"Robert Hogan is known for suggesting that the most consequential question in human affairs is, "Who should lead?" History is riddled with examples of how the survival of collectivities - schools, governments, nations, organizations - is determined by who is in charge. Good leaders turn businesses drowning in red ink into industry juggernauts; they transform "B" players into high-performers with minimal infighting and seamless

cooperation. Yet history also shows that leadership strengths coincide with deeply troubled dark sides that result in totalitarian regimes, large-scale financial collapses such as the global financial crisis of 2008, exclusive political and economic institutions, ill-conceived military entanglements, and the inability to manage public health during global pandemics,"--

equilibrium rate of return. The EMH has far reaching implications for capital allocation, stock price prediction, and the effectiveness of specific trading strategies. Equity market anomalies reflect that the market is inefficient and hence, contradicts the EMH. This book gathers both theoretical and practical perspectives, by including research issues, methodological approaches, practical case studies, uses of new policy and other points of view related to equity market efficiency to help address the future challenges facing the global equity markets and economies. On November 24, 2012, four-time World Champion boxer Ricky Hatton dropped to

his knees, felled by a sickening punch to the body in his first comeback fight in almost three years. Gasping for breath, down and out, it was then that something extraordinary happened: 20,000 fans began to sing his name. "Ricky Hatton: War and Peace" is the story of one of British boxing's true icons. From a Manchester council estate to the bright lights of Las Vegas, Ricky Hatton experienced incredible highs in his career, including one of the greatest ever wins by a British boxer, over the IBF Light Welterweight champion Kostya Tszyu. But heavy defeats to two legends of the ring, Floyd Mayweather and Manny Pacquiao, brought him quickly down to earth to face a new set of battles against depression, drink, and drugs. Written with his trademark honesty and wit, this is the inspiring story of a charismatic, funny, straight-talking fighter who boxing fans have always taken to their hearts; a man who has survived a lifetime of wars both in and out of the ring, and who only now is finding something close to peace.

Whether it's bungee jumping in Queenstown or visiting the Guinness factory in Dublin, where we travel - and what we do when we get there - has

changed significantly in the past twenty years. This innovative textbook explores what is possibly the most unrecognized of international service industries, placing tourism in the context of contemporary globalization and trade-in services. It provides new perspectives on tourism as a form of international business, and the implications for firms, the state and

individuals. Split into four separate sections, with introductions outlining the key themes in each, it examines important topics such as: the role of governance and regulation in tourism services the effects of increased global mobility on tourism entrepreneurship how tourism businesses are becoming internationalized why other

business sectors are increasingly interested in tourism. Case studies are used throughout to highlight important issues, from developments in the aviation industry to the rise of working holidays. This book gets to the core of a crucial service industry, and is essential reading for any researcher or student of tourism or international business.
