The first ever English translation of Hermann Wieland's epic retelling of the esoteric history of Atlantis and the truth about ancient Aryan religion. Banned and destroyed by the Allied forces following World War II, this cornerstone work of the ages has remained hidden to the Anglophone world until now. Going

beyond the saga of Atlantis, Wieland goes further into the darkened depths of history to reveal how the true religion and heritage of the Aryan race has been falsified and stolen from us for thousands of years. Atlantis, Edda and Bible not only exposes the forces behind this concerted effort to destroy the Aryan peoples but ultimately reveals the secret and hidden message of the Holy Bible itself. --Back cover.
