David B. Coe, winner of the William L. Crawford Award for Best First Fantasy Series for the LonTobyn Chronicle, continues his rise to the top rank of fantasy writers with Rules of Ascension, the first novel of an exciting new epic fantasy quartet, Winds of the Forelands. For centuries the Forelands were disputed by several tribes. Then came the magically gifted Qirsi--physically no match for their foes, but capable of mindsight, creating and controlling mists and fire, and bending solid matter to their purpose. After a Qirsi traitor betrayed his race to save himself, the Qirsi were defeated and dispersed among the seven realms of the Forelands. Those specially endowed Qirsi capable of multiple powers, the Weavers, were all put to death. For centuries the Forelands enjoyed relative peace. But when Tavis, the heir to the Kingdom of Curgh, is wrongfully blamed for the murder of a noble, the accusation sets in motion a series of events culminating in civil war. The ensuing chaos topples the throne in Eibithar and threatens to rain chaos on all the realms of the Forelands. Tavis, thrust into the center of deadly controversy and stripped of the protection of his family's nobility, turns to the Qirsi, his last remaining hope for redemption. But another Qirsi traitor, secretly fomenting fear and mistrust among the Dukedoms, seeks to destroy Tavis. Tavis must survive long enough to clear his name and save an entire kingdom. A powerful, compelling tale set in an unforgettable land, rules of Ascension will capture your heart and fire your imagination.

Why have so many central and inner cities in Europe, North America and Australia been so radically revamped in the last three decades, converting urban decay into new chic? Will the process continue in the twenty-first century or has it ended? What does this mean for the people who live there? Can they do anything about it? This book challenges conventional wisdom, which holds gentrification to be the simple outcome of new middle-class tastes and a demand for urban living. It reveals gentrification as part of a much larger shift in the political economy and culture of the late twentieth century. Documenting in gritty detail the conflicts that gentrification brings to the new urban 'frontiers', the author explores the interconnections of urban policy, patterns of investment, eviction, and homelessness. The failure of liberal urban policy and the end of the 1980s financial boom have made the end-of-the-century city a darker and more dangerous place. Public policy and the private market are conspiring against minorities, working people, the poor, and the homeless as never before. In the emerging revanchist city, gentrification has become part of this policy of revenge.
