andPharmaceutical Terminology  
Language: English List of term  
...IMPORTANT: Know that 1 part per  
million (ppm) is a frequently used term  
in toxicology and drug residue  
discussions. For example, the following  
are 1 ppm: 1 mg / kg, 1 mcg/g. An  
analogy is "Percent" that represents 1  
part per hundred, i.e., 1 g/100 g = 1%  
w/w. The expression "w/w" indicates that  
the amount...Pharmaceutical

Abbreviations, Pharmacy Latin  
Abbreviations List As umbrella terms, “opioids” and “opiates” do not have corresponding street terminology. Any and all slang is actually denoting the different drugs. Hallucinogens Examples include: LSD, peyote, salvia, dextromethorphan, and PCP. Nicknames for hallucinogens refer almost exclusively to the drug in question rather than hallucinogens as a whole. Drug Slang | Drug Slang List, Names, and Terms A product that is dispensed by a propellant from a metal can up to a maximum size of 33.8 fluid ounces (1000 mL) or a glass or plastic bottle up to a size of 4 fluid ounces (118.3 mL), other than a rim-vented container. Aerosol. A gaseous suspension of fine (100µm or smaller in size) solid or liquid

particles. Glossary of Terms - Pharmaceutical & Drug Manufacturers It's easy to forget many of the common terms in pharmacology, not least because of the sheer variety of competing terms required to be committed to memory. This section combines the most common terms in pharmacology, serving as a convenient repository of pharmacology terms to aid future study. Common Terms in Pharmacology - A Complete Glossary This is a list of abbreviations used in medical prescriptions, including hospital orders. This list does not include abbreviations for pharmaceuticals or drug name suffixes such as CD, CR, ER, XT. Capitalization and the use of periods are a matter of style. In the list, abbreviations in English are capitalized

whereas those in Latin are not. These abbreviations can be verified in reference works, both recent and older.
