### Comparative Perspectives on School

Textbooks Princeton Review

This book examines the discourses on nation-building, civic identity, minorities, and the formation of religious identities in school textbooks worldwide. It offers up-to-date, practical, and scholarly information on qualitative and mixed-method textbook analysis, as well as the broader context of critical comparative

textbook and curriculum analyses in and across selected countries. The volume offers unique and empirical research on how internal educational policies and ideological goals of dominant social, political, and economic groups affect textbook production and the curricular aims in different educational systems worldwide. Chapters address the role of school textbooks in developing nationhood, the creation of citizenship through school textbooks, the complexity of gender in normative discourses, and the intersection of religion and culture in

school textbooks.

### **McConnell, Economics, AP Edition**

Abrams

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," Leaves of Grass  
The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides

a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, *The American Yawp* incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of *The American Yawp* will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. *The American Yawp* traces the development of colonial society in the context of the larger Atlantic World and

investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, *The American Yawp* gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

#### Washington's Farewell Address

This new AP edition of Economics helps students understand and apply economic perspective and reason accurately and objectively, while preparing them for success on the AP exam through: AP Course, Exam, and Correlation information that aligns the content to the AP Microeconomics and Macroeconomics courses and tests. Two complete practice exams, one each for micro- and macroeconomics, in the text of the book. Interactive graphs, video cases, AP practice questions and exams, and two pre-populated AP course outlines in Connect Plus. Economics is the best-selling principles of economics textbook in the world and the number one-selling book for AP Micro- and Macroeconomics courses.

The authors' 40 years of teaching success is due to the clear and careful treatment of economics concepts, balanced coverage, and patient explanations. This new AP edition continues to deliver a modern, engaging book. In addition, cutting-edge technology products, like Connect Economics, further enhance the teaching and learning experience.

*The American Pageant* Bloomsbury Publishing

In this signal work of history, Bancroft Prize winner and Pulitzer Prize finalist Elizabeth Cohen shows how the pursuit of prosperity after World War II fueled our pervasive consumer mentality and transformed American life. Trumpeted as a means to promote the general welfare, mass consumption quickly outgrew its economic objectives and became synonymous with patriotism, social equality, and the American Dream. Material goods came to embody the promise of America, and the power of consumers to purchase everything from vacuum cleaners to convertibles gave rise to the power of citizens to purchase political influence and effect social change. Yet despite undeniable successes

and unprecedented affluence, mass consumption also fostered economic inequality and the fracturing of society along gender, class, and racial lines. In charting the complex legacy of our “Consumers’ Republic” Lizabeth Cohen has written a bold, encompassing, and profoundly influential book.

**Guide to Colleges 2022** McGraw-Hill Education

Classic Books Library presents this brand new edition of “The Federalist Papers”, a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. “The Federalist”, as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly

influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation’s finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

#### **Autobiography of an Ex-white Man**

Simon and Schuster

Autobiography of an Ex-White Man is an intensely personal meditation on the nature of America by a White Philosopher who joined a Black Studies Department and found his understanding of the world transformed by the experience. The book begins with an autobiographical narrative of the events leading up to Wolff's transfer from a Philosophy Department to the W. E. B. Du Bois Department of Afro-American Studies at the University of Massachusetts, and his experiences in the Department with his new colleagues, all of whom had come to Academia from the Civil Rights Movement of the 1960s. Wolff discovered that the apparently simple act of moving across campus to a new Department in a new building worked a startling change in

the way he saw himself, his university, and his country. Reading as widely as possible to bring himself up to speed in his new field of academic responsibility, Wolff realized after a bit that his picture of American history and culture was undergoing an irreversible metamorphosis. America, he realized, has from its inception been a land both of Freedom and of Bondage: Freedom for the few, and then for those who are White; Bondage at first for the many, and then for those who are not White. Slavery is thus not an aberration, an accident, a Peculiar Institution -- it is the essence and core of the American experience. Wolff's optimistic outlook leads him to express the hope that our acknowledging the realities of America's racial history and present will begin to tear down the formidable barrier to change. He sees this refashioning of the American story as a first step toward the crafting of a truly liberatory project. Robert Paul Wolff is Professor of Afro-American Studies at the University of Massachusetts-Amherst and the author of numerous books, including Introductory Philosophy and In Defense of Anarchism.

#### **The Environment and International**

**History** Macmillan Higher Education

Since its original landmark publication in 1980, *A People's History of the United States* has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, *A People's History* is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States*, which was nominated for the American Book Award in 1981, features insightful analysis of the most

important events in our history. Revised, updated, and featuring a new afterword by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

The American Pageant Read Books Ltd Kaplan's, 5-Steps, Crash Course and other review books are great resources for that last month before the exam, but Tamm's Textbook Tools student activity books are meant to be an accompaniment all year long. This AP\* U.S. History companion is filled with vocab and assignments that follow the Kennedy/Cohen sixteenth edition for all 41 chapters. They can be used as regular weekly assignments or reviews. They can be used on short notice if there is a sub, or be assigned as regular homework. All you need is the textbook. Teachers can copy at will, or the book can be used as a student consumable. As publishers began putting their content online, a niche for traditional classwork was opened, a void filled by this series. And whether the textbook itself is written in ink or electrons, many students still find it more valuable to write and keep notes

for themselves on paper, and portfolios still matter. The activities in this workbook challenge students to apply the concepts, give examples, and diagram every chapter. Find TTT on FB.

**A Beautiful Pageant** Turtleback Books  
By focusing on law, this book offers new insights into the history of religious liberty in colonial America.

The American Yawp Catapult  
Reprint of the original, first published in 1859. The publishing house Anatiptosi publishes historical books as reprints. Due to their age, these books may have missing pages or inferior quality. Our aim is to preserve these books and make them available to the public so that they do not get lost.

*Sweet Land of Liberty* Boydell & Brewer  
U.S. History is designed to meet the scope and sequence requirements of most introductory courses. The text provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). U.S. History covers key forces that form the American

experience, with particular attention to issues of race, class, and gender.

*Domestic Revolutions* Yale University Press

The American Pageant, 15/e, International Edition enjoys a reputation as one of the most popular, effective, and entertaining texts in American history. The colorful anecdotes, first-person quotations, and trademark wit bring American history to life. The Fifteenth edition includes markedly deeper explorations of the cultural innovations, artistic movements, and intellectual doctrines that have engaged and inspired Americans and shaped the course of American history. Additional features of The American Pageant, 15/e, International Edition help readers understand and master the content: part openers and chapter-ending chronologies provide a context for the major periods in American history, while other features present primary sources, scholarly debates, and key historical figures for analysis.

**Advanced Placement United States History, 2020 Edition** Vintage

An examination of how the concept of “family” has been transformed over the

last three centuries in the U.S., from its function as primary social unit to today’s still-evolving model. Based on a wide reading of letters, diaries and other contemporary documents, Mintz, an historian, and Kellogg, an anthropologist, examine the changing definition of “family” in the United States over the course of the last three centuries, beginning with the modified European model of the earliest settlers. From there they survey the changes in the families of whites (working class, immigrants, and middle class) and blacks (slave and free) since the Colonial years, and identify four deep changes in family structure and ideology: the democratic family, the companionate family, the family of the 1950s, and lastly, the family of the '80s, vulnerable to societal changes but still holding together.

NEW YORK TIMES BESTSELLER • A stunning “portrait of the enduring grace of friendship” (NPR) about the families we are born into, and those that we make for ourselves. A masterful depiction of love in the twenty-first century. NATIONAL BOOK AWARD FINALIST • MAN BOOKER PRIZE

FINALIST • WINNER OF THE KIRKUS PRIZE  
A Little Life follows four college classmates—broke, adrift, and buoyed only by their friendship and ambition—as they move to New York in search of fame and fortune. While their relationships, which are tinged by addiction, success, and pride, deepen over the decades, the men are held together by their devotion to the brilliant, enigmatic Jude, a man scarred by an unspeakable childhood trauma. A hymn to brotherly bonds and a masterful depiction of love in the twenty-first century, Hanya Yanagihara’s stunning novel is about the families we are born into, and those that we make for ourselves. Look for Hanya Yanagihara’s latest bestselling novel, *To Paradise*.

*Our Country* Routledge

Studies of the history of international relations traditionally have focused on the decisions made by those at the highest levels of government. In more recent years, scholars have expanded their attention to cover economic, cultural, or social interactions among nations. What has remained largely ignored, however, is the impact of an increasingly-interdependent world upon the

environment and, conversely, how environmental concerns have affected the ecology, social relationships, economics, and politics at national, regional, and global levels. The Environment and International History fills this gap, looking at the interrelationship between international politics and the environment. Using a transnational and interdisciplinary approach, this book examines how imperialism, war, and a divergence of interests between the developed and underdeveloped world all have had implications for plants, animals, and humans worldwide.

*Birth Control in America* New Press, The For more than 15 years, The American Girls Collection has captivated readers with its tales of heart, hope and history. Millions of girls have fallen in love with the series' strong, appealing heroines  
[American Pageant Test Prep Wb/ap 13/e](#)  
 Springer Nature

Among all the worlds' democracies, the American system of government is perhaps the most self-conscious about preventing majority tyranny. The American constitutional system is predicated on an inherent ideational and institutional

tension dating back to the foundation of the nation in the eighteenth century, which constrains innovative policy development. Namely, the framers designed a system that simultaneously seeks to protect the rights of the minority out of power and provide for majority rule. These opposing goals are based on the idea that limiting governmental power will guarantee individual liberty. The Path of American Public Policy: Comparative Perspectives asks how this foundational tension might limit the range of options available to American policy makers. What does the resistance to change in Washington teach us about the American system of checks and balances? Why is it so difficult (though not impossible) to make sweeping policy changes in the United States? How could things be different? What would be the implications for policy formation if the United States adopted a British-style parliamentary system? To examine these questions, this book gives an example of when comprehensive change failed (the 1994 Contract with America) and when it succeeded (the 2010 Affordable Care Act). A comparison of the two cases sheds light

on how and why Obama's health care was shepherded to law under Nancy Pelosi, while Newt Gingrich was less successful with the Contract with America. The contrast between the two cases highlights the balance between majority rule and minority rights, and how the foundational tension constrains public-policy formation. While 2010 illustrates an exception to the rule about comprehensive policy change in the United States, the 1994 is an apt example of how our system of checks and balances usually works to stymie expansive, far-reaching legislative initiatives.

[The American Pageant](#) Stanford University Press

A delicious and delightful narrative history of pie in America, from the colonial era through the civil rights movement and beyond. With corresponding recipes for each chapter and sidebars of quirky facts throughout, this book—winner of the International Association of Culinary Professionals (IACP) Award for Best Literary or Historical Food Writing—is an entertaining, informative, and utterly charming food history for bakers, dessert lovers, and history aficionados alike.

Ultimately, the story of pie is the story of America itself, and it's time to dig in. From the pumpkin pie gracing the Thanksgiving table to the apple pie at the Fourth of July picnic, nearly every American shares a certain nostalgia for a simple circle of crust and filling. But America's history with pie has not always been so sweet. After all, it was a slice of cherry pie at the Woolworth's lunch counter on a cool February afternoon that helped to spark the Greensboro sit-ins and ignited a wave of anti-segregation protests across the South during the civil rights movement. Molasses pie, meanwhile, captures the legacies of racial trauma and oppression passed down from America's history of slavery, and Jell-O pie exemplifies the pressures and contradictions of gender roles in an evolving modern society. We all know the warm comfort of the so-called "All-American" apple pie . . . but just how did pie become the symbol of a nation? In *Sweet Land of Liberty: A History of*

*America in 11 Pies*, award-winning food writer Rossi Anastopoulo cracks open our relationship to pie with wit and good humor. For centuries, pie has been a malleable icon, co-opted for new social and political purposes. Anastopoulo traces the pies woven into our history, following the evolution of our country across centuries of innovation and change.
