- Numbers • Counting and coloring objects • Making fun matches

School Zone Discover the Zoo Preschool Tablet Workbook Collins

Give your child a smart start with What Your Preschooler Needs to Know Designed for parents to enjoy with children, filled with opportunities for reading aloud and fostering curiosity, this beautifully illustrated anthology offers preschoolers the fundamentals they need to prepare for a happy, productive time in school—and for the rest of their lives. Hundreds of thousands of children have benefited from the acclaimed Core Knowledge Series,

developed in consultation with parents, educators, and the most distinguished developmental psychologists. In addition to valuable advice for parents, such as what it means for a child to be ready for kindergarten, special sidebars throughout the book help parents make reading aloud fun and interactive, suggesting questions to ask, connections to make, and games to play to enrich their preschooler's learning experience. Inside you will discover •

Favorite poems and rhymes—all beautifully illustrated, to be read and recited together, from Robert Louis Stevenson’s “At the Seaside” to limericks by Edward Lear and tongue twisters by Jack Prelutsky, plus fun “clap along!” and “fingerplay” verses that parents and children can act out together • Beloved stories and fables—stories such as “The Three Little Pigs” and the African folktale “Why Flies Buzz” will open whole new worlds of learning and discovery •

Visual arts—beautiful reproductions of classic works that foster early appreciation of art history while igniting discussions about shapes, colors, and different styles and media • Music—dozens of songs to sing and dance to, including such “move around” songs as “Head and Shoulders, Knees and Toes” and “The Wheels on the Bus” • History—a delightful introduction to American history, from the first Thanksgiving to Martin Luther King, Jr., with activities and stories parents and children can

enjoy together • Science—from exploring the wonder of animals to the physical properties of light, air, and water—fun activities that will let children observe, experience, and enjoy the natural world
Counting 1 to 10 (Preschool) Gakken Vintage stickers make charming accents. Beautiful, fun, and functional sticker book collections are perfect for scrapbooking, journaling, paper crafts, and for personalizing planners and calendars!

Age 3+ Gakken

Are you looking for a fun workbook to help you teach your child to write? Then you are in the right place! Take your child on an exciting journey through the entire ABC and all the numbers from 0 to 30 with: Letter And Number Tracing Book For Kids Ages 3-5: A Fun Practice Workbook To Learn The Alphabet And Numbers From 0 To 30 For Preschoolers And Kindergarten Kids! This exercise book introduces your child to writing

letters and numbers in a playful and age-appropriate manner that will help him or her get to know the alphabet and the numbers 0 to 30. In this way, children are guided and optimally prepared for pre-school and primary school. The book is divided into sections: numbers and letters. The learning process is guided as follows: Letters Every letter is new territory for your child. The first step is to get to know the letter and practice through the correct pen guidance by

simply tracing it. This is followed by a word containing the letter you have just learned. So your child learns to put the letter in a word.

Encourage your child to read the word aloud to directly practice the corresponding sound.

Finally, your child learns to write the letter freely and independently.

Numbers To understand the meaning of numbers, your child starts counting picture elements. Then, just as with letters, he or she will have to trace the numbers. As soon as they

become more confident, free writing follows the number you have just learned, with guidelines ensuring that the number is placed at the correct height. In both areas, learning takes place in a meaningful and reliable structure that gives your child security and constantly encourages them to see their own progress. Parents can help their children work through this exercise book and provide the necessary support. After all, writing is not easy for every child. Parents should keep a

special eye on the correct pen position and hand guidance and celebrate every milestone with their child. For both numbers and letters, encourage your child to speak out loud about what he or she has learned. The more senses are involved in the learning process, the faster and easier it is to learn. By completing this exercise book, your child will be able to write the lower and upper case letters from A to Z, as well as the numbers 0 to 30. It is especially important that your child can work

and learn at their own pace. This is the only way to keep the fun and become more confident in writing from letter to letter, or from number to number. A quick look at the most important facts of the book: Suitable for children from ages 3 to 5 Sensible structure that optimally accompanies the learning process Great preparation for pre-school and kindergarten A fun way to learn the numbers from 0 to 30 and the letters A to Z Designed and sensibly structured to suit children Promotes

correct pen management and concentration Lots of space for free practice Lovely designs Combine play with learning. Benefit from "Letter And Number Tracing Book For Kids Ages 3-5" and accompany your child within a meaningful structure on the way to writing letters and numbers! Get this book NOW!

Letter And Number Tracing Book For Kids Ages 3-5 Gakken

So many stickers, so much to do! What kid doesn't like stickers? Especially stickers that

plug into each activity to complete the exercises and playfully help develop readiness skills. This unique method of learning teaches skills like shapes, patterns, and alphabetical and numerical order. And with this *Preschool Stickers Workbook* from the *Stuck on Learning!*(R) series, it's all cleverly disguised as enjoyable sticker play designed to prepare your child for elementary school. There are also colorful award stickers that reward your child over and over for a job well done. And when

he or she completes the book, a full-page Certificate of Achievement awaits. Don't you wish learning was this much fun when you were their age? Get your kids stuck on learning today!
