VILLARREAL MATA

Case Studies in Islamic Banking and Finance Springer Nature
Case Studies for Corporate Finance: From A (Anheuser) to Z (Zyps) provides a distinctive collection of 51 real business cases dealing with corporate finance issues over the period of 1985-2014. Written by Harold Bierman, world-renowned author in the field of corporate finance, the book spans over different areas of finance which range from capital structures to leveraged buy-outs to restructuring. While the primary focus of the case studies is the economy of the United States, other parts of the world are also represented. Notable to this comprehensive case studies book are questions to which unique solutions are offered in the latter section of the book, all of which aim to provide the reader with simulated experience of real business situations involving corporate financial decision-making. Case studies covered include that of Time Warner (1989-1991), The Walt Disney Company (1995), Exxon-Mobil (1998), Mitsubishi's Zero Coupon Convertible Bond (2000), and Apple (2014).

The Trade and Receivables Finance Companion Pearson

Case Studies in Islamic Banking and Finance is a pioneering resource that provides practical insights into the real world of Islamic financial transactions, and illustrates the complexities of this rapidly growing mode of modern finance. Based around 12 individual cases, the book stimulates discussion and develops the reader's understanding of Islamic finance by contrasting the theoretical concepts discussed in the author's companion text *Introduction to Islamic Banking and Finance* with practical real world situations. The cases cover core Islamic banking and finance topics including the Ijara, Mudaraba and Musharaka contracts; Islamic mortgages for home finance; leverage; and issues involved in opening an Islamic bank. Financial statement analysis for Islamic banks, the implications for fund management for equity investing and the impact of loan defaults on Islamic and conventional banks are also included. Each chapter concludes with a set of questions designed to test the reader's understanding of each case, with suggested solutions at the end of the book. This book is a must have resource for those wishing to apply their understanding of this complex subject and is an essential read for anyone seeking practical examples of how to apply the concepts in a real world environment.

Banking and Finance Academic Press

Case Studies in Finance links managerial decisions to capital markets and the expectations of investors. At the core of almost all of the cases is a valuation task that requires students to look to financial markets for guidance in resolving the case problem. The focus on value helps managers understand the impact of the firm on the world around it. These cases also invite students to apply modern information technology to the analysis of managerial decisions. The cases may be taught in many different combinations. The eight-part sequence indicated by the table of contents relates to course designs used at the authors' schools. Each part of the casebook suggests a concept module, with a particular orientation.

Case Studies for Corporate Finance John Wiley & Sons

"The benefits Carrefour achieved have been substantially in excess of predictions. The Shared Service accounting centers enabled streamlined processes, lowered costs, and introduced standard processes, a standard system, and standard data for a global company. The new infrastructure can support rapid expansion and can add new stores with the flip of a switch. From a systems point of view, Carrefour now has a 'factory' in place to deliver high-efficiency systems, tools, processes, and training." -- From Chapter 9, Implementation and Operational Imperatives for ERP "The benefits of efficient information delivery are demonstrated by the results of one of the world's largest mySAP.com implementations. Siemens achieved a twenty-five percent cost reduction through streamlined information delivery and improved access to financial information. It also enhanced its reporting capabilities from seventy percent to nearly 100 percent through increased intranet availability." --From Chapter 3, Financial and Management Reporting Research shows that high-performance businesses and governments use finance technology as one of the capabilities to help executives make better decisions for resource allocation, while at the same time increasing productivity. CFO Insights: Enabling High Performance through Leading Practices for Finance ERP includes a number of case studies and lessons learned from Accenture clients across a variety of industries that have implemented, upgraded, and operated Oracle/PeopleSoft and SAP. Each case study highlights vital thoughts, benefits, and considerations and provides relevant guidance as one proceeds with an ERP on the journey toward high performance.

Cases in Finance CRC Press

A better way to value the profitability and risk of R&D projects New technology and R&D initiatives affect companies in both the service and manufacturing sector. It's estimated that half a trillion dollars is spent worldwide each year on such efforts. Technology Valuation Solutions + website offers a methodology along with illustrative cases for valuing the profitability and risk of R&D projects. A companion to Boer's earlier work, *The Valuation of Technology* (978-0-471-31638-1), this book provides additional material that will help readers assess a wide variety of projects and business scenarios. In addition to the in-depth case studies, this book includes a website featuring valuation templates that readers can customize for their own individual needs.

CFO Insights Wiley

The Trade and Receivables Finance Companion: A Collection of Case Studies and Solutions is based on the author's personal experience gained through more than 40 years in the field of trade finance. This Companion applies the techniques described in his first volume, *Trade and Receivables Finance: A Practical Guide to Risk Evaluation and Structuring* to an extensive range of international trade scenarios. Practical solutions are discussed and presented through a specially selected collection of more

than 20 case studies. These books provide an unrivalled and highly practical set of manuals for the trade and receivables financier. The reader is taken on a journey from the structuring of trade products including collections, import and export letters of credit, back to back credits, guarantees and standby credits to fully and partially structured financing solutions for the importer, manufacturer, distributor, middle-party and exporter. Each funding technique provides a compelling alternative to an overdraft. The case studies include the risk assessment and financing of open account payables, stock and receivables transactions and the evaluation and use of credit insurance as a supporting tool. The structuring of commodity finance across the trade cycle, to include warehousing, and call-off is also described. Many of the chapters contain a summary 'keynote' overview and comprehensive 'deal sheet' extracts of the chosen solution detailing facility and operational requirements.

Case Studies in Business Finance and Financial Analysis

McGraw-Hill Education

This book presents new research on innovative financial instruments and approaches available to implement nature-based solutions (NBS) at various scales and in different contexts.

Despite knowledge of the multiple benefits NBS provide, a key barrier to their wide-spread adoption is a lack of knowledge over their financing, in particular, who should pay for an NBS and how it can be financed. The book explores a variety of public, private, and blended finance models and their applicability in developing NBS across terrestrial and marine ecosystems, involving multiple stakeholders, and in jurisdictions of varying climates and income levels. Furthermore, the book provides case studies of the innovative financing of NBS with best practices identified. This book is of interest to environmental planners, resource conservation managers, policymakers, international companies and organizations, environmental NGOs, researchers, and graduate and undergraduate students interested in NBS.

Impact Evaluation in Practice, Second Edition John Wiley & Sons

Through handpicked cases from a variety of areas and business houses, this book illustrates how strategic management can be used to achieve better operational performance and strengthen their services by aligning business goals with performance measures.

Case Studies in Strategic Management: A Practical Approach

Palgrave Macmillan

Imagine selling \$2 million "worth" of Google stock and only receiving \$50 in return? This scenario happens every day for venture-backed companies. Failure to quickly understand high-growth company valuation can cost trillions of dollars. Yet very few leaders involved in a venture-backed company have a definitive understanding of how valuation techniques are being applied to their financial statements and the decision-making process. Featuring extensive case studies of high-profile corporations, including Facebook, Twitter, and Microsoft, *Venture Capital Valuation* provides the knowledge and techniques necessary to understand and value high-growth companies. Sharing his twenty-year track record helping thousands of investors, practitioners, and entrepreneurs measure and realize high-growth venture, author Lorenzo Carver draws on real-world cases from investors, founders, and advisors to illustrate how each corporation was impacted by valuations. By putting these techniques into a context and framework, *Venture Capital Valuation* simplifies them so that anyone founding, running, and investing in these innovative companies can apply them immediately. Featuring a companion website where readers can access and download additional case study material, as well as different valuation materials mentioned throughout the text, *Venture Capital Valuation* explores: Why what you don't know

about valuation will cost you money How VCs, angels, founders, and employees give up investment cash flow every day Facebook at \$80 billion valuation versus Enron at \$80 billion valuation Deal terms, waterfalls, and the pre-money myth Whether venture-backed companies should even consider a discounted cash flow (DCF) model Separating enterprise value from the allocation of that value Valuing total equity Using Future Value (FV) and Present Value (PV) to value future cash flows today Why applying the typical DCF model to a venture-backed company hardly ever works "Enterprise Value" + "Allocation Methods" = Value Destruction Undervaluing companies and overvaluing employee options Why you should D.O.W.T. (doubt) venture capital returns 409A valuation professionals discussing topic 820 (FAS 157) with VC CFOs An invaluable resource for anyone who wants to make the most out of their investments, *Venture Capital Valuation* shows business appraisers and venture capitalists how to maximize their returns and avoid losing money—before the damage becomes irreparable.

New Perspectives on Supply and Distribution Chain Financing: Case Studies from China and Europe John Wiley & Sons

The second edition of the *Impact Evaluation in Practice* handbook is a comprehensive and accessible introduction to impact evaluation for policy makers and development practitioners. First published in 2011, it has been used widely across the development and academic communities. The book incorporates real-world examples to present practical guidelines for designing and implementing impact evaluations. Readers will gain an understanding of impact evaluations and the best ways to use them to design evidence-based policies and programs. The updated version covers the newest techniques for evaluating programs and includes state-of-the-art implementation advice, as well as an expanded set of examples and case studies that draw on recent development challenges. It also includes new material on research ethics and partnerships to conduct impact evaluation. The handbook is divided into four sections: Part One discusses what to evaluate and why; Part Two presents the main impact evaluation methods; Part Three addresses how to manage impact evaluations; Part Four reviews impact evaluation sampling and data collection. Case studies illustrate different applications of impact evaluations. The book links to complementary instructional material available online, including an applied case as well as questions and answers. The updated second edition will be a valuable resource for the international development community, universities, and policy makers looking to build better evidence around what works in development.

Managing for Corporate Value Creation John Wiley & Sons
Bridge the theory and practice behind fintech with this textbook which includes up-to-date case studies, clear definitions of new technologies and academic frameworks.

Problems, Methods, and Solutions Routledge

This book offers 58 cases that combine both the qualitative and quantitative aspects of financial management. The cases are based on real firms, real products, real individuals, and most importantly, real issues and offer a complete picture of the financial management process.

Case Studies in Fintech Innovation McGraw-Hill Education

This is a self-contained text on the logic and institutions of project finance, supplemented by a series of project finance case studies illustrating applications in different economic environments, across different jurisdictions and at different stages of development. It will introduce an analytical framework drawing on applied institutional economics that includes and concentrates primarily on an analysis of the institutional logic behind generic project finance arrangements. The application of the institutional framework will be demonstrated with project cases from Hong Kong, Thailand, India, Europe and Azerbaijan – each at different stages of development. While each project case will have a general theme and will highlight aspects of interest to built environment professionals, it will primarily be used to illustrate one or more specific PF/PFI principle.

Integral Finance – Akhuwat Wiley Global Education

Strategic Financial Management Casebook strategically uses integrative case studies—cases that do not emphasize specific subjects such as capital budgeting or value based management—to provide a framework for understanding strategic financial management. By featuring holistic presentations, the book puts readers into the shoes of those responsible for the world's largest wealth creators. It covers strategies of growth, mergers and acquisitions, financial performance analysis over the past decade, wealth created in terms of stock returns since its listing in stock market, investment and financial decisions, cost of capital, and corporate valuation. In addition, the casebook also discusses corporate restructuring activities undertaken by each company. Each chapter follows a template to facilitate learning, and each features an Excel-based case analysis worksheet that includes a complete data set for financial analysis and valuation. Introduces a conceptual framework for integrating strategy and finance for value creation Emphasizes the roles of corporate governance, corporate social responsibility, and risk management in value

creation Encourages an analysis of investment, financing, and dividend decisions Examines non-financial factors that contribute to value

Loose Leaf for Case Studies in Finance Case Studies in Finance Managing for Corporate Value Creation International Financial Reporting Standards (IFRS) Workbook and Guide is a one stop resource for understanding and applying current International Financial Reporting Standards (IFRS) and offers: Easy-to-understand explanations of all IFRSs/IASs and IFRICs/SICs issued by the IASB/IASC up to March 2006 Illustrative examples Practical insights Worked case studies Multiple-choice questions with solutions Technically reviewed by Liesel Knorr, Secretary General of the German Accounting Standards Committee and former technical director of the International Accounting Standards Committee (IASC). Case Studies in Islamic Banking and Finance Springer

The first case study based guide to Islamic banking and finance. Based around 13 individual cases, the book stimulates discussion and develops the reader's understanding of Islamic finance by contrasting the existing theoretical knowledge against practical examples. Each chapter concludes with a set of questions designed to test the readers understanding of each case, with suggested solutions at the end of the book.

Lessons in Corporate Finance John Wiley & Sons

This book links the theory of finance to the decisions related to various aspects of the financial management of an organisation. In order to provide the reader with a better understanding of the concept of finance, a theoretical guide to related terminology is included here. The case studies brought together require students to look deep into the concepts of finance in order to solve the problems and issues they present. The case studies here focus on important concepts of finance which help students to relate the concept with decision-making processes.
