al-Shariah Simon and Schuster

Shaikh Muhammad al-Tahir ibn Ashur is the most renowned Zaytuna Imam and one of the great Islamic scholars of the 20th century. The publication of this translation of Shaikh Ibn Ashur's Treatise on Maqasid al-Shari'ah is a breakthrough in studies on Islamic law in the English language. In this book, Ibn Ashur proposed Maqasid as a methodology for the renewal of the theory of Islamic law, which has not undergone any serious development since the era of the great imams. Ibn Ashur - quite courageously - also addressed the sensitive topic of the intents/Maqasid of Prophet Muhammad (SAAS) behind his actions and decisions. He introduced criteria to differentiate between the Prophetic traditions that were meant to be part of Islamic law and the Prophetic actions/ sayings that were meant to be for the sake of specific purposes such as political leadership, court judgment, friendly advice, and conflict resolution. But Ibn Ashur's most significant contribution in this book has been the development of

new Maqasid by coining new, contemporary, terminology that were never formulated in traditional *usul al-fiqh*. For example, Ibn Ashur developed the theory of the 'preservation of lineage' into 'the preservation of the family system', the 'protection of true belief' into 'freedom of beliefs', etc. He also introduced the concepts of 'orderliness', 'natural disposition', 'freedom', 'rights', 'civility', and 'equality' as Maqasid in their own right, and upon which the whole Islamic law is based. This development opens great opportunities for Islamic law to address current and real challenges for Muslim societies and Muslim minorities.

A Framework for the Development of Competences Simone Braverman

Social Media Marketing: A Strategic Approach promises to be the seminal textbook in the field with its distinctive conceptual foundation and practical approach to developing successful social media marketing plans. A proven eight-step social media planning model provides students with a cumulative learning experience, showing them how to construct social media strategies that achieve desired marketing goals. These marketing goals shape the development of tailored social media strategies. Special attention is given to the most effective techniques for

identifying targeted marketing on the social web, with emphasis on the creation of personas that represent the critical online market segments for a company. Students discover how to put these well-defined personas to work in selecting the optimal social media platforms for reaching an organization's marketing goals. Students are taught rules of engagement and social media ethics for behaving properly as marketers on the social web. With these guidelines in mind, the most productive marketing tactics for each type of major social media platform are examined in depth. These platform-specific tactics, along with all the preceding material in the book, are brought together in the final chapter to create a comprehensive social media marketing plan, with detailed explanations and illustrations from a real world plan. Extensive consideration is given to monitoring, evaluating, and tuning the implementation of social media marketing initiatives. In addition, students are introduced to the most useful quantitative and qualitative social media measurements, along with various ways to estimate an organization's return on investment in social media marketing activities.
