## WHITEHEAD DAVENPORT

**A Letter Book** Random House Books for Young Readers  
Some monsters are real. Miles away from the hectic city, Reed and Rebecca hike into the beautiful Northwester woods. They are surrounded by gorgeous mountains, waterfalls, and hundreds of acres of unspoiled wilderness. During their first night camping, an unearthly wail pierces the calm of the forest. Then something emerges from the dense woods. Everything that follows is a blur to Reed—except the unforgettable image of a huge creature carrying his wife into the darkness. Enter into deep wilderness where the rules of civilization no longer apply. A world where strange shadows lurk. Where creatures long attributed to overactive imaginations and nightmares are the hunters . . . and people are the hunted.

Amazon Prime Original Series! Perfect for fans of E.T. and Stranger Things—the first narrative artbook from acclaimed author and artist Simon Stålenhag about a fictionalized suburban town in the 1980s inhabited by fantastic machines and strange, imaginative beasts. In 1954, the Swedish government ordered the construction of the world’s largest particle accelerator. The facility was complete in 1969, located deep below the pastoral countryside of Mälaröarna. The local population called this marvel of technology The Loop. These are its strange tales. From the same author who wrote the imaginative artbook *The Electric State*, this “haunting,” (The Verge) “sophisticated sci-fi” (The Nerdist) follows the bizarre stories from otherworldly creatures and is a page-turner you won’t be able to put down.

 Hiding from the Nazis in the "Secret Annexe" of an old office building in Amsterdam, a thirteen-year-old girl named Anne Frank became a writer. The now famous diary of her private life and thoughts reveals only part of Anne's story, however. This book completes the portrait of this remarkable and talented young author. Tales from the Secret Annex is a complete collection of Anne Frank's lesser-known writings: short stories, fables, personal reminiscences, and an unfinished novel. Here, too, are portions of the diary originally withheld from publication by her father. By turns fantastical, rebellious, touching, funny, and heartbreaking, these writings reveal the astonishing range of Anne Frank's wisdom and imagination--as well as her indomitable love of life. Anne Frank's Tales from the Secret Annex is a testament to this determined young woman's extraordinary genius and to the persistent strength of the creative spirit.

 A Novel  
 A new interdisciplinary interest has risen to study interconnections between oral tradition and book culture. In addition to the use and dissemination of printed books, newspapers etc., book culture denotes manuscript media and the circulation of written documents of oral tradition in and through the archive, into published collections. Book culture also intertwines the process of framing and defining oral genres with literary interests and ideologies. The present volume is highly relevant to anyone interested in oral cultures and their relationship to the culture of writing and publishing. The questions

discussed include the following: How have printing and book publishing set terms for oral tradition scholarship? How have the practices of reading affected the circulation of oral traditions? Which books and publishing projects have played a key role in this and how? How have the written representations of oral traditions, as well as the roles of editors and publishers, introduced authorship to materials customarily regarded as anonymous and collective?

Uncover never-before-told stories in this epic tale of self-discovery by a Rock n Roll disciple and member of the E Street Band.

What story begins in a bedroom in suburban New Jersey in the early '60s, unfolds on some of the country's largest stages, and then ranges across the globe, demonstrating over and over again how Rock and Roll has the power to change the world for the better? This story. The first true heartbeat of *Unrequited Infatuations* is the moment when Stevie Van Zandt trades in his devotion to the Baptist religion for an obsession with Rock and Roll. Groups like the Beatles and the Rolling Stones created new ideas of community, creative risk, and principled rebellion. They changed him forever. While still a teenager, he met Bruce

Springsteen, a like-minded outcast/true believer who became one of his most important friends and bandmates. As Miami Steve, Van Zandt anchored the E Street Band as they conquered the Rock and Roll world. And then, in the early '80s, Van Zandt stepped away from E Street to embark on his own odyssey. He refashioned himself as Little Steven, a political songwriter and performer, fell in love with Maureen Santoro who greatly expanded his artistic palette, and visited the world's hot spots as an artist/journalist to not just better understand them, but to help change them. Most famously, he masterminded the recording of "Sun City," an anti-apartheid anthem that sped the demise of South Africa's institutionalized racism and helped get Nelson Mandela out of prison. By the '90s, Van Zandt had lived at least two lives—one as a mainstream rocker, one as a hardcore activist. It was time for a third. David Chase invited Van Zandt to be a part of his new television show, the Sopranos—as Silvio Dante, he was the unconditionally loyal

consiglieri who sat at the right hand of Tony Soprano (a relationship that oddly mirrored his real-life relationship with Bruce Springsteen). Underlying all of Van Zandt's various incarnations was a devotion to preserving the centrality of the arts, especially the endangered species of Rock. In the twenty-first century, Van Zandt founded a groundbreaking radio show (*Little Steven's Underground Garage*), created the first two 24/7 branded music channels on SiriusXM (*Underground Garage* and *Outlaw Country*), started a fiercely independent record label (*Wicked Cool*), and developed a curriculum to teach students of all ages through the medium of music history. He also rejoined the E Street Band for what has now been a twenty-year victory lap. *Unrequited Infatuations* chronicles the twists and turns of Stevie Van Zandt's always surprising life. It is more than just the testimony of a globe-trotting nomad, more than the story of a groundbreaking activist, more than the odyssey of a spiritual seeker, and more than a master class in rock and roll (not to

mention a dozen other crafts). It's the best book of its kind because it's the only book of its kind.

Bringing together the research fields of sign language linguistics and information structure, this book focuses on the realization of modal particles and focus particles in three European sign languages: German Sign Language, Sign Language of the Netherlands, and Irish Sign Language. As a cross-linguistic investigation based on a systematic methodological approach, the study analyzes the results particularly with regard to nonmanual features expressed by articulators such as the body, head, and face. The analyses of the data provide interesting insights into the syntax-prosody interface in sign languages and the interaction of syntax and prosody in general. Modal and focus particles have not been thoroughly investigated in sign languages. This volume presents the first study on this phenomenon and is thus an innovative contribution to the field. From a methodological and theoretical perspective, it draws on up-to-date linguistic tools and provides professionally elicited and annotated

data. The book accounts for the results within existing theoretical models. Given its specific focus on nonmanuals, the book contributes to recent debates on information structure and the syntax-prosody interface and will be of special interest to both sign and spoken language linguists.

 BESTSELLER • 125 recipes for grain-free, dairy-free, and gluten-free comfort food dishes for holidays and special occasions  
 NAMED ONE OF THE FIVE BEST GLUTEN-FREE COOKBOOKS OF ALL TIME BY MINDBODYGREEN  
 When people adopt a new diet for health or personal reasons, they worry most about the parties, holidays, and events with strong food traditions, fearing their fond memories will be lost along with the newly eliminated food groups. After suffering for years with a debilitating autoimmune disease and missing many of these special occasions herself, Danielle Walker has revived the joy that cooking for holidays can bring in Danielle Walker's *Against All Grain Celebrations*, a collection of recipes and menus for

twelve special occasions throughout the year. Featuring a variety of birthday cakes, finger foods to serve at a baby or bridal shower, and recreations of backyard barbecue standards like peach cobbler and corn bread, Danielle includes all of the classics. There's a full Thanksgiving spread—complete with turkey and stuffing, creamy green bean casserole, and pies—and menus for Christmas dinner; a New Year's Eve cocktail party and Easter brunch are covered, along with suggestions for beverages and cocktails and the all-important desserts. Recipes can be mixed and matched among the various occasions, and many of the dishes are simple enough for everyday cooking. Stunning full-color photographs of every dish make browsing the pages as delightful as cooking the recipes, and beautiful party images provide approachable and creative entertaining ideas. Making recipes using unfamiliar ingredients can cause anxiety, and while trying a new menu on a regular weeknight leaves some room for error, the meal simply cannot fail when you have a table full of

guests celebrating a special occasion. Danielle has transformed her most cherished family traditions into trustworthy recipes you can feel confident serving, whether you're hosting a special guest with food allergies, or cooking for a crowd of regular grain-eaters.

Roger Ebert's *I Hated, Hated, Hated This Movie and Your Movie Sucks*, which gathered some of his most scathing reviews, were best-sellers. This new collection continues the tradition, reviewing not only movies that were at the bottom of the barrel, but also movies that he found underneath the barrel. *A Horrible Experience of Unbearable Length* collects more than 200 of his reviews since 2006 in which he gave movies two stars or fewer. Known for his fair-minded and well-written film

reviews, Roger is at his razor-sharp humorous best when skewering bad movies. Consider this opener for the one-star *Your Highness*: "Your Highness is a juvenile excrescence that feels like the work of 11-year-old boys in love with dungeons, dragons, warrior women, pot, boobs, and four-letter words. That this is the work of David Gordon Green beggars the imagination. One of its heroes wears the penis of a minotaur on a string around his neck. I hate it when that happens." And finally, the inspiration for the title of this book, the one-star *Transformers*:

*Revenge of the Fallen*: *Transformers: Revenge of the Fallen* is a horrible experience of unbearable length, briefly punctuated by three or four amusing moments. One of these involves a doglike robot humping the leg of the heroine. If you want to save yourself the ticket price, go, go into the kitchen, cue up a male choir singing the music of hell, and get a kid to start banging pots and pans together. Then close your eyes and use your imagination." Movie buffs and humor lovers alike will relish this treasury of movies so bad that you may just want to see them for a good laugh!
